Ngoc-Thanh Nguyen,Bogdan Trawiński,Hamido Fujita,Tzung-Pei Hong,2016-03-08 The two-volume proceedings of the ACIIDS 2016 conference, LNAI 9621 + 9622, constitutes the refereed proceedings of the 8th Asian Conference on Intelligent Information and Database Systems, held in Da Nang, Vietnam, in March 2016. The total of 153 full papers accepted for publication in these proceedings was carefully reviewed and selected from 392 submissions. They were organized in topical sections named: knowledge engineering and semantic Web; social networks and recommender systems; text processing and information retrieval; database systems and software engineering; intelligent information systems; decision support and control systems; machine learning and data mining; computer vision techniques; intelligent big data exploitation; cloud and network computing; multiple model approach to machine learning; advanced data mining techniques and applications; computational intelligence in data mining for complex problems; collective intelligence for service innovation, technology opportunity, e-learning, and fuzzy intelligent systems; analysis for image, video and motion data in life sciences; real world applications in engineering and technology; ontology-based software development; intelligent and context systems; modeling and optimization techniques in information systems, database systems and industrial systems; smart pattern processing for sports; and intelligent services for smart cities.

Key Changes Howie Singer,Bill Rosenblatt,2023

This is a book about how technology has affected the music industry through a series of disruptions that have taken place ten times over the past century. Whenever technological innovations result in a compelling new way to distribute music to the public, the music industry changes in myriad and fundamental ways to adjust to the new format. And while the technologies themselves have evolved over the decades, the changes within the business follow a distinct pattern. Key Changes describes this pattern: it defines an analytical structure, the 6C Framework, that explains how the music business transformed in each era. The ten disruptions are the formats for distributing recorded music: phonograph records, radio, LPs, tapes, CDs, television, digital downloads, streaming, and streaming video; and then into the future with voice response and AI technologies, where the changes are in progress now. Each of these has a chapter in the book. The book concludes with an examination of how the 6C Framework applies across the timeline of various music formats, as well as to technologically induced changes in other industries, ranging from movies to sports to coffee, and it offers some observations about how blockchain technology could be the source of the next set of disruptive innovations in the music industry--

Real-Time Ground-Based Flight Data and Cockpit Voice Recorder Mustafa M. Matalgah,Mohammed Ali Alqodah,2023-12-19 Real-Time Ground-Based Flight Data and Cockpit Voice Recorder Unique text determining the feasibility for implementation and manufacture of ground-based black box systems

Real-Time Ground-Based Flight Data and Cockpit Voice Recorder helps familiarize the reader with the nature of issues surrounding existing black box technology integrated on aircrafts and to understand the benefits and importance of proposed real-time ground-based alternative solutions. These are based on predicting aircraft problems while in flight, including understanding the feasibility of using the already existing space and ground-based wireless technologies infrastructures for this purpose. The authors discuss expense reductions in the crash investigation when implementing the new concepts in this book as compared to existing procedures when aircraft accidents occur. The text also opens new research ideas for future investigations. Simulation codes are included to allow for further independent exploration into the covered concepts and ideas. Topics covered in the book include: Satellite Data Transfer Implementation, including basics of the technology, channel data rate, PSTN-based satellite implementation, and expected availability of spectrum Very High Frequency Digital Link (VDL), including modes, sublayers, data transfer, packet and frame structure, and number of channels needed to support a certain number of airplanes Modern Airplane Communication Technologies (including direct air-to-ground communication using 5G) and terahertz band communications; and their integration into aviation communications Black box final architecture and connectivity, including ground and UAV connectivity, and general black box wireless communications challenges For aviation industrial engineers and technical staff, managers, and aerospace and academic researchers, Real-Time Ground-Based Flight Data and Cockpit Voice Recorder is a valuable guide to existing and future technology to successfully predict aircraft problems during flight.

