Quebec Cinema in the 21st Century Michael Gott,Thibaut Schilt,2024-02-06 This collection of ten chapters and three original interviews with Québécois filmmakers focuses on the past two decades of Quebec cinema and takes an in-depth look at a (primarily) Montreal-based filmmaking industry whose increasingly diverse productions continue to resist the hegemony of Hollywood and to exist as a visible and successful hub of French-language – and ever more multilingual – cinema in North America. This volume picks up where Bill Marshall's 2001 Quebec National Cinema ends to investigate the inherently global nature of Quebec's film industry and cinematic output since the beginning of the new millennium. Through their analyses of contemporary films (*Une colonie*, *Avant les rues*, *Bon cop*, *bad cop*, *Les Affamés*, *Tom à la ferme*, *Uvanga*, among others), directors (including Xavier Dolan, Denis Côté, Sophie Desrape, Chloé Robichaud, Jean-Marc Vallée, and Monia Chokri) and genres (such as the buddy comedy and the zombie film), our authors examine the growing tension between Quebec cinema as a “national cinema” and as an art form that reflects the transnationalism of today's world, a new form of fluidity of individual experiences, and an increasing on-screen presence of Indigenous subjects, both within and outside the borders of the province. The book concludes with specially conducted interviews with filmmakers Denis Chouinard, Bachir Bensadekk, and Marie-Hélène Cousineau, who provide their views and insights on contemporary Quebec filmmaking.

Core and Contingent Work in the European Union Edoardo Ales,Olaf Deinert,Jeff Kenner,2017-02-23 Labour and social security law studies have addressed the topic of the decline of the standard employment relationship mainly from the point of view of the growing number of atypical relationships. Only a limited number of studies have examined the issue from the perspective of the differentiation between core and contingent work. Such an examination is necessary as the increase in contingent work leads to complicated legal questions which vary between European states depending on the type of contingent arrangements that have become most prevalent. This book analyses, using a comparative approach, these different types of contingency from a national and EU perspective touching on the work relationship from a labour as well as a social security point of view. The aim of the book is to identify and analyse those questions adopting an innovative approach and to put forward proposals for safeguarding social cohesion within undertakings and European society.

Fixing France Nabila Ramdani,2023-10-05 France—the romanticised, revolutionary land of Liberty, Equality and Fraternity for all—is failing. Reform is urgently needed. This book is a powerful indictment of the status quo, and a highly original perspective on the challenges to which the nation must rise. Nabila Ramdani is not from the establishment elite: she is a marginalised insider, born and raised in a neglected Paris suburb. With unflinching clarity, she probes the fault lines of her struggling country, exposing the Fifth Republic as an archaic system which emerged from Algeria's cataclysmic War of Independence. Today, a monarchical President Macron shows little interest in democracy, while a far-right party founded by Nazi collaborators threatens to replace him. Segregation, institutionalised rioting, economic injustice, the debasement of women, a monolithic education system, deep-seated racial and religious discrimination, paramilitary policing, terrorism and extremism, and a duplicitous foreign policy all fuel the growing crisis. Yet Ramdani offers real hope: the broken French Republic can, and must, be fixed.

Home States and Homeland Politics Damla B. Aksel,2019-03-28 This book draws on the literatures of transnationalism and diaspora studies to explore the ways in which the policies of emigrant-sending countries have an influence on how emigrants politically engage on issues related to their homelands. Drawing on over one hundred interviews with policy makers, diplomats, bureaucrats, members of civil society and academics in Turkey, France and the United States, it offers a comparison of the engagement of Turkish migrants with political issues in Turkey in periods both before and after home state policies have been constructed with a view to engaging emigrants. As such, it will appeal to scholars of sociology and politics with interests in diaspora and the engagement of migrants with political issues in their countries of origin.

Islamism and Social Movements in North Africa, the Sahel and Beyond Aurelie Campana,Cédric Jourde,2018-12-07 As North African, Middle Eastern, and Sahelian societies adapt to the post-Arab Spring era and the rise of violence across the area, various groups find in Islam an answer to the challenges of the era. This book explores how Islamist social movements, Sufi brotherhoods, and Jihadi armed groups, in their great diversity, elaborate their social networks, and recruit sympathizers and militants in complicated times. The book innovates by transcending regional boundaries, bringing together specialists of the three aforementioned regions. First, it highlights how geographically dispersed religious groups define themselves as members of a larger, universal Umma, while evolving in deeply embedded local contexts. Second, its contributors prioritize in-depth fieldwork research, offering fine-grained, original insights into the manifold mobilization of Islamist-inspired social movements in Egypt, Libya, Tunisia, Mali, Senegal, Mauritania, Burkina Faso, and Western Europe. The book sheds light on the tense debates and competition taking place amongst the different trends composing the Islamist galaxy and between other groups that also claim an Islamic legitimacy, including Sufi brotherhoods and ethnic and/or tribal groups as well. This book was originally published as a special issue of Mediterranean Politics.

