Smart irrigation – Smart wash Salman, M., Pek, E., and Ahmad, W.,2021-03-30 Uncertainties related to the impacts of COVID-19 on daily life are increasingly growing. Inherent effects have grown beyond the well-defined sphere of health risks and have shocked the livelihood and food security in several countries. Particularly in the poorest countries, the impact is more devastating due to the limited availability of resources to slow down the spread of the disease. These countries require immediate actions to safeguard food security and human health. Irrigation has a great role in improving crop productivity and ensuring food security. However, expanding irrigation could impact the availability of water for sanitation and hygiene which has a central role in slowing down the spread of the disease. It is, thus, clearer that irrigation development should also comply with the requirement of extended need of water for sanitation and hygiene. Developing multiple water use would certainly allow to fight the pandemic while ensuring the basic needs of food security in rural communities. To support the concept of multiple water use, a new initiative called SMART irrigation – SMART WASH is proposed for corporate solutions to enhance irrigation and provide WASH facilities to vulnerable communities, thus, responding to the critical needs in times of pandemic crisis.

The Complete Outdoors Encyclopedia Vin T. Sparano,1998-08-15 A 2013 Amazon Breakthrough Novel Award Quarter-Finalist. The Paranormal Romance Guild say - Georgiana Derwent has managed to merge the world of Oxford University, with its rich history and very British traditions with a totally entertaining and plausible vampire story. This is going to be a favourite series. A Tale of the Posh, the Privileged and the Paranormal... The Cavaliers are the most elite society at Oxford University - rich, powerful, and beautiful. No one realises that they are no ordinary students, but a group of aristocratic vampires from the English Civil War. For four hundred years they have groomed the most promising students to run the government, police, and finance in the way the vampires wish, granting them eternal life in return for absolute obedience. When Harriet French arrives at Oxford University from her working class northern state school, she's prepared for a culture shock, but not to become embroiled in the Cavaliers' scheming and bloodlust. Harriet thought she'd be busy enough juggling her demanding tutor, new friends, and the murky world of student politics. But now, she must find the rebel vampire who is killing off the members, stop the Cavaliers from orchestrating a massacre of the year's most beautiful and successful students, and defy the Society to be with the man of her dreams. Oxford Blood is a British, adult, paranormal romance. It's a tale with vampires that aren't afraid to kill and a heroine who's not afraid of sex or her own ambition. ABOUT THE AUTHOR Georgiana Derwent read History at Oxford University. Aside from the vampires, The Cavaliers Series is an exaggerated but fairly accurate portrayal of her time there. She now works in London and lives with her fiancé. He's been very supportive throughout the writing of her books, mainly because he likes to claim that all the most attractive characters are based on him. Georgiana fell in love with vampire novels after reading The Vampire Diaries back in 2000. At the time it was a struggle to find any similar paranormal romances, a situation that it's fair to say seems to have been rectified in the last few years. She now loves paranormal series such as True Blood, fantasy novels, and modern literary works in roughly equal measure. Ever since her teens, she wanted to write a vampire series. Ever since going to Oxford she wanted to write a book about her experiences there. During a dull few months between finishing university and starting her graduate job, she had the idea of combining the two and The Cavaliers Series was born.

Quantitative Methods for Food Safety and Quality in the Vegetable Industry Fernando Pérez-Rodríguez, Panagiotis Skandamis, Vasilis Valdramidis, 2018-02-06 This book focuses on the food safety challenges in the vegetable industry from primary production to consumption. It describes existing and innovative quantitative methods that could be applied to the vegetable industry for food safety and quality, and suggests ways in which such methods can be applied for risk assessment. Examples of application of food safety objectives and other risk metrics for microbial risk management in the vegetable industry are presented. The work also introduces readers to new preservation and packaging methods, advanced oxidative processes (AOPs) for disinfection, product shelf-life determination methods, and rapid analytic methods for quality assessment based on chemometrics applications, thus providing a quantitative basis for the most important aspects concerning safety and quality in the vegetable sector.

First Impressions Ann Demarais, Ph.D., Valerie White, Ph.D., 2007-12-18 What kind of first impression do you make? A first impression is the most important impression you'll ever make—and you get only one chance to make it. Business deals can be made or broken, first dates become second dates or not, friendships are created or fail to form; everything hinges on that all-important initial encounter. And yet most of us don't know how we're really seen by others. Many of us don't know how to make a good impression. Wouldn't you like others to see you as confident, interesting, attractive, and sincere? Ann Demarais, Ph.D., and Valerie White, Ph.D., consultants to many Fortune 100 companies as well as creators of First Impressions, Inc., a New York-based dating and consulting firm, offer you the keys to putting your best self forward in any new situation, whether you want to strike up a conversation at a party or are meeting a blind date or a new business client. You'll learn to see yourself as others see you, and how to tweak your style to create the impression that reflects the real you. Breaking down a successful first impression into its seven fundamentals, the authors show you how to master these principles so that you can make the best first impression. They also show how to avoid common misunderstandings that leave others with a bad impression, how to reveal the four universal social gifts, and they outline practical steps you can take to enhance your personal charm. Informative and filled with enlightening research studies, do-it-yourself checklist reviews, and dozens of helpful case histories, First Impressions is a fun, groundbreaking, and long-overdue guide to the most important moment of virtually any relationship: the first.

Dark Persuasion Joel E. Dimsdale, 2021-08-10 A harrowing account of brainwashing's pervasive role in the twentieth and twenty-first centuries This gripping book traces the evolution of brainwashing from its beginnings in torture and religious conversion into the age of neuroscience and social media. When Pavlov

introduced scientific approaches, his research was enthusiastically supported by Lenin and Stalin, setting the stage for major breakthroughs in tools for social, political, and religious control. Tracing these developments through many of the past century's major conflagrations, Dimsdale narrates how when World War II erupted, governments secretly raced to develop drugs for interrogation. Brainwashing returned to the spotlight during the Cold War in the hands of the North Koreans and Chinese. In response, a huge Manhattan Project of the Mind was established to study memory obliteration, indoctrination during sleep, and hallucinogens. Cults used the techniques as well. Nobel laureates, university academics, intelligence operatives, criminals, and clerics all populate this shattering and dark story—one that hasn't yet ended.