Logic Pro For Dummies Graham English,2023-06-20 This one-stop source for Logic Pro insight helps you spend more time creating music Every minute you spend trying to figure out how to set up a new track or build a drum loop is a minute you don’t spend creating and recording your music. The Handbook of Technology and Second Language Teaching and Learning Carol A. Chapelle,Shannon Sauro,2017-06-28 The Handbook of Technology and Second Language Teaching and Learning presents a comprehensive exploration of the impact of technology on the field of second language learning. The rapidly evolving language-technology interface has propelled dramatic changes in, and increased opportunities for, second language teaching and learning. Its influence has been felt no less keenly in the approaches and methods of assessing learners' language and researching language teaching and learning. Contributions from a team of international scholars make up the Handbook consisting of four parts: language teaching and learning through technology; the technology-pedagogy interface; technology for L2 assessment; and research and development of technology for language learning. It considers how technology assists in all areas of language development, the emergence of pedagogy at the intersection of language and technology, technology in language assessment, and major research issues in research and development of technologies for language learning. It covers all aspects of language including grammar, vocabulary, reading, writing, listening, speaking, pragmatics, and intercultural learning, as well as new pedagogical and assessment approaches, and new ways of conceiving and conducting research and development. The Handbook of Technology and Second Language Teaching and Learning demonstrates the extensive, multifaceted implications of technology for language teachers, learners, materials-developers, and researchers.

Serviceology for Designing the Future Takashi Maeno,Yuriko Sawatani,Tatsunori Hara,2016-09-18 This book provides a useful overall guide to the state of the art in theory and practice of services. It can also serve as a reference book for researchers in various fields, including engineering, marketing, economics, and other disciplines. Advanced works presented here were selected from the proceedings of the Second International Conference on Serviceology (ICServ2014), held September 14–16, 2014. This book helps readers to understand serviceology, which tackles with a broad range of services, the globalization of the economy and also enhances the quality of life of local residents.

A Commercial Law of Privacy and Security for the Internet of Things Stacy-Ann Elvy,2021-07-29 In the Internet of Things (IoT) era, online activities are no longer limited to desktop or laptop computers, smartphones and tablets. Instead, these activities now include ordinary tasks, such as using an internet-connected refrigerator or washing machine. At the same time, the IoT provides unlimited opportunities for household objects to serve as surveillance devices that continually monitor, collect and process vast quantities of our data. In this work, Stacy-Ann Elvy critically examines the consumer ramifications of the IoT through the lens of commercial law and privacy and security law. The book provides concrete legal solutions to remedy inadequacies in the law that will help usher in a more robust commercial law of privacy and security that protects consumer interests.

Smart Universities Vladimir L. Uskov,Jeffrey P. Bakken,Robert J. Howlett,Lakhmi C. Jain,2017-05-18 This book presents peer-reviewed contributions on smart universities by various international research, design and development teams. Smart university is an emerging and rapidly evolving area that creatively integrates innovative concepts; smart software and hardware systems; smart classrooms with state-of-the-art technologies and technical platforms; smart pedagogy based on modern teaching and learning strategies; smart learning and academic analytics; as well as various branches of computer science and computer engineering. The contributions are grouped into several parts: Part 1—Smart Universities: Literature Review and Creative Analysis, Part 2—Smart Universities: Concepts, Systems and Technologies, Part 3—Smart Education: Approaches and Best Practices, and Part 4—Smart Universities: Smart Long Life Learning. The book is a valuable source of research data and findings, design and development outcomes, and best practices for faculty, scholars, Ph.D students, administrators, practitioners and anyone interested in the rapidly growing areas of smart university and smart education.

MEDINFO 2017: Precision Healthcare Through Informatics A.V. Gundlapalli,M.-C. Jaulent,D. Zhao,2018-01-31 Medical informatics is a field which continues to evolve with developments and improvements in foundational methods, applications, and technology, constantly offering opportunities for supporting the customization of healthcare to individual patients. This book presents the proceedings of the 16th World Congress of Medical and Health Informatics (MedInfo2017), held in Hangzhou, China, in August

2017, which also marked the 50th anniversary of the International Medical Informatics Association (IMIA). The central theme of MedInfo2017 was Precision Healthcare through Informatics, and the scientific program was divided into five tracks: connected and digital health; human data science; human, organizational, and social aspects; knowledge management and quality; and safety and patient outcomes. The 249 accepted papers and 168 posters included here span the breadth and depth of sub-disciplines in biomedical and health informatics, such as clinical informatics; nursing informatics; consumer health informatics; public health informatics; human factors in healthcare; bioinformatics; translational informatics; quality and safety; research at the intersection of biomedical and health informatics; and precision medicine. The book will be of interest to all those who wish to keep pace with advances in the science, education, and practice of biomedical and health informatics worldwide.