Voices in the Media Gaëlle Planchenault,2015-10-22 Verbal performances are often encountered in the media where they are used to embody characters or social archetypes. Performed voices define the norm as well as the linguistic Others and by doing so circulate associated values and linguistic ideologies. This book explores the idea that, far from simply being exercises in verbal skill and flair, performances of social, ethnic or gendered voices in the media not only have the power to accomplish ideological work, they are also sites of linguistic tension and negotiation. Critically examining performances of French voices in the media, this book raises the following questions: - How are repertoires of voices constructed and subsequently perpetuated in the media? - How do the stereotypic personae these voices contribute to build become familiar to national as well as transnational audiences? - How do such performed voices reproduce hegemonic ideologies of standard and non-standard languages and participate in the perpetuation of social discriminations? - How are these performed voices commodified into cultural products of otherness that may later be reclaimed by stigmatized communities? Following an innovative framework which allows for analysis of performances of varied voices and their impact in the media sphere, *Voices in the Media* offers a new approach to the linguistics of media performance.

Rise of French Laïcité Stephen M. Davis,2020-08-07 Americans are often baffled by France's general indifference to religion and laws forbidding religious symbols in public schools, full-face veils in public places, and even the interdiction of burkinis on French beaches. An understanding of laïcité provides insight in beginning to understand France and its people. Laïcité has been described as the complete secularization of institutions as a necessity to prevent a return to the Ancien Régime characterized by the union of church and state. To understand the concept of laïcité, one must begin in the sixteenth century with the Protestant Reformation and freedom of conscience recognized by the Edict of Nantes in 1598. This has been called the period of incipient laïcité in the toleration of Protestantism. The Revocation of the Edict of Nantes in 1685 reestablished the union of the throne and altar, which resulted in persecution of the Huguenots who fought for the principle of the freedom of conscience. French laïcité presents a specificity in origin, definition, and evolution which led to the official separation of church and state in 1905. The question in the early twentieth century concerned the Roman Catholic Church's compatibility with democracy. That same question is being asked of Islam in the twenty-first century.

Space and being in contemporary French cinema James S. Williams,2015-11-01 This book brings together for the first time five French directors who have established themselves as among the most exciting and significant working today: Bruno Dumont, Robert Guédiguian, Laurent Cantet, Abdellatif Kechiche, and Claire Denis. Whatever their chosen habitats or shifting terrains, each of these highly distinctive auteurs has developed unique strategies of representation and framing that reflect a profound investment in the geophysical world. The book proposes that we think about cinematographic space in its many different forms simultaneously (screenspace, landscape, narrative space, soundscape, spectatorial space). Through a series of close and original readings of selected films, it posits a new ‘space of the cinematic subject’. Accessible and wide-ranging, this volume opens up new areas of critical enquiry in the expanding interdisciplinary field of space studies. It will be of immediate interest to students and researchers working not only in film studies and film philosophy, but also in French/Francophone studies, postcolonial studies, gender and cultural

studies. Listen to James S. Williams speaking about his book <http://bit.ly/13xCGZN>. (Copy and paste the link into your browser)

Breaking the Silos for Planetary Health Nicole de Paula, 2021-10-16 This book translates the latest theoretical perspectives on the emerging field of Planetary Health Studies into the practical reality of global political decision makers. It builds on the scientific data on the impacts of environmental change on human health to propose practical methods for operationalizing planetary health. The book maps opportunities for decision makers to break institutional silos and engage with bottom-up approaches that can transform planetary health from a global idea into a local reality. The analysis frames human health in the Anthropocene, an era in which humans have become the most powerful force affecting global ecosystems, and reveals new existential risks for humankind. Departing from ongoing multilateral efforts to promote sustainability, the author's analysis places the agenda of planetary health on the desk of political decision makers, still underrepresented at planetary health gatherings. Given the pressing need to implement sustainable development policies, the book presents planetary health as an overarching framework for global policy targets, notably the UN Sustainable Development Goals, the Paris Agreement on Climate Change, and the post-2020 biodiversity framework under the UN Convention on Biological Diversity. The book is timely in offering a concrete road map for practitioners and researchers interested in transforming the concept of planetary health into reality. With a collection of success stories, the analysis dwells on tools for community engagement, opportunities for health professionals training, gender empowerment, digital health, and innovative ways to enhance human well-being on a changing planet.

Gatekeeping in Transition Timothy Vos, François Heinderyckx, 2015-06-08 Much of what journalism scholars thought they knew about gatekeeping—about how it is that news turns out the way it does—has been called into question by the recent seismic economic and technological shifts in journalism. These shifts come with new kinds of gatekeepers, new routines of news production, new types of news organizations, new means for shaping the news, and new channels of news distribution. Given these changing realities, some might ask: does gatekeeping still matter? In this internationally-minded anthology of new gatekeeping research, contributors attempt to answer that question. Gatekeeping in Transition examines the role of gatekeeping in the twenty-first century from organizational, institutional, and social perspectives across digital and traditional media, and argues for its place in contemporary scholarship about news and journalism.

