Bank 4.0 Brett King,2018-12-17 Winner of best book by a foreign author (2019) at the Business Book of the Year Award organised by PwC Russia The future of banking is already here — are you ready? Bank 4.0 explores the radical transformation already taking place in banking, and follows it to its logical conclusion. What will banking look like in 30 years? 50 years? The world's best banks have been forced to adapt to changing consumer behaviors; regulators are rethinking friction, licensing and regulation; Fintech start-ups and tech giants are redefining how banking fits in the daily life of consumers. To survive, banks are having to develop new capabilities, new jobs and new skills. The future of banking is not just about new thinking around value stores, payment and credit utility — it's embedded in voice-based smart assistants like Alexa and Siri and soon smart glasses which will guide you on daily spending and money decisions. The coming Bank 4.0 era is one where either your bank is embedded in your world via tech, or it no longer exists. In this final volume in Brett King's BANK series, we explore the future of banks amidst the evolution of technology and discover a revolution already at work. From re-engineered banking systems, to selfie-pay and self-driving cars, Bank 4.0 proves that we're not on Wall Street anymore. Bank 4.0 will help you: Understand the historical precedents that flag a fundamental rethinking in banking Discover low-friction, technology experiences that undermine the products we sell today Think through the evolution of identity, value and assets as cash and cards become obsolete Learn how Fintech and tech disruptors are using behaviour, psychology and technology to reshape the economics of banking Examine the ways in which blockchain, A.I., augmented reality and other leading-edge tech are the real building blocks of the future of banking systems If you look at individual technologies or startups disrupting the space, you might miss the biggest signposts to the future and you might also miss that most of we've learned about banking the last 700 years just isn't useful. When the biggest bank in the world isn't any of the names you'd expect, when branch networks are a burden not an asset, and when advice is the domain of Artificial Intelligence, we may very well have to start from scratch. Bank 4.0 takes you to a world where banking will be instant, smart and ubiquitous, and where you'll have to adapt faster than ever before just to survive. Welcome to the future.

The White Coat Investor James M. Dahle,2014-01 Written by a practicing emergency physician, The White Coat Investor is a high-yield manual that specifically deals with the financial issues facing medical students, residents, physicians, dentists, and similar high-income professionals. Doctors are highly-educated and extensively trained at making difficult diagnoses and performing life saving procedures. However, they receive little to no training in business, personal finance, investing, insurance, taxes, estate planning, and asset protection. This book fills in the gaps and will teach you to use your high income to escape from your student loans, provide for your family, build wealth, and stop getting ripped off by unscrupulous financial professionals. Straight talk and clear explanations allow the book to be easily digested by a novice to the subject matter yet the book also contains advanced concepts specific to physicians you won't find in other financial books. This book will teach you how to: Graduate from medical school with as little debt as possible Escape from student loans within two to five years of residency graduation Purchase the right types and amounts of insurance Decide when to buy a house and how much to spend on it Learn to invest in a sensible, low-cost and effective manner with or without the assistance of an advisor Avoid investments which are designed to be sold, not bought Select advisors who give great service and advice at a fair price Become a millionaire within five to ten years of residency graduation Use a Backdoor Roth IRA and Stealth IRA to boost your retirement funds and decrease your taxes Protect your hard-won assets from professional and personal lawsuits Avoid estate taxes, avoid probate, and ensure your children and your money go where you want when you die Minimize your tax burden, keeping more of your hard-earned money Decide between an employee job and an independent contractor job Choose between sole proprietorship, Limited Liability Company, S Corporation, and C Corporation Take a look at the first pages of the book by clicking on the Look Inside feature Praise For The White Coat Investor Much of my financial planning practice is helping doctors to correct mistakes that reading this book would have avoided in the first place. - Allan S. Smart Women Love Money Alice Finn,2017-04-11 YOU ARE A SMART WOMAN, BUT DO YOU STILL: —Feel you’re too busy to invest your money? —Rely on someone else to deal? —Get bored by financial talk? —Think that investing is something only men do? —Worry you’re not smart enough? THINK AGAIN. Women have made strides in so many areas and yet we still have a blind spot when it comes to managing our money. Why? A myriad of factors cause women to earn less than men over a lifetime, making it all the more imperative that we make the money we do have work for us as much as possible. And here’s a reality check: as many as nine out of ten of us will have to manage our finances and those of our family at some point in our lives. And a lot of us think that means keeping our money “safe” in savings accounts, and not investing it. But not doing so has an opportunity cost that will lead to opportunities lost—the ability to pay for a college education, own a home, change careers to pursue a dream, or retire. Alice Finn wants to change how you think about your money, no matter how much or little you have. In *Smart Women Love Money*, Finn paves the way forward by showing you that the power of investing is the last frontier of feminism. Drawing on more than twenty years of experience as a successful wealth management adviser, Finn shares five simple and proven strategies for a woman at any stage of her life, whether starting a career, home raising children, or heading up a major corporation. Finn’s Five Life-changing Rules of Investing will secure your financial future: 1. Invest in Stocks for the Long Run: Get the magic of compounding working for you, starting now. 2. Allocate your Assets: Strategize your investing to get the most of your returns. 3. Implement with Index Funds: Take advantage of “passive” investing with simple, low-cost, and diverse funds. 4. Rebalance Regularly: Sell high and buy low without much effort, to keep you on track toward your goals. 5. Keep Your Fees Low: Uncover hidden fees so you don’t lose half of your wealth to Wall Street. Finn will also provide the tools you need to achieve long-term success no matter what the markets are doing or what the headlines say. So even in the face of uncertainty— such as the possible dumping of the fiduciary rule (requiring financial advisers to act in their client’s best interests) by the Trump administration—*Smart Women Love Money* will help you protect yourself and all of your assets for your future. Whether you have \$10, \$10,000, or more, it’s time to get smart about your money.
