Dark Ecology Timothy Morton,2016-04-12 Timothy Morton argues that ecological awareness in the present Anthropocene era takes the form of a strange loop or Möbius strip, twisted to have only one side. Deckard travels this oedipal path in Blade Runner (1982) when he learns that he might be the enemy he has been ordered to pursue. Ecological awareness takes this shape because ecological phenomena have a loop form that is also fundamental to the structure of how things are. The logistics of agricultural society resulted in global warming and hardwired dangerous ideas about life-forms into the human mind. Dark ecology puts us in an uncanny position of radical self-knowledge, illuminating our place in the biosphere and our belonging to a species in a sense that is far less obvious than we like to think. Morton explores the logical foundations of the ecological crisis, which is suffused with the melancholy and negativity of coexistence yet evolving, as we explore its loop form, into something playful, anarchic, and comedic. His work is a skilled fusion of humanities and scientific scholarship, incorporating the theories and findings of philosophy, anthropology, literature, ecology, biology, and physics. Morton hopes to reestablish our ties to nonhuman beings and to help us rediscover the playfulness and joy that can brighten the dark, strange loop we traverse.

The Book of Azrael Amber Nicole,2022-03-29 World Ender meets Ender of Worlds... For thousands of years after The Gods War the Etherworld has known peace but soon that too will change. An old enemy driven by revenge slowly builds an army behind the scenes. Temples are ransacked in search of an item long lost and enemies since the dawn of time must put aside their differences if they have any hope for survival.

Hacker, Hoaxer, Whistleblower, Spy Gabriella Coleman,2015-10-06 The ultimate book on the worldwide movement of hackers, pranksters, and activists collectively known as Anonymous—by the writer the Huffington Post says “knows all of Anonymous’ deepest, darkest secrets” “A work of anthropology that sometimes echoes a John le Carré novel.” —Wired Half a dozen years ago, anthropologist Gabriella Coleman set out to study the rise of this global phenomenon just as some of its members were turning to political protest and dangerous disruption (before Anonymous shot to fame as a key player in the battles over WikiLeaks, the Arab Spring, and Occupy Wall Street). She ended up becoming so closely connected to Anonymous that the tricky story of her inside-outside status as Anon confidante, interpreter, and erstwhile mouthpiece forms one of the themes of this witty and entirely engrossing book. The narrative brims with details unearthed from within a notoriously mysterious subculture, whose semi-legendary tricksters—such as Topiary, tflow, Anachaos, and Sabu—emerge as complex, diverse, politically and culturally sophisticated people. Propelled by years of chats and encounters with a multitude of hackers, including imprisoned activist Jeremy Hammond and the double agent who helped put him away, Hector Monsegur, Hacker, Hoaxer, Whistleblower, Spy is filled with insights into the meaning of digital activism and little understood facets of culture in the Internet age, including the history of “trolling,” the ethics and metaphysics of hacking, and the origins and manifold meanings of “the lulz.”

Slow Violence and the Environmentalism of the Poor Rob Nixon,2011-06-01 The violence wrought by climate change, toxic drift, deforestation, oil spills, and the environmental aftermath of war takes place gradually and often invisibly. Using the innovative concept of slow violence to

describe these threats, Rob Nixon focuses on the inattention we have paid to the attritional lethality of many environmental crises, in contrast with the sensational, spectacle-driven messaging that impels public activism today. Slow violence, because it is so readily ignored by a hard-charging capitalism, exacerbates the vulnerability of ecosystems and of people who are poor, disempowered, and often involuntarily displaced, while fueling social conflicts that arise from desperation as life-sustaining conditions erode. In a book of extraordinary scope, Nixon examines a cluster of writer-activists affiliated with the environmentalism of the poor in the global South. By approaching environmental justice literature from this transnational perspective, he exposes the limitations of the national and local frames that dominate environmental writing. And by skillfully illuminating the strategies these writer-activists deploy to give dramatic visibility to environmental emergencies, Nixon invites his readers to engage with some of the most pressing challenges of our time.

Defending Air Bases in an Age of Insurgency Shannon Caudill, Air University Press, 2014-08 This anthology discusses the converging operational issues of air base defense and counterinsurgency. It explores the diverse challenges associated with defending air assets and joint personnel in a counterinsurgency environment. The authors are primarily Air Force officers from security forces, intelligence, and the office of special investigations, but works are included from a US Air Force pilot and a Canadian air force officer. The authors examine lessons from Vietnam, Iraq, Afghanistan, and other conflicts as they relate to securing air bases and sustaining air operations in a high-threat counterinsurgency environment. The essays review the capabilities, doctrine, tactics, and training needed in base defense operations and recommend ways in which to build a strong, synchronized ground defense partnership with joint and combined forces. The authors offer recommendations on the development of combat leaders with the depth of knowledge, tactical and operational skill sets, and counterinsurgency mind set necessary to be effective in the modern asymmetric battlefield.

Scenes of Subjection: Terror, Slavery, and Self-Making in Nineteenth-Century America Saidiya Hartman, 2022-10-11 The groundbreaking debut by the award-winning author of *Wayward Lives*, *Beautiful Experiments*, revised and updated. Saidiya Hartman has been praised as “one of our most brilliant contemporary thinkers” (Claudia Rankine, *New York Times Book Review*) and “a lodestar for a generation of students and, increasingly, for politically engaged people outside the academy” (Alexis Okeowo, *The New Yorker*). In *Scenes of Subjection*—Hartman’s first book, now revised and expanded—her singular talents and analytical framework turn away from the “terrible spectacle” and toward the forms of routine terror and quotidian violence characteristic of slavery, illuminating the intertwining of injury, subjugation, and selfhood even in abolitionist depictions of enslavement. By attending to the withheld and overlooked at the margins of the historical archive, Hartman radically reshapes our understanding of history, in a work as resonant today as it was on first publication, now for a new generation of readers. This 25th anniversary edition features a new preface by the author, a foreword by Keeanga-Yamahtta Taylor, an afterword by Marisa J. Fuentes and Sarah Haley, notations with Cameron Rowland, and compositions by Torkwase Dyson.

How to Read Literature Like a Professor Thomas C. Foster, 2009-10-13 What does it mean when a fictional hero takes a journey? Shares a meal? Gets drenched in a sudden rain shower? Often, there is much more going on in a novel or poem than is readily visible on the surface—a symbol, maybe, that remains elusive, or an unexpected twist on a character—and there's that sneaking suspicion that the deeper meaning of a literary text keeps escaping you. In this practical and amusing guide to literature, Thomas C. Foster shows how easy and gratifying it is to unlock those hidden truths, and to discover a world where a road leads to a quest; a shared meal may signify a communion; and rain, whether cleansing or destructive, is never just rain. Ranging from major themes

to literary models, narrative devices, and form, How to Read Literature Like a Professor is the perfect companion for making your reading experience more enriching, satisfying, and fun.
