*Business Under Crisis, Volume III* Demetris Vrontis, Alkis Thrassou, Yaakov Weber, S. M. Riad Shams, Evangelos Tsoukatos, Leonidas Efthymiou, 2022-01-07 From recurring episodes of great depression, oil crises, political crises, wars, debt crises, to the ongoing climate change, there is a constant pressure on businesses to cope with critical events. However, throughout history, crises have been pivotal in advancing businesses and societies. This contributed volume approaches crisis not simply as a source of problems, but also as a set of choices. It seeks to explore critical events as possible opportunities for sustainability, through process improvement, creativity, innovation and entrepreneurship. Chapters reveal that times of crisis provide opportunities for new start-ups, creativity, resilience, organisational change, and revitalisation. This book also emphasises the importance of sustainability, driven either by the market or as a response to critical events. Within the wider attempt to explore avenues for Innovation, Entrepreneurship and Sustainability at times of crisis, the book is loosely organised in three thematic sections: organisational responses to crisis; digitisation, and how technology facilitates or hinders sustainability under conditions of crisis; and SMEs, Family Firms (FF), Entrepreneurship, which explores how critical events offer opportunities for innovation.

**Mobile and Ubiquitous Systems** Patrick Sénac, Max Ott, Aruna Seneviratne, 2012-04-23 This book constitutes the thoroughly refereed post-conference proceedings of the 7th International ICST Conference on Mobile and Ubiquitous Systems, MobiQuitous 2010, held in Sydney, Australia, in December 2010. The 24 revised full papers presented were carefully reviewed and selected from 105 submissions. They cover a wide range of topics ranging from papers architectures to toolkits and mechanisms for privacy, energy efficiency and content awareness. In addition there are 11 work in progress papers and a selection of the best poster and workshop papers.

**Cell** Colin Forbes, 2003-09 Is Al-Qa'eda about to attack London? Who is the traitor in Britain, manipulating his opponents mercilessly? Time has run out. This Tweed does know. But what is the target? When and where will the attack be launched? Panic grips Whitehall and Tweed is road-blocked by bureaucrats at every turn. Unless Tweed's team track the mass killers, thousands of Londoners will be annihilated. Tweed brings in the SAS. The climax - along the Thames and London's most famous bridges - is shattering.

**Next-Generation Smart Biosensing** Kamil Reza Khondakar, Ajeet Kumar Kaushik, 2024-01-14 Quantum Sensing at the Interface of Nanotechnology Integrated Microfluidics provides broad multidisciplinary coverage of innovative quantum sensing technologies suitable to industries in the engineering, biomedical, healthcare and environmental sectors. Sections discuss emerging quantum sensing and with an introduction to microfluidic devices, smart sensors, the role of nanotechnology, smart sensing, and the role of quantum technology and artificial intelligence for nano-enabled microfluidics. Sensing technologies and nano-enabled microfluidics and their biomedical and industrial applications are explored. This will be a useful resource for those in research and industry interested in biotechnology, nanotechnology, sensing technology and their applications in multidisciplinary fields. Provides an introduction to the types of microfluidic devices, smart sensors, and the role of nanotechnology Covers smart sensing for multidisciplinary sectors Explores the challenges and prospects of nano-microfluidics systems

**Intelligent Technologies and Techniques for Pervasive Computing** Kolomvatsos, Kostas, 2013-05-31 Pervasive computing enables users to interact with information resources in their everyday lives. The development of computational technologies that can exist in ever smaller devices while simultaneously increasing processing power allows such devices to blend seamlessly into tangible environments. Intelligent Technologies and Techniques for Pervasive Computing provides an extensive discussion of such technologies, theories and practices in an attempt to shed light on current trends and issues in the adaption of pervasive systems. Within its pages, students and practitioners of computer science will find both recent developments and practical applications—an overview of the field and how intelligent techniques can help to improve user experience in the distribution and consumption of pertinent, timely information. This book is part of the Advances in Computational Intelligence and Robotics series collection.

