Sky Vistas Craig Crossen, Gerald Rhemann, 2012-12-06 Praise for Craig Crossen and Gerald Rhemann's, *Sky Vistas Astronomy* This is a practical and stunningly beautiful guide whose core is a descriptive tour of the best celestial sights: open and globular clusters, nebulae, galaxies, and large areas of sky. The photos in black and white and color, are magnificent. The text goes beyond ordinary descriptions to tell the reader something about each object's nature. Sky & Telescope Packed with information that I have encountered nowhere else in amateur-astronomy literature. Sky Vistas also includes 48 full-page color astrophotos by Gerald Rhemann, most of which are magnificent.

Magical Arrows Gregory Allen Schremp, 1992 Schremp concludes that a meaningful comparative cosmology is possible and that the tradition of Zeno provides a propitious starting point for such a perspective.

Domestications Hosam Mohamed Aboul-Ela, 2018-08-15 Domestications traces a genealogy of American global engagement with the Global South since World War II. Hosam Aboul-Ela reads American writers contrapuntally against intellectuals from the Global South in their common-yet ideologically divergent-concerns with hegemony, world domination, and uneven development. Using Edward Said's Culture and Imperialism as a model, Aboul-Ela explores the nature of U.S. imperialism's relationship to literary culture through an exploration of five key terms from the postcolonial bibliography: novel, idea, perspective, gender, and space. Within this framework the book examines juxtapositions including that of Paul Bowles's Morocco with North African intellectuals' critique of Orientalism, the global treatment of Vietnamese liberation movements with the American narrative of personal trauma in the novels of Tim O'Brien and Hollywood film, and the war on terror's philosophical idealism with Korean and post-Arab nationalist materialist archival fiction. Domestications departs from other recent studies of world literature in its emphases not only on U.S. imperialism but also on intellectuals working in the Global South and writing in languages other than English and French. Although rooted in comparative literature, its readings address issues of key concern to scholars in American studies, postcolonial studies, literary theory, and Middle Eastern studies.

Fish On! Sloane Golden, 2008-02 What are the secrets most fishermen miss right under their noses, which if they only knew, would instantly improve their chances of becoming the lucky 20% who catch all the fish, the fortunate few who know how to turn their dreams into reality? FISH ON! (SECRETS OF THE SNOOK WHISPERER) is more than a fishing guide-book, it is a guide to living, to catching big fish and landing bigger dreams. Fish On, tells the story of how author and columnist, Sloane Golden, was taken under the wing of a master fisherman from Key West--The Snook Whisperer, and of the life-changing lessons learned... Sloane Golden...in his book, Fish On, shows the fisherman how to dream big and catch big fish. But the book is about more than fishing, however; it's about the test of character, something every winner must have. -Foreward, Coach John Tortorella, Stanley Cup winner and Head Coach, Tampa Bay Lightning.

The Public Sector Alexander Stevenson, 2013-07-03 The Public Sector: Managing the Unmanageable offers practical advice to public sector managers on how to develop techniques to deal with the challenges they face, particularly in the areas of accountability, setting targets, risk management/encouraging innovation, managing people, decision making and working with politicians. Based on original interviews with politicians and senior public sector managers, including the last four cabinet secretaries, it is full of anecdotes, actionable lessons and insights.
