**The Online Tutor's Toolkit** Molly Bolding, 2022-10-12 This book contains everything you need to know to get started as an online tutor. It covers the essentials of tutoring, choosing your tech and software, managing homework, and getting set up alongside detailed guidance focusing on each level of tuition. With techniques developed through research and first-hand experience, the author explains exactly how to turn existing subject knowledge into effective tutoring for students of all ages in a variety of subjects. Divided into two parts, the first answers the logistical questions facing every new tutor such as: what equipment do I need? Where can I apply? How much should I charge? The second half focuses on how to tutor different age groups effectively and subject-specific areas including English, Maths, and Science, as well as the author's tried-and-tested '5 step' process for choosing a subject, assessing a student, and planning their first lessons. There is also information on how to support students writing personal statements and applying to university, as well as teaching English as a Second Language. Alongside tailored, up-to-date information on available software, hardware, exam specifications, and the online tutoring marketplace, the book contains a 10-week timetable of adaptable lesson plans so new tutors can get started immediately. Finally, there are two additional downloadable chapters which expand on less common subjects and another which includes a digital download of every resource from the book. With suggestions for resources, homework, and timings to support you at every stage, this is an essential read for anyone wanting to succeed as an online tutor.

**Digital Photography For Dummies** Julie Adair King, 2012-03-27 Explains how to evaluate digital cameras, compose and capture scenes, adjust color balance, crop out unwanted elements, sharpen focus, apply special effects, and prepare images for printing.

**Learn Office 2011 for Mac OS X** Guy Hart-Davis, 2011-08-18 Office for Mac remains the leading productivity suite for Mac, with Apple's iWork and the free OpenOffice.org trailing far behind. Now, it's been updated with a cleaner interface and more compatibility with Exchange and SharePoint. Learn Office 2011 for Mac OS X offers a practical, hands-on approach to using Office 2011 applications to create and edit documents and get work done efficiently. You'll learn how to customize Office, design, create, and share documents, manipulate data in a spreadsheet, and create lively presentations. You'll also discover how to organize your email, contacts, and tasks with the new Outlook for Mac. Conveying information quickly and concisely, the book brings you from beginner or intermediate to an experienced and confident user. This book provides the best combination of accessible and focused coverage of the Office 2011 applications. Rather than cover every seldom-used feature, the book covers real-world usage, putting emphasis on practical tasks and troubleshooting common problems, such as sharing documents with Windows users and older versions of Office.

**Slide:ology** Nancy Duarte, 2008-08-07 Presents practical approaches for developing an effective presentation, covering such topics as creating diagrams, displaying data, arranging elements, creating movement, and interacting with slides.

**Deciding Where to Live** Melissa G. Ocepek, William Aspray, 2020-10-16 Deciding Where to Live: Information Studies on Where to Live in America explores major themes related to where to live in America, not only about the acquisition of a home but also the ways in which where one lives relates to one's cultural identity. It shows how changes in media and information technology are shaping both our housing choices and our understanding of the meaning of personal place. The work is written using widely accessible language but supported by a strong academic foundation from information studies and other humanities and social science disciplines. Chapters analyze everyday information behavior related to questions about where to live. The eleven major chapters are: Chapter 1: Where to live as an information problem: three contemporary examples Chapter 2: Turning in place: Real estate agents and the move from information custodians to information brokers Chapter 3: The Evolving Residential Real Estate Information Ecosystem: The Rise of Zillow Chapter 4: Privacy, Surveillance, and the "Smart Home" Chapter 5: This Old House, Fixer Upper, and Better Homes &

Gardens: The Housing Crisis and Media Sources Chapter 6: A Community Responds to Growth: An Information Story About What Makes for a Good Place to Live. Chapter 7: The Valley Between Us: The meta-hodology of racial segregation in Milwaukee, Wisconsin Chapter 8: Modeling Hope: Boundary Objects and Design Patterns in a Heartland Heterotopia Chapter 9: Home buying in Everyday Life: How Emotion and Time Pressure Shape High Stakes Deciders' Information Behavior Chapter 10: In Search of Home: Examining Information Seeking and Sources That Help African Americans Determine Where to Live Chapter 11: Where to Live in Retirement: A Complex Information Problem While the book is partly about the goal-directed activity of individuals who want to buy a house, and the infrastructure that supports that activity, it is also about personal activities that are either not goal directed or are directed at other goals such as deciding in which geographic location to live, personal entertainment, cultural understanding, or identity formation.

**Presentation Skills for Students** Joan van Emden, Lucinda Becker, 2017-09-16 This is the essential guide to the most transferable of all student skills: delivering a presentation clearly, coherently and confidently. Written in a friendly and accessible style, it takes the fear out of public speaking and helps students to acquire the skills they need to deliver effective presentations at university and in their future careers. Revised and updated throughout, it provides readers with practical guidance on controlling their nerves, creating visual aids and structuring presentations. This is an invaluable resource for students of all disciplines in further or higher education who have to give presentations as part of their course. It is also ideal for recent graduates looking to hone their presentation skills as they enter the job market. **The Sony SLT-A77** Carol F. Roullard,Brian Matsumoto Ph.D,2012-07-19 This book provides enthusiastic photographers with a wealth of information about the unique features of the Sony SLT-A77, an interchangeable-lens camera with an electronic viewfinder and a fixed, translucent mirror. The A77 differs from the current crop of DSLRs in its ability to use a phase detection focusing system throughout the entire picture-taking process, for both still photographs and videos. This provides an immediacy and responsiveness when using burst shots and creating HD videos that is unavailable in any other camera. In this guide, authors Carol Roullard and Brian Matsumoto teach you how to obtain exceptional photographs and videos as they cover everything from the basics of using the camera's automatic modes, to the more advanced aperture-priority, shutter-priority, program, and manual exposure modes. You'll also learn how best to take advantage of features such as the built-in dynamic range adjustment, sweep panoramic, GPS, colorization modes, facial detection and recognition, multiple shot exposures, and HD video. The authors provide you with an opportunity to improve your skills even further by discussing how third-party software and accessories can improve Sony's standard commands. You'll also learn about how the electronic viewfinder, fixed mirror, and Sony's novel shutter design improve the camera's utility for scientific photography through the microscope and telescope. Additional topics include: Advantages of the electronic viewfinder for previewing your photographs Using the accessory Sony shoe-mount flash Advantages of using the JPEG file format Advantage of having a fixed mirror and electronic first curtain shutter Settings for using the camera on a microscope and telescope Using the older Minolta Maxxum lenses