**Encyclopedia of Mobile Phone Behavior** Yan, Zheng, 2015-03-31 The rise of mobile phones has brought about a new era of technological attachment as an increasing number of people rely on their personal mobile devices to conduct their daily activities. Due to the ubiquitous nature of mobile phones, the impact of these devices on human behavior, interaction, and cognition has become a widely studied topic. The Encyclopedia of Mobile Phone Behavior is an authoritative source for scholarly research on the use of mobile phones and how these devices are revolutionizing the way individuals learn, work, and interact with one another. Featuring exhaustive coverage on a variety of topics relating to mobile phone use, behavior, and the impact of mobile devices on society and human interaction, this multi-volume encyclopedia is an essential reference source for students, researchers, IT specialists, and professionals seeking current research on the use and impact of mobile technologies on contemporary culture.

**Evaluation of Some Android Emulators and Installation of Android OS on Virtualbox and VMware** Dr. Hidaia Mahmood Alassouli, 2021-09-07 An Android emulator is an Android Virtual Device (AVD) that represents a specific Android device. You can use an Android emulator as a target platform to run and test your Android applications on your PC. The Android Emulator runs the Android operating system in a virtual machine called an Android Virtual Device (AVD). The AVD contains the full Android software stack, and it runs as if it were on a physical device. You can also install Android on VMware Workstation, VMware Player, VMware ESXi, and Virtualbox. Once you install Android on VMware Workstation or ESXi, you will get all features available for Android installed on a smartphone. This report covers the evaluation of some Android Emulators and Installation of Android OS on Virtualbox and VMware. The report contains the following sections: 1. Enabling Hardware Virtualization 2. General guideline for installing OpenGL and running OpenGL programs on Microsoft Windows 7 and higher 3. Apk Downloader from Google Play Store to PC 4. How to install Xapk applications 5. Smart GaGa Android Emulator 6. NoxPlayer Android Emulator 7. Other Types of Gaming Android Emulators 8. Genymotion Android Emulator 9. Installing Android x86 ISO using Virtualbox 10. Installing Android x86 ISO using VMware 11. Running Android Apps on Google Chrome using ARC Welder extension

*The Texas Rancher's New Family* Allie Pleiter, 2017-09-01 A Match Made in Texas Tess Buckton returns to the Blue Thorn Ranch from Australia, badly needing Texas comfort. But the Outback follows her home when celebrity Aussie horse trainer Cooper Pine rents the ranch next door. The other Buckton siblings are worried Cooper's high profile will upset the idyllic Martins Gap community—but Tess isn't so sure. Cooper is surprisingly down-to-earth and a doting father to his special-needs daughter. But getting close enough to learn his secrets could mean exposing hers, and Tess isn't ready for that—even if Cooper and his matchmaking daughter are just what her heart is yearning for.

*Harlequin Love Inspired September 2017 - Box Set 2 of 2* Allie Pleiter, Myra Johnson, Annie Hemby, 2017-09-01 Love Inspired brings you three new titles! Enjoy these uplifting contemporary romances of faith, forgiveness and hope. THE TEXAS RANCHER'S NEW FAMILY Blue Thorn Ranch by Allie Pleiter Wanting a better life for his daughter, horse trainer Cooper Pine moves to the small Texas town of Martins Gap. But he doesn't count on his daughter becoming a matchmaker! Once little Sophie decides she wants neighbor Tess Buckton as her new mommy, it isn't long before Cooper starts to see Tess as his future wife. HER HILL COUNTRY COWBOY by Myra Johnson In taking the housekeeper job at a guest ranch, all former social worker Christina Hunter wants is a quiet place to recover from her car accident. What she gets is a too-attractive single-dad cowboy, his two adorable children and a chance at the life she's always dreamed of. HEALING HIS WIDOWED HEART by Annie Hemby Doctor Lexie Campbell planned to spend a quiet summer volunteering at a free health clinic—until forest fires force her to move. Her days become anything but calm living next door to hunky firefighter Mason Benfield—to whom she's soon losing her heart.