Producing and Directing the Short Film and Video Peter W. Rea,David K. Irving,2015-03-24 Producing and Directing the Short Film and Video, Fifth Edition is the definitive book on the subject for the serious film student or beginning filmmaker. Its unique two-fold approach looks at filmmaking from the perspectives of both the producer and director, and clearly explains how their separate roles must work together to create a successful short film or video. Through extensive examples from award-winning shorts and insightful interviews, you will learn about common challenges the filmmakers encountered during each step of filmmaking process—from preproduction to production, postproduction, and distribution—and the techniques they used to overcome them. In celebrating this book’s twentieth anniversary, this edition has been updated to include: Two all-new, in-depth cases studies of esteemed short films—Memory Lane and the Academy Award-winning God of Love A revised chapter progression that reinforces the significance of the actor - director relationship Interviews with the filmmakers integrated alongside the text, as well as new images and behind-the-scenes coverage of production processes Revamped sections on current financing strategies, postproduction workflows, and the wide variety of distribution platforms now available to filmmakers A Where are They Now appendix featuring updates on the original filmmakers covered in the first edition An expanded companion website (www.focalpress.com/cw/rea) containing useful forms and information on distributors, grants and financing sources, film and video festivals, film schools, internet sources for short works, and professional associations

Mobile Learning Design Daniel Churchill,Jie Lu,Thomas K.F. Chiu,Bob Fox,2015-12-21 This book focuses on mobile learning design from both theoretical and practical perspectives. It introduces and discusses how mobile learning can be effectively integrated into curricula, highlighting the design of four key components of learning-centric pedagogy: Resource, Activity, Support and Evaluation in the context of mobile learning. It also investigates the learning theories underpinning mobile learning design, and includes case studies in different contexts. It provides practical insights that allow teachers to change and transform teaching practices using mobile technology. Anyone involved in mobile-technology enhanced learning and teaching will find this book both informative and useful.

Approaches and Applications of Deep Learning in Virtual Medical Care Zaman, Noor,Gaur, Loveleen,Humayun, Mamoona,2022-02-25 The recent advancements in the machine learning paradigm have various applications, specifically in the field of medical data analysis. Research has proven the high accuracy of deep learning algorithms, and they have become a standard choice for analyzing medical data, especially medical images, video, and electronic health records. Deep learning methods applied to electronic health records are contributing to understanding the evolution of chronic diseases and predicting the risk of developing those diseases. Approaches and Applications of Deep Learning in Virtual Medical Care considers the applications of deep learning in virtual medical care and delves into complex deep learning algorithms, calibrates models, and improves the predictions of the trained model on medical imaging. Covering topics such as big data and medical sensors, this critical reference source is ideal for researchers, academicians, practitioners, industry professionals, hospital workers, scholars, instructors, and students.

Interviewing and Investigating Stephen P. Parsons,2021-09-14 Interviewing and Investigating: Essential Skills for the Paralegal, Eighth

