New Trends in Internet Market Jose Manuel Garcia Sanchez, 2007-06-04
Inhaltsangabe: Abstract: Internet. Broadband access. Mobile telephony. Fixed telephony. TV. Google. Yahoo!. Social networks. Mobile network operators. Telecommunication operators. Media conglomerates. Citizen media. All these terms have always been traditionally considered independent, but nowadays the interrelations among all of them happen more often and are becoming deeper: a new global scenario is being defined, in which communications, entertainment and information are converging, being provided by global conglomerates in our PCs, TVs and mobile devices. Nowadays technology advances will soon enable to provide users with the best internet experience on the go. Services hosts, access providers, vendors, media owners and online players now realize that the barriers that traditionally have separated their markets dilute, bringing them all in a common-global market. Internet business models have now to converge with traditional structures and merges and acquisitions happen to reach competitive positions in foreign markets. The paradigm of internet will influence and change the most popular services as they are currently known. Fixed communication providers already suffer a loss of voice revenues in favor of the cheapest online communication. Mobile operators are facing now the same situations and find themselves on a delicate strategic situation: with VoIP nearing a competitive QoS, voice alone doesn't seem to be for a long time enough as a unique revenue source... Even watching TV will be soon an enriched personalized experience through the new IP end2end platforms. Will the online players be the ones successfully accomplishing a vertical expansion of their business? How will the mobile operators react? Which will be the paper of the network access providers? What about the media and content? How will all that affect the customers? In this document will be described the nowadays situation on the different markets involved in the converging scenario, and how the respective players situate themselves strategically. An initial global point of view will be followed by the definition of strategies and trends of each of them independently, and the determination of the merging points and relations among them. The effort will be focus firstly on offering recommendations and comparisons concerning specific environments. Step by step the basis of the competition environment in the converging market will be defined, offering a strategic map of the [...]

Niklas Zennström and Skype Jason Porterfield, 2013-07-15 In 2003, Swedish businessman Niklas Zennström sent out an email message to his friends, asking them to take a look at a new Web site called Skype.com. With that message, he launched one of the most popular Internet services of the early twenty-first century. Skype revolutionized the way that people communicated by offering free and low-cost phone calls to anywhere in the world through the Internet. In the years since Zennström sent that e-mail message, more than six hundred million people worldwide have become Skype users. This informational text is aligned to content areas in social science and technology, providing readers with a compelling look at the technological world of Internet start-ups and Zennström's cutting-edge business savvy. The insightful narrative includes sidebars on some of the company's innovations, a biographical fact sheet on Zennström, and a fact sheet that profiles the company's achievements. A timeline provides students with a succinct overview of Zennström's life and Skype's history.

Intellectual Property Law and Policy Volume 10 Hugh Hansen, 2008-03-26 Hart Publishing is pleased to announce that it has recently become publisher of this prestigious and much valued work. The 15th Annual volume in the series collects the presentations and discussion from the Annual Fordham IP Conference. The contributions, by leading world experts, analyze the most pressing issues in copyright, trademark and patent law as seen from the perspectives of the USA, the EU, Asia and WIPO. This volume, in common with its predecessors, seeks to make a lasting contribution to discourse in IP law; few of the chapters are merely descriptive, and most raise questions of policy or discuss new developments. Praise for the Fordham International Intellectual Property Conference: This must be one of the most enjoyable and thought-provoking conferences in the IP field. The high quality of the speakers is matched by the intense, audience-led debates and challenges which follow. Hugh Laddie, (formerly Mr. Justice Laddie) University College, London and consultant to Rouse & Co, Willoughby & Partners. Faculty for this conference are always well-known 'names' well respected leaders in their fields, speaking with a combination of candor and timeliness that is unrivaled by any other forum of its kind. The Honorable Marybeth Peters, Register of Copyrights, United States Copyright Office.