**The Talking Stick** Donna Levin, 2024-04-23 Four women find humor, truth, romance, and a better path forward by deconstructing memory and emotion—and expose a wannabe cult leader along the way. Hunter is lost. Her husband left her for Angelica, her former best friend whose new hit memoir is spreading unsavory lies about Hunter. She's unemployed with no prospects, and the San Francisco flea market she's wandering on a weekday is so foggy that she literally doesn't know where she is. It's only after a helpful visit and a gift from a stranger who appears from the mist that Hunter finds her resolve. She begins a support group for women

looking for new beginnings—only to have Angelica start one, too. In the next room over. One that feels very cult-y. The Talking Stick is the adventure of Hunter and the three women who join her reclamation journey. Together, they reexamine their pasts, explore their grief, addictions, parenting, and marriages, and discover that some of their most-cherished memories are romanticized versions of the truth. Meanwhile, they unearth other memories—memories that challenge how they've been living for years. And, with the help of a lawyer who prefers life on a houseboat to the pretensions of the city, Hunter unravels Angelica's scheme. The Talking Stick is a fast-paced dramedy set in the Bay Area, told with the characteristic humor of Donna Levin, an author whom Kirkus called "A witty, modern voice" and the Los Angeles Times deemed "a novelist to keep high on your reading list."

**Tourism, Travel, and Hospitality in a Smart and Sustainable World** Vicky Katsoni,2023-05-29 This book features the second volume of the proceedings of the 9th International Conference of the International Association of Cultural and Digital Tourism (IACuDiT). Held at the Syros Island in Greece in September 2022, the conference's lead theme was 'Tourism, Travel, and Hospitality in a Smart and Sustainable World'. With a full appreciation of the contributions made by numerous writers toward the progress in tourism research, this book presents a critical academic discourse on sustainable practices in a smart tourism context, stimulating future debates and advancing knowledge and understanding in this critical area of knowledge. It also puts emphasis on the knowledge economy and smart destinations notion. It enacts new modes of tourism management and development and presents chapters on emerging technologies, such as location-based services, Internet of Things, smart cities, mobile services, gamification, digital collections and the virtual visitor, social media, social networking, and augmented reality

*Mobile Computing and Wireless Networks: Concepts, Methodologies, Tools, and Applications* Management Association, Information Resources,2015-09-30 We live in a wireless society, one where convenience and accessibility determine the efficacy of the latest electronic gadgets and mobile devices. Making the most of these technologies—and ensuring their security against potential attackers—requires increased diligence in mobile technology research and development. *Mobile Computing and Wireless Networks: Concepts, Methodologies, Tools, and Applications* brings together a comprehensive range of voices and research in the area of mobile and wireless technologies, exploring the successes and failures, advantages and drawbacks, and benefits and limitations of the technology. With applications in a plethora of different research and topic areas, this multi-volume reference work benefits researchers, service providers, end-users, and information technology professionals. This four-volume reference work includes a diverse array of chapters and authors covering topics such as m-commerce, network ethics, mobile agent systems, mobile learning, communications infrastructure, and applications in fields such as business, healthcare, government, tourism, and more.

**Intelligent Environments 2016** P. Novais,S. Konomi,2016-10-12 The term Intelligent Environments (IEs) refers to physical spaces in which IT and other pervasive computing technologies are combined and used to achieve specific goals for the user, the environment, or both. The ultimate objective of IEs is to enrich user experience, improve management of the environment in question and increase user awareness. This book presents the proceedings of the following workshops, which formed part of the 12th International Conference on Intelligent Environments (IE16), held in London, UK, in September 2016: the 5th International Workshop on Smart Offices and Other Workplaces (SOOW'16); the 5th International Workshop on the Reliability of Intelligent Environments (WoRIE'16); the 1st International Workshop on Legal Issues in Intelligent Environments (LIIE'2016); the 2nd International Symposium on Future Intelligent Educational Environments and Learning (SOFIEE'16); the 2nd International Workshop on Future Internet and Smart Networks (FI&SN'2016); the International Workshop on Intelligent Environments Supporting Healthcare and Well-being (WISHWell'2016); the International Workshop on Computation Sustainability, Technologies and Applications (CoSTA'2016); the Creative Science 2016 (CS'16) and Cloud-of-Things 2016 (CoT'16); the Workshop on Wireless Body Area Networks for Personal Monitoring in Intelligent Environments (WBAN-PMIE); and the Physical Computing Workshop. The workshops focused on the development of advanced intelligent environments, as well as newly emerging and rapidly evolving topics, emphasizing the multi-disciplinary and transversal aspects of IEs, as well as cutting-edge topics. The book will be of interest to all those whose work involves them in the use of intelligent environments.

