Digital Gambling César Albarrán-Torres, 2018-03-28 This book develops the concept of gamble-play media, describing how some gambling and gambling-like practices are increasingly mediated by digital technologies. Digital gambling brings gambling closer to the practices and features of videogames, as audio-visual simulations structure users' experiences. By studying digital gambling from media studies, videogame and cultural studies approaches, this book offers a new critical perspective on the issues raised by computer-mediated gambling, while expanding our perspective on what media and gambling are. In particular, it critically analyses terrestrial, mobile and online slot machines, online poker and stock trading apps through a selection of case studies.

Ethics in Contexts James W. Thompson, Richard A. Wright, 2019-05-31 The essays in this volume are an expression of appreciation of Wendell Lee Willis, who recently retired after a distinguished career as a classroom teacher, colleague, and scholar. Current and former colleagues have written to advance Wendell's research interests in the various contexts of early Christianity, particularly in the apostle Paul, New Testament ethics, and ecclesiology. Essays include discussions of issues related to Paul's correspondence with the church in Corinth and the depiction of Paul in Acts, Jesus's parables, meals, and the religious and socio-political world in which Christianity arose.

From Steel to Slots Chloe E. Taft, 2016-04-06 Bethlehem PA was synonymous with steel. But after the factories closed, the city bet its future on casino gambling. Chloe Taft describes a city struggling to make sense of the ways global capitalism transforms jobs, landscapes, and identities. While residents often have few cards to play, the shape economic progress takes is not inevitable.

I Am the Water Bucket Grady Jim Robinson, 2013-10-09 After reading the latest biography of baseball legend Mickey Mantle, the authors hero, he was

stunned to realize that his own life had, in his later years turned out much like Hall of Famer Mantle; a life of deep regret, guilt, depression and alcoholism. Robinson immediately recognized a series of similarities in their childhood experiences, especially with their respective relationships with their fathers. Robinson decided to journey to Commerce, Oklahoma on a kind of pilgrimage to the childhood home of the baseball legend and see if he could find some insights about his own life. The journey opened up painful questions about his relationship with his football coach father and led him to further investigation of the father/son issues of some of his favorite authors such as Hemingway, Faulkner, McMurtry, Salinger and James Joyce. The pilgrimage ended in a visit to the grave of his father and served to reset his life back on course. He has written with pain, humor, honesty and insight about his Salvation Through Mickey Mantle.

New Casino Slots Victor H. Royer, 2010-06-09 The Future is Now! Twenty-first century casinos are nothing like the classic dens of the Rat Pack era—the days of Elvis and Liberace and the “Mob” in the movie “Casino.” Today’s world of slots, and all casino gaming, is as up-to-date as everything else in Las Vegas. The new slots are sophisticated and computerized machines that offer excitement, entertainment, and frequent pays—if you know what to look for and how to play these new machines when you arrive at the casino....and before you start spending your money. In This Book You Will Find • More than 100 photos of the newest and best slots. • How to find the best games and machines. • How to play the newest slots—before using your own money.

Metaphor and Political Discourse A. Musolff, 2004-08-04 Far from being rhetorical ornaments, metaphors play a central role in public discourse, as they shape the structure of political categorisation and argumentation. Drawing on a very large bilingual corpus, this book, now in paperback, analyses the distribution of 'metaphor scenarios' in more than a decade of public discourse on European integration, elucidating differences in UK and German attitudes and argumentation. The corpus analysis leads to a refinement of cognitive metaphor theory by systematically relating conceptual, semantic and argumentation levels and incorporating the historical dimension of metaphor evolution. Finally, drawing on examples of metaphor negotiation and on a reassessment of Hobbes' concept of metaphor in Leviathan, the book

highlights the ethical dimension of metaphor in politics.

Marine Design XIII, Volume 1 Pentti Kujala, Liangliang Lu, 2018-06-04 This is volume 1 of a 2-volume set. Marine Design XIII collects the contributions to the 13th International Marine Design Conference (IMDC 2018, Espoo, Finland, 10-14 June 2018). The aim of this IMDC series of conferences is to promote all aspects of marine design as an engineering discipline. The focus is on key design challenges and opportunities in the area of current maritime technologies and markets, with special emphasis on: • Challenges in merging ship design and marine applications of experience-based industrial design • Digitalisation as technological enabler for stronger link between efficient design, operations and maintenance in future • Emerging technologies and their impact on future designs • Cruise ship and icebreaker designs including fleet compositions to meet new market demands To reflect on the conference focus, Marine Design XIII covers the following research topic series: • State of art ship design principles - education, design methodology, structural design, hydrodynamic design; • Cutting edge ship designs and operations - ship concept design, risk and safety, arctic design, autonomous ships; • Energy efficiency and propulsions - energy efficiency, hull form design, propulsion equipment design; • Wider marine designs and practices - navy ships, offshore and wind farms and production. Marine Design XIII contains 2 state-of-the-art reports on design methodologies and cruise ships design, and 4 keynote papers on new directions for vessel design practices and tools, digital maritime traffic, naval ship designs, and new tanker design for arctic. Marine Design XIII will be of interest to academics and professionals in maritime technologies and marine design.

Essential Statistics for Economics, Business and Management Teresa Bradley, 2007-06-05 *Essential Statistics for Economics, Business and Management* assumes no prior knowledge of statistics. It will also be highly relevant for the statistics component of courses in quantitative methods. The style of the book is similar to that of the highly successful *Essential Mathematics for Economics and Business* by Teresa Bradley and Paul Patton, with many worked examples integrated throughout. Emphasis is placed on verbalising concepts, problems and results of statistical analysis. This will help students learn how to start a problem, complete the calculations, and report the results in a way that makes sense to a non-statistician. Each concept is introduced with a brief but plausible explanation followed by Worked Examples. The Worked Examples will provide students with the necessary practice that they need in order to succeed at the subject. Emphasis is also placed on 'learning through doing' problems. Excel is used to encourage students in doing problems and to enhance understanding (with links to datasets online). Minitab printouts are also included in the text. Skills Development Exercises with brief solutions are included within the chapters, and Progress Exercises on theory and applications are provided at the end of each chapter. Solutions to all the worked examples and progress exercises are available as an appendix. Web-based supplementary materials will be provided for lecturers adopting the text, including additional exercises and solutions, excel datasets and exercises, powerpoint slides with key formula, figures and tables. Students can access an online glossary and weblinks.
