The Decline of Fertility in Europe Ansley Johnson
Coale,2017-03-14 This volume summarizes the major
findings of the Princeton European Fertility Project. The
Project, begun in 1963, was a response to the realization
that one of the great social revolutions of the last century,
the remarkable decline in marital fertility in Europe, was
still poorly understood. Originally published in 1986. The
Princeton Legacy Library uses the latest print-on-demand
technology to again make available previously out-of-print
books from the distinguished backlist of Princeton
University Press. These editions preserve the original texts
of these important books while presenting them in durable
paperback and hardcover editions. The goal of the
Princeton Legacy Library is to vastly increase access to the
rich scholarly heritage found in the thousands of books
published by Princeton University Press since its founding
in 1905.