**Building Intelligent Interactive Tutors** Beverly Park Woolf,2010-07-28 Building Intelligent Interactive Tutors discusses educational systems that assess a student's knowledge and are adaptive to a student's learning needs. The impact of computers has not been generally felt in education due to lack of hardware, teacher training, and sophisticated software. and because current instructional software is neither truly responsive to student needs nor flexible enough to emulate teaching. Dr. Woolf taps into 20 years of research on intelligent tutors to bring designers and developers a broad range of issues and methods that produce the best intelligent learning environments possible, whether for classroom or life-long learning. The book describes multidisciplinary approaches to using computers for teaching, reports on research, development, and real-world experiences, and discusses intelligent tutors, web-based learning systems, adaptive learning systems, intelligent agents and intelligent multimedia. It is recommended for professionals, graduate students, and others in computer science and educational technology who are developing online tutoring systems to support e-learning, and who want to build intelligence into the system. Combines both theory and practice to offer most in-depth and up-to-date treatment of intelligent tutoring systems available Presents powerful drivers of virtual teaching systems, including cognitive science, artificial intelligence, and the Internet Features algorithmic material that enables programmers and researchers to design building components and intelligent systems

**Management, Technology, and Economic Growth in Smart and Sustainable Cities** Ruiz-Vanoye, Jorge A.,2023-10-24 Rapid urbanization poses significant challenges for cities worldwide, demanding sustainable development solutions. However, traditional city management approaches often struggle to address the complex interplay of economic growth, technology, and environmental considerations. The lack of comprehensive guidance and practical strategies hinders the establishment of smart and sustainable cities, putting long-term urban sustainability and the well-being of present and future generations at risk. *Management, Technology, and Economic Growth in Smart and Sustainable Cities* provides a timely and essential solution to the intricate challenges faced by urban areas. Edited by renowned academic scholar Jorge Ruiz Vanoye, this book features practical contributions from experts across diverse fields. By leveraging mathematical modeling, artificial intelligence, and advanced technologies, it offers tangible strategies and insights for the optimal management of smart and sustainable cities. Ideal for professionals, researchers, and executives involved in smart and sustainable city development, this book covers key topics such as smart governance, energy, healthcare, transportation, education, farming, industry, environment, and society. It equips readers with practical guidance and innovative solutions, empowering them to navigate the complexities of modern urban management, drive efficient resource utilization, enhance the quality of life, and foster sustainable economic growth.

**Green Mobile Networks** Nirwan Ansari,Tao Han,2017-05-30 Green communications is a very hot topic. As mobile networks evolve in terms of higher rates/throughput, a consequent impact on operating costs is due to (aggregate) network energy consumption. As such, design on 4G networks and beyond have increasingly started to focus on 'energy efficiency' or so-called 'green' networks. Many techniques and solutions have been proposed to enhance the energy efficiency of mobile networks, yet no book has provided an in-depth analysis of the energy consumption issues in mobile networks nor has detailed theories, tools and solutions for solving the energy efficiency problems. This book presents the techniques and solutions for enhancing energy efficiency of future mobile networks, and consists of three major parts. The first part presents a general description of mobile network evolution in terms of both capacity and energy efficiency. The second part discusses the advanced techniques to green mobile networks. The third part discusses the solutions that enhance mobile network energy efficiency as well as provides future directions. Whilst the reader is expected to have basic knowledge of wireless communications, the authors present a brief introduction of the evolution of mobile networks, providing the knowledge base for understanding the content of the book. In addition, complicated network problems are illustrated using simple examples. This will help the reader understand the concept and intuition of various techniques and solutions. Incorporates the latest research results from both academia and industry, providing an up-to-date overview of existing technologies and solutions on making mobile networks greener

Consists of three sections with a gradually increasing technical depth on green mobile networks, providing the reader with a systematic view of the research area, and helping those with different technical backgrounds to better understand the content Covers existing enabling technologies for green mobile networking, including an innovative discussion of state-of-the-art solutions and algorithms