Edition, provides a thorough and practical approach to helping paralegal students establish a strong foundation in interviewing and investigating skills. And it does so by carefully placing that instruction in exactly the context of civil disputes, criminal prosecutions, and commercial business transactions where modern lawyers need assistants with those skills. The text contains materials to train students how to identify and locate witnesses, obtain vital information from both public and private sources, and how to arrange and conduct effective interviews of clients and witnesses, both in the office and in the field. The text uses not just explanations, examples, and illustrations, but realistic case studies with vetted student role-playing assignments to accomplish its pedagogical goals. The text with supporting materials is written by Stephen P. Parsons, an experienced practitioner, teacher, and author. New to the Eighth Edition: A new feature, Keep in Mind, to emphasize, recap, and follow up on important points New coverage of genetic testing as a means of identifying or locating people New and freshened examples, hypotheticals, and Learn by Doing exercises Increased coverage on how to locate and obtain medical, educational, and employment records Updated Case Studies for use in student role playing activities Updated references to multiple online resources Updated references to the Federal Rules of Civil Procedure, the Federal Rules of Criminal Procedure, and the Federal Rules of Evidence to reflect the latest amendments Continued emphasis on the latest developments in online social networking and communication technologies including public and private surveillance cameras and surveillance drones Professors and students will benefit from: A dynamic pedagogy, including hypotheticals with questions, Learn by Doing exercises, chapter summaries, and basic review questions in every chapter Examples from civil, criminal, litigation, and non-litigation scenarios Emphasis on ethical and professional standards, integrated throughout the text and focused on in a chapter devoted to ethical issues Four realistic cases for analysis and use in the Learn by Doing exercises-homicide, personal injury, domestic relations, and a commercial real estate development project

ICT: Innovation and Computing Amit Joshi,

Photographer's Guide to the Sony DSC-RX100 IV Alexander S. White,2015-09-05 This book is a complete guide to using the Sony Cyber-shot DSC-RX100 IV camera, one of the most advanced, but still pocketable, cameras available. With this book, author Alexander White provides users of the RX100 IV with a manual covering all aspects of the camera’s operation. Using a tutorial-like approach, the book shows beginning and intermediate photographers how to accomplish things with the RX100 IV, and explains when and why to use the camera’s many features. The book provides details about the camera’s shooting modes as well as its menu options for shooting, playback, setup, and special effects. The book covers all of the features of the RX100 IV that are new for this model, including its electronic shutter, faster continuous shooting, 4K video recording, and ability to shoot video at up to 960 frames per second for super slow-motion playback. The book includes more than 450 color photographs that illustrate the camera’s controls, display screens, and menus. The images also provide examples of photographs taken using the RX100 IV’s Scene mode, with settings optimized for subjects such as landscapes, sunsets, portraits, and action shots; and the Creative Style and Picture Effect menu options, with settings for altering the appearance of images. The book also provides introductions to topics such as street photography, astrophotography, and digiscoping. The book includes a full discussion of the video features of the RX100 IV, which can shoot HD and 4K (ultra-HD) movies, and which offers manual control of exposure and focus during movie recording. The book also explains the camera’s numerous features that are oriented for professional-level videography, including Picture Profiles that allow adjustment of settings such as gamma curve, black level, knee, and detail. The book provides detailed information about recording 4K video to an external video recorder using the “clean” video output from the camera’s HDMI port. In three appendices, the book discusses accessories for the RX100 IV, including cases, power sources, grips, and filter adapters, and includes a list of websites and other resources for further information. The book includes an appendix with “quick tips” on how to take advantage of the camera’s features in the most efficient ways possible. This guide to the RX100 IV includes a detailed index, so the reader can quickly find needed information about any particular feature or aspect of the camera.

Proceedings of the 13th International Conference on Soft Computing and Pattern Recognition (SoCPaR 2021) Ajith Abraham,Andries Engelbrecht,Fabio Scotti,Niketa Gandhi,Pooja Manghirmalani Mishra,Giancarlo Fortino,Virgilijus Sakalauskas,Sabri Pllana,2022-02-21 This book highlights the recent research on soft computing, pattern recognition, nature-inspired computing and their various practical applications. It presents 53 selected papers from the 13th International Conference on Soft Computing and Pattern Recognition (SoCPaR 2021) and 11 papers from the 13th World Congress on Nature and Biologically Inspired Computing (NaBIC 2021), which was held online, from December 15 to 17, 2021. A premier conference in the field of soft computing, artificial intelligence and machine learning applications, SoCPaR-NaBIC 2021 brought together researchers, engineers and practitioners whose work involves intelligent systems, network security and their applications in industry. Including contributions by authors from over 20 countries, the book offers a valuable reference guide for all researchers, students and practitioners in the fields of computer science and engineering.
