Spon's Architects' and Builders' Price Book 2018 AECOM,2017-09-22 Construction prices rose over the last year by 5%, according to AECOM's tender price index, with construction price inflation continuing to run above the long-run average. The main drivers are rising input costs. Producer price indices have moved up at a clip in recent quarters, with sharp increases in prices for materials and fuels consumed by UK manufacturers. Demand- and supply-side factors make the probability of short-term price falls very slim. SPON'S ARCHITECTS' AND BUILDERS' PRICE BOOK 2018, compiled by AECOM, still provides the most accurate, detailed and professionally relevant construction price information for the UK. Its unique Tender Index, updated through the year, gives an ongoing reality

check and allows you to adjust for changing market conditions. Although it suits a wide range of project sizes, this is the only price book which sets out a detailed cost base for contracts exceeding £4,000,000 in value. Use the access code inside the front cover of the book to get set up with a VitalSource® ebook of this 2018 edition. This versatile and powerful online data viewing package is available for use until the end of December 2018. Major changes have been made to this 143rd edition: New Cost Models for a retail distribution unit, a palliative care unit, and a cinema As well as an overhaul of prices, several new items have been added, including: An expanded range of beam & block flooring Rainwater harvesting – with a precast concrete tank A precast concrete flow attenuation system Precast concrete communication boxes ... along with the standard features you have come to expect from SPON'S ARCHITECTS' AND BUILDERS' PRICE BOOK: 20,000 prices for the most frequently specified items, the majority with labour constants and detailed build-ups. Hundreds of alternative materials prices for the more unusual items. Detailed guidance on wage rates, daywork, cost limits and allowances, property insurance and professional fees, plus useful formulae, design criteria and trade association addresses. Updates, free of charge, two or three times a year – see inside for registration details. Updates are available online at www.pricebooks.co.uk

The Short Road to Great Presentations Cheryl Reimold,Peter Reimold,2003-06-19 A practical, readable guide to delivering superior presentations Speakers bear the responsibility for communicating effectively with their audience: presenting a clear message, supporting it with well-structured explanations and examples, and delivering it with ease, grace, and good visuals. Unfortunately, this rarely happens, as anyone who has endured a substandard presentation knows only too well. The key

for developing sound presentation skills need not, however, remain hidden. The Short Road to Great Presentations demystifies the art of public speaking as it shows you how to master the critical principles to make this skill an invaluable asset of your life and career. Drawing on twenty years of experience in helping engineers, scientists, and business people develop powerful communication skills, PERC Communications founders Peter and Cheryl Reimold present an easy-to-follow program for crafting winning presentations. They focus on two principles: 1) find a message that is clearly meaningful and accessible to your audience, and 2) connect strongly with your audience throughout your presentation. In applying these principles to a series of step-by-step preparations and on-stage actions, the authors help speakers focus on their most vital content, strengthen their structure and delivery, andâ??perhaps, most importantâ??eliminate stress and aggravation. Chapter topics in this reader-friendly guide include: Structuring your message for maximum effect Preparing effective visuals Understanding and using body language and eye contact Handling tough questions and surprises Making smart use of slide shows and presentation software Conducting Web presentations and Web meetings Timeless speaking tips are combined with up-to-date primers on the latest technology throughout. The Short Road to Great Presentations is a one-stop resource for learning and practicing superior professional communication.
