Get Your Loved One Sober Robert J Meyers, Brenda L. Wolfe, 2009-07-30 The first general consumer book ever on the powerful, award-winning, scientifically proven new system of intervention that is turning the recovery field on its head. Historically there have been few options available for individuals seeking help for treatment-resistant loved ones suffering from substance abuse. Co-author Dr. Robert Meyers spent ten years developing a

treatment program that helps concerned significant others both improve the quality of their lives and learn how to make treatment an attractive option for their partners who are substance abusers. *Get Your Loved One Sober* describes this multi-faceted program that uses supportive, non-confrontational methods to engage substance abusers into treatment. Called Community Reinforcement and Family Training (CRAFT), the program uses scientifically validated behavioral principles to reduce the loved one's substance use and to encourage him or her to seek treatment. Equally important, CRAFT also helps loved ones reduce personal stress and introduce meaningful, new sources of satisfaction into their life. Key Features: -- CRAFT is more effective than other types of interventions. This breakthrough new system is sweeping the recovery field. This is its first introduction to the general public. -- Contains simple exercises readers can practice at their own pace, with no costly or heart-breaking interventions. -- Proven successful for numerous addictions, not just alcoholism.

*100 Tricks to Appear Smart in Meetings* Sarah Cooper, 2016-10-04 Funny because it's true. From the creator of the viral sensation 10 Tricks to Appear Smart in Meetings comes the must-have book you never knew you needed, 100 Tricks to Appear Smart in Meetings. In it, you will learn how to appear smart in less than half the time it takes to actually learn anything. You know those subtle tricks your coworkers are all guilty of? The constant nodding, pretend concentration, useless rhetorical questions? These tricks make them seem like they know what they're doing when in fact they have no clue. This behavior is so ingrained, so subtle, and so often mistaken for true intelligence that identifying it, calling it out, or compiling it into an exhaustive digest has never been attempted. Until now. Complete with illustrated tips, examples, and scenarios, 100 Tricks gives you actionable ways to use words like "actionable," in order to sound smart. Every type of meeting is covered, from general meetings where you stopped paying attention almost immediately, to one-on-one meetings you zoned out on, to impromptu meetings you were painfully subjected to at the last minute. It's all here. Open this book to any page and find an easy-to-digest trick with an even easier-to-digest illustration, guiding you on: how to nail the big meeting by pacing and nodding most effective ways to listen to your coworkers while still completely ignoring them the key to making your presentations

“interactive.” If you hadn’t noticed these behaviors before, you will see them now—from your colleagues, your managers, and soon yourself. Each trick is a mirror to the reality of what happens in meetings, told in the form of hilariously bad advice—advice that you might just want to take. But probably not. But maybe.

The Big Zero Kris Timmermans,Chris Roark,Rodrigo Abdalla,2019-06-17 Do you want to achieve startup speed at enterprise scale? Growth. It's what every company strives for. But it's become more and more elusive as companies struggle to hit their projected growth rates in an increasingly competitive market. While zero-based budgeting (ZBB) has been wielded for decades to cut costs, it falls short when it comes to spurring growth. But a zero-based mindset (ZBx) does that and more. ZBx facilitates forensic oversight into resource allocation that funnels savings back into growth initiatives and encourages new sources of innovation. The Big Zero shows how a ZBx approach focuses on agility over austerity, visibility over guesswork and the future over the past to fuel growth and competitiveness.

**The Power of Participation: Creating Conferences That Deliver Learning, Connection, Engagement, and Action** Adrian Segar,2015-06-23 This is a book that should be OPEN on every meeting planner's or event marketer's desk, and used every day.--Paul Salinger, VP of Marketing, Oracle In his bestselling book Conferences That Work: Creating Events That People Love Adrian Segar taught readers how to design and execute remarkable conferences. But this

book focuses on improving meetings at a finer level--the individual meeting sessions. Today, the most common reason that people give for attending face-to-face meetings is making valuable connections. Yet, time and time again, networking is relegated to meals and socials outside the sessions, and events are filled with lectures followed by a few minutes of audience questions. The Power of Participation provides conference presenters, organizers, and marketers with a comprehensive toolkit of simple techniques for creating participative sessions that involve the audience in their learning. Adrian Segar shows how you can turn passive attendees into active participants, which boosts learning, adds opportunities to meet and learn with peers during sessions, builds community and engagement, and improves desired action outcomes at your events. Smart presenters and meeting organizers are integrating experiential learning and peer connection into their events. This book tells you how to do it. Buy The Power of Participation to learn why it's so important to incorporate participant action into every aspect of your event, what you need to know to create a meeting environment that supports and encourages participation, and when and how to use this extensive compendium of specific, detailed techniques to radically improve your sessions and meetings.
