Tom Swift and His Sky Racer Victor Appleton,2013-04-15 No. I'm through for to-day, replied Tom. I'm glad to see you. I thought at first it was my chum, Ned Newton. He generally runs over in the evening. Our society, as I wrote you, Mr. Swift, is planning to hold a very large and important aviation meet at Eagle Park, which is a suburb of Westville, New York State. We expect to have all the prominent 'bird-men' there, to compete for prizes, and your name was mentioned. I wrote to you, as you doubtless recall, asking if you did not care to enter.

Race Across the Sky Derek Sherman,2013-07-30 Who would you run one hundred miles for? Caleb Oberest is an ultramarathon runner, who severed all ties to his family to race brutal 100-mile marathons across mountains. Shane Oberest is a sales rep for a cutting-edge biotechnology firm, creating new cures for the diseases of our time. Shane has spent his life longing to connect with his older brother, but the distance between them was always too vast. Caleb's running group live by strict rules, but Caleb is breaking one of them. He has fallen in love with a new member and her infant daughter. When Caleb discovers that the baby has a fatal genetic disease, he reaches out to Shane. On the verge of becoming a father himself, Shane devises a plan that could save this baby and bring his lost brother home. But to succeed, both brothers will need to risk everything they have. And so each begins a dangerous race that will push them past their boundaries, and take all of Caleb's legendary endurance to survive. Derek Sherman's authentic, compelling story of ultramarathons, biotechnology, and family takes us deep into new worlds and examines how far we will go for the people we love.

Sky Rivals Adam L. Penenberg,2016-02 During the Golden Age of Aviation of the 1920s and 1930s, two great pilots stood above the rest: one-eyed Oklahoma farm boy Wiley Post, shy and awkward on the ground but a daredevil in the sky; and Jimmie Mattern, a handsome, charismatic Hollywood stunt pilot from Texas. The whole world followed their exploits through screaming newspaper headlines as they flew in planes made of little more than wood, canvas, and bailing wire, competing to be the first solo flier to circumnavigate the earth. Only one would succeed, though the other would become more famous than he could have ever imagined. And both would change the face of aviation forever.

Race to the Sky Stephen B. Goddard,2003-01-01 Everyone knows that the Wright brothers were the first to fly, but few know of their David and Goliath struggle with their own Federal Government. President McKinley's administration allotted unprecedented funds and attracted such talent as Alexander Graham Bell and Samuel Pierpont Langley, possessed to ensure that the first flyers would be American. The Wright brothers refused government support, fearing strings attached, and resolved to go it alone. This book tracks the struggle between the Wright brothers and the Federal Government, and the raw ambition, high ideals, greed, and cloak and dagger tactics of each side. Years and years of effort came to a head in eight tense days in December of 1903 when the battle - and the fame and fortune that would follow - was decided.

Tom Swift and His Sky Racer Victor Appleton,2017-06-04 A \$10,000 prize lures Tom into competing at a local aviation meet at Eagle Park. Tom is determined to build the fastest plane around, but his plans mysteriously disappear, which means Tom must redesign his new airplane from the beginning. A side-plot through the story is Mr. Swift's failing health. Tom's Sky Racer, known as the Humming-Bird, is a two-seater monoplane, like his previous monoplane the Butterfly. However, the Sky Racer, is smaller and faster - making it ideal for air racing. It uses a single gasoline, air-cooled engine, which can attain air speeds of well over 100 mph with a minimum thrust of 1000 lbs at 2000rpm. Tom also invented an automated stabilizing unit which allowed the Sky Racer to handle adverse weather conditions without loss of control. The Sky Racer's design was compared to that of the Bleriot XI and the Antoinette VII, however its wings were patterned after that of the hummingbird, rather than standard rectangular wings.