**Knowledge-Based Intelligent Information and Engineering Systems** Mircea Gh. Negoita,2004-10-14 We were very pleased to once again extend to the delegates and, we are pleased to th say, our friends the warmest of welcomes to the 8 International Conference on Knowledge-Based Intelligent Information and Engineering Systems at Wellington - stitute of Technology in Wellington, New Zealand. The KES conferences attract a wide range of interest. The broad focus of the c- ference series is the theory and applications of computational intelligence and em- gent technologies. Once purely a research field, intelligent systems have advanced to the point where their abilities have been incorporated into many conventional appli- tion areas. The quest to encapsulate human knowledge and capabilities in domains such as reasoning, problem solving, sensory analysis, and other complex areas has been avidly pursued. This is because it has been demonstrated that these abilities have definite practical applications. The techniques long ago reached the point where they are being exploited to provide commercial advantages for companies and real beneficial effects on profits. KES 2004 provided a valuable mechanism for delegates to obtain a profound view of the latest intelligent systems research into a range of - gorithms, tools and techniques. KES 2004 also gave delegates the chance to come into contact with those applying intelligent systems in diverse commercial areas. The combination of theory and practice represents a uniquely valuable opportunity for - preciating the full spectrum of intelligent-systems activity and the "state of the art".

**UPSTART (WYSKOCZKA)** JB Woods,2020-01-13 When the body of a Government employee from GCHQ is found in an alleyway the 'Firm' is short on manpower and Hunter is persuaded to act as Local Field Controller but he discovers it is more than a wayward employee with wild fantasies. He uncovers 'Operation Upstart' (Wyskochka) a vicious nuclear plan hatched in Russia designed to divert world attention and allow them to expand into old USSR territory under the pretext of security. With the help of the local Police Hunter is able to assemble the jigsaw of proposed devastation both in the U.K. and the U.S and with the blessing of the 'Firm' he sets out to bring an end to the evil operation and avenge the murder of one of their Agents. Mission accomplished in the UK he goes to New York and enlists the help of old U.S. Army pals where following his intuition he has no option but to diffuse a mini nuclear bomb before a journey on the Amtrak Silver Meteor finally brings to and end 'Operation Upstart' and the murderous destruction aimed at upsetting World peace.

**Forbidden Past** Robert Greenslade,2014-12-11 When the town's Mafia boss, 'Bulldog', pushed out the good people and allowed savages to run riot, Nearcity crumbled and Fearcity had begun. A new barbaric Rome had emerged. But the city he poisoned had no control when one of its rogues left a girl for dead, slicing off her tongue for perverse pleasure. A secret buried in scrolls, long forgotten amongst the Vatican's underground library, has been unleashed; forbidden knowledge foretelling of another God... A creator different to the divine and more ruthless than Lucifer reigning over the fiery depths has been raised by revenge. It chose to be her guardian and failed... Never again. Man's insatiable desire to play God and judge the weak has provoked a war that will test the boundaries of any nightmare. A retired secret-agent gunning for revenge; a stubborn bounty hunter ready for bloodshed; and a renowned psychic struggling to understand the abyss of evil smothering the city he loathed. Follow their entwined paths as they journey through hell, caught up in war zone that could wipe out all humanity.

## Unveiling the Energy of Verbal Artistry: An Emotional Sojourn through **Smart Hunter Mobile**

In some sort of inundated with monitors and the cacophony of instantaneous communication, the profound energy and mental resonance of verbal art frequently disappear in to obscurity, eclipsed by the continuous onslaught of noise and distractions. However, nestled within the lyrical pages of **Smart Hunter Mobile**, a fascinating perform of fictional beauty that impulses with natural emotions, lies an memorable trip waiting to be embarked upon. Written with a virtuoso wordsmith, this interesting opus books viewers on a mental odyssey, delicately exposing the latent possible and profound impact embedded within the elaborate web of language. Within the heart-wrenching expanse with this evocative examination, we will embark upon an introspective exploration of the book is main styles, dissect their charming publishing model, and immerse ourselves in the indelible impact it leaves upon the depths of readers souls.