Republic of Islamophobia James Wolfreys, 2018-05-01 Why does Islamophobia dominate public debate in France? Islamophobia in France is rising, with Muslims subjected to unprecedented scrutiny of what they wear, eat and say. Championed by Marine Le Pen and drawing on the French colonial legacy, France's 'new secularism' gives racism a respectable veneer. Jim Wolfreys exposes the dynamic driving this intolerance: a society polarized by inequality, and the authoritarian neoliberalism of the French political mainstream. This officially sanctioned Islamophobia risks going unchallenged. It has divided the traditional anti-racist movement and undermined the left's opposition to bigotry. Wolfreys deftly unravels the problems facing those trying to confront today's rise in racism. Republic of Islamophobia illuminates both the uniqueness of France's anti-Muslim backlash and its broader implications for the West.

Operation Z - English version Jacques Baud, 2023-03-07 Why did Putin launch Operation Z in Ukraine? Are Ukrainian forces using neo-Nazi volunteers? What are the forces involved and the reality of the military conflict for the past six months? What do we know about war crimes like Butcha? Have Western economic sanctions worked? Has the massive shipment of arms by the West had an effect on the conflict? After the best-seller Putin: Master of the Game, whose analysis has been praised worldwide, Jacques Baud returns in this book to the root causes of the war in Ukraine and the reasons that pushed Vladimir Putin to intervene on February 24, 2022. Using information from intelligence services and official reports, he analyzes the course of the military actions and the way they were interpreted in the West. He explains the political and economic upheaval of the world order, as well as the long-term consequences of Western sanctions on our daily lives. It reveals how the conflict could have been avoided and what avenues were deliberately left open by the United States and Europe. Jacques Baud is a former member of the Swiss Strategic Intelligence, a specialist in Eastern Europe and former head of Doctrine of the United Nations Peace Operations. Within NATO, he was involved in programs in Ukraine, including after the Maidan Revolution of 2014 and 2017. He is the author of several books on intelligence, war and terrorism, including Putin, Master of the Game? Governing by Fake News, and The Navalny Affair, all published by Max Milo.

Governig by fake news Jacques Baud, 2023-03-07 What are Islamic State is seeking to create a civil war in France; that Syrian President Bashar al-Assad used chemical weapons; that Vladimir Putin is trying to destabilise our democracies; that terrorism has struck France, not for what it does, but for what it is; that the genocide in Darfur has claimed 400,000 victims?... Literally none, but these assertions are enough to establish the foreign policy of Western countries. The author, a former agent of the Swiss strategic intelligence service, reviews the main contemporary conflicts that Western countries have managed with fake news over the last thirty years. Jacques Baud, a colonel, chemical and nuclear weapons expert, trained in counter-terrorism and counter-guerrilla warfare, designed the Geneva International Centre for Humanitarian Demining (GICHD) and its Information Management System for Mine Action (IMSMA). In the service of the United Nations, he served as Chief of Doctrine for Peacekeeping Operations in New York, and was engaged in Africa. In NATO, he led the fight against the proliferation of small arms. He is the author of several books on intelligence, asymmetric warfare and terrorism.

Religious Symbols and the Intervention of the Law Sylvie Bacquet, 2019-06-11 In contemporary pluralist states, where faith communities live together, different religious symbols and practices have to coexist. This may lead to conflicts between certain minority practices and the dominant majority, particularly around the manifestation of belief in the public domain which may be seen both by the religious and secular majorities as a threat to their cultural heritage or against the secular values of the host country. The law has to mitigate those tensions in order to protect the public from harm and preserve order but in doing so, it may where necessary have to limit citizens' ability to freely manifest their religion. It is those limitations that have been disputed in the courts on grounds of freedom of religion and belief. Religious symbols are often at the heart of legal battles, with courts called upon to consider the lawfulness of banning or restricting certain symbols or practices. This book analyses the relationship between the state, individuals and religious symbols, considering the three main forms of religious expression, symbols that believers wear on their body, symbols in the public space such as religious edifices and rituals that believers perform as a manifestation of their faith. The book looks comparatively at legal responses in England, the U.S.A and France comparing different approaches to the issues of symbols in the public sphere and their interaction with the law. The book considers religious manifestation as a social phenomenon taking a multidisciplinary approach to the question mixing elements of the anthropology, history and sociology of religion in order to provide some context and examine how this could help inform the law.

Putin Jacques Baud, 2023-07-04 Has Vladimir Putin become the master of the game? Why and how did the Russian President decide to attack Ukraine? Did he seek to prevent Ukraine from associating with Europe? Does he seek to reconstitute the USSR? Did NATO promise not to expand east after 1990? Is the Nord Stream 2 project the sinews of war? Is Ukraine's neutrality the only solution? Has Russia ever lost or won the war?... Based on the files of the intelligence services and official reports, Jacques Baud thus reviews the events of the recent history of Russia, which led to the war with Ukraine; it analyzes the various disputes between the West and Russia, and sheds light on the role that Putin plays today on the international scene. Jacques Baud is a former member of the Swiss Strategic Intelligence, a specialist in Eastern Europe and former head of Doctrine of the United Nations Peace Operations. Within NATO, he was involved in programs in Ukraine, including after the Maidan Revolution of 2014 and 2017. He is the author of several books on intelligence, war and terrorism, including Putin, Game master?, Governing by Fake News and The Navalny Affair, all published by Max Milo.
