Constructing Regional Smart Education Ecosystems in China Haijun Zeng,Zhisheng Li,Jiong Guo,Zhuo Zhang,2023-12-19 This book enriches the understanding of regional smart education in China and promotes sharing of smart education case studies in China and abroad. It presents 46 case studies selected from a total of 644 case studies collected nationwide in China. These selected case studies focus on regional construction, research findings, and solutions. The case studies on regional construction mainly focus on the sustainable development mechanism of regional smart education. The research findings case studies showcase research results produced by research teams and individuals, which involve theories, models,

technologies, practical investigations, or international comparisons related to smart education. Lastly, the solution case studies are technical solutions provided by enterprises for the development of smart education, which include application scenarios, methods, and effects in regions or schools around smart educational equipment, platforms, networks, tools, resources, or integrated solutions.

Food Packaging: The Smarter Way Ashutosh Kumar Shukla, 2022-01-19 This book reviews the science and technology of food packaging and covers the potential innovations in the food packaging sector. At the same time, it highlights the issues and prospects for linking the laboratory research to the market. In addition to typical packaging requirements such as food quality, shelf life, protection, communication, and marketing, the book emphasizes the need for novel packaging materials, including biodegradable packaging for a variety of food products. A wide range of food products has been kept in focus and includes animal-based food products such as dairy products and sea foods. The book presents the next level of packaging solutions i.e., smart packaging with the applications of potential tools such as intelligent and active packaging, and includes the latest research on emerging digital technologies for packaging development, assessment, and acceptability. It further highlights the strategies including blends, reinforcing agents, cold plasma, UV light applications, chemical, and enzymatic methods and explores the new opportunities leading to improvement in the packaging performance. Smart freshness indicator applications, including gas and time-temperature indicators for quality and safety of packaged products, have been covered in detail. The book also includes the functional characteristics of edible films and coatings, including

their bioactive characteristics. Finally the book presents the rules and regulation related to packaging.

First Love Richard Vetere, 1998

Limbo Alfred Lubrano, 2010-12-22 In Limbo, award-winning journalist Alfred Lubrano identifies and describes an overlooked cultural phenomenon: the internal conflict within individuals raised in blue-collar homes, now living white-collar lives. These people often find that the values of the working class are not sufficient guidance to navigate the white-collar world, where unspoken rules reflect primarily upper-class values. Torn between the world they were raised in and the life they aspire too, they hover between worlds, not quite accepted in either. Himself the son of a Brooklyn bricklayer, Lubrano informs his account with personal experience and interviews with other professionals living in limbo. For millions of Americans, these stories will serve as familiar reminders of the struggles of achieving the American Dream.

Standard Deviations Gary Smith, 2014-07-31 How statistical data is used, misused, and abused every day to fool us: "A very entertaining book about a very serious problem." —Robert J. Shiller, winner of the Nobel Prize in Economics and author of Irrational Exuberance Did you know that baseball players whose names begin with "D" are more likely to die young? That Asian Americans are most susceptible to heart attacks on the fourth

day of the month? That drinking a full pot of coffee every morning adds years to your life, but one cup a day increases your pancreatic cancer risk? These “facts” have been argued with a straight face by credentialed researchers and backed up with reams of data and convincing statistics. As Nobel Prize-winning economist Ronald Coase cynically observed, “If you torture data long enough, it will confess.” Lying with statistics is a time-honored con. In *Standard Deviations*, economics professor Gary Smith walks us through the various tricks and traps that people use to back up their own crackpot theories. Sometimes, the unscrupulous deliberately try to mislead us. Other times, the well-intentioned are blissfully unaware of the mischief they are committing. Today, data is so plentiful that researchers spend precious little time distinguishing between good, meaningful indicators and total rubbish. Not only do others use data to fool us, we fool ourselves. Drawing on breakthrough research in behavioral economics and using clear examples, *Standard Deviations* demystifies the science behind statistics and makes it easy to spot the fraud all around us. “An entertaining primer . . . packed with figures, tables, graphs and ludicrous examples from people who know better (academics, scientists) and those who don’t (political candidates, advertisers).” —Kirkus Reviews (starred review)

Money Machine Gary V. Smith, 2017-06-08 This book looks at Wall Street wonders Warren Buffet, Benjamin Graham, and other legends and shares how you can utilize their secrets to unimaginable success! It’s time to put your money to work the smart way and stop chasing quick payoffs that never turn out. That seductive stock tip you just overheard? That’s your ticket to flushing your savings down the toilet. The story you saw on a promising new product? Only those who invested before the story came out have any chance of a solid payout. If you want to succeed in the market, you need to learn how to invest based on value, selecting stocks that will continue to enrich you for years to come. By learning the keys to value investing, *Money Machine* will teach you how to: Judge a stock by the cash it generates Determine the stock’s intrinsic value Use key investment benchmarks such as price-earnings ratio and dividend-price ratio Recognize stock market bubbles and profit from panics Avoid psychological traps that can trip you up Investing in the market doesn’t have to be reckless speculation. Invest in value, not ventures, and find the financial success all those gamblers are still looking for!

Pediatric Urology Mario Lima, Gianantonio Manzoni, 2014-11-03 This encompassing volume gathers contributions by renowned experts in the field of pediatric urology to offer a systematic and complete review of the field. The book opens with a general section covering the basis of renal function from the fetus to adulthood, diagnostic imaging, anesthesia and infections. In subsequent sections on the kidneys, upper urinary tract, bladder, urethra and genitalia, specific anomalies are described in depth, from embryological, clinical and diagnostic aspects through to surgical treatment options. Detailed attention is devoted to the role of new technologies such as endoscopic and robotic surgery, but without disregarding the classical principles of pediatric urologic surgery. Urogenital tumors are fully covered and the book closes with a large chapter on renal transplantation. Numerous black and white and color illustrations will assist the reader in better understanding the various anomalies and the surgical procedures.

Daykeepers Theresa Laveck, 2002-01-31 Dreaming and waking dance together and fly apart in our lives. Where memory of a childhood summer day converges with last night's mysterious dream. When the exuberance of a song transcends corporate banality. But the walking dreams and dreaming life leave us half-awake, searching for something as we crash into the 21st century. Where does this life that began in the 70s and snowballed into the future leave our hearts and souls? What are the phantoms of our collective dreams and deepest imaginings? Daykeepers spins poetry and prose glimpses into the beautiful, bitter, mysterious, and funny sojourns of a lifetime of days too short and nights too brief.
