Dogs and People in Social, Working, Economic or Symbolic Interaction L. Snyder, 2016-07-29 This, the final title to be published from the sessions of the 2002 ICAZ conference, focuses on the role of man's best friend. As worker or companion, the dog has enjoyed a unique relationship with its human master, and the depth and variety of the papers in this fascinating collection is a testament to the interest that this symbiotic arrangement holds for many scholars working in archaeology today. The book covers an eclectic range of subjects, such as considering dogs as animals of sacrifice and animal components of ancient and modern religious ritual and practice; dogs as human companions subject to loving care, visual/symbolic representation, deliberate or accidental breed manipulation; as working dogs; and finally as co-inhabitants of human dwelling spaces and co-consumers of human food resources. While many of the papers in this volume have a predominant focus, they also demonstrate that the relationships between humans and dogs are rarely, if ever singular or simple. Instead these relationships are complex, often combining the practical, the ideological and the symbolic.

**Field Identification Guide to the Sharks and Rays of the Mediterranean and Black Sea** Fabrizio Serena, 2005 This volume presents a fully illustrated field guide for the identification of the sharks and rays most relevant to the fisheries of the Mediterranean and Black Sea. An extensive literature review was carried out for the preparation of this document. A total of 49 sharks, 34 batoids and 1 chimaera are fully treated. The presence of 5 sharks and 2 batoids included in this field guide, need, however, to be confirmed. The guide includes sections on technical terms and measurements for sharks and batoids, and fully illustrated keys to those orders and families that occur in the region. Each species account includes: at least one annotated illustration of the species highlighting its relevant identification characters; basic information on nomenclature, synonyms and possible misidentifications; FAO common names; basic information on size, habitat and biology, distribution, importance to fisheries, and conservation and exploitation status.

**Exploring Arab Folk Literature** Pierre Cachia, 2011-09-30 The character and range of Arab folk literature are investigated by Pierre Cachia in this collection of his pioneering essays in the field. Arranged into three sections, Cachia looks first at historical developments in the relationship between Arab folk literature and that of the elite, the gradual elaboration

of certain genres, and the producers of folk literature. He then devotes a substantial section to the consideration of single or related texts. Finally he searches for evidence of social and cultural implications and for differences of attitudes of folk and elite towards sensitive issues. This book represents a major contribution to our understanding of Arab folk literature and will be of relevance to anyone with an interest in Arab literary creativity.

*Dogs, Past and Present* Ivana Fiore, Francesca Lugli, 2023-09-07 This volume gathers contributions from scholars from a variety of disciplines to provide a comprehensive assessment of the importance of dogs through history. There is a focus on the necessity of an 'interdisciplinary perspective' to fully understand the fundamental role that dogs have played in our past.

*Empires of the Sea* Roger Crowley, 2009-05-12 In 1521, Suleiman the Magnificent, Muslim ruler of the Ottoman Empire, dispatched an invasion fleet to the Christian island of Rhodes. This would prove to be the opening shot in an epic clash between rival empires and faiths for control of the Mediterranean and the center of the world. In *Empires of the Sea*, acclaimed historian Roger Crowley has written a thrilling account of this brutal decades-long battle between Christendom and Islam for the soul of Europe, a

fast-paced tale of spiraling intensity that ranges from Istanbul to the Gates of Gibraltar. Crowley conjures up a wild cast of pirates, crusaders, and religious warriors struggling for supremacy and survival in a tale of slavery and galley warfare, desperate bravery and utter brutality. *Empires of the Sea* is a story of extraordinary color and incident, and provides a crucial context for our own clash of civilizations.

**Field Guide to the Amphibians and Reptiles of Britain and Europe** Jeroen Speybroeck, Wouter Beukema, Bobby Bok, Jan Van Der Voort, 2016-07-28 The taxonomy and systematics of European reptiles and amphibians have changed a lot in recent years, yet there is no modern, up-to-date field guide available that comprehensively covers all the species. The last illustrated field guide to European reptiles and amphibians was first published 38 years ago, and remains outdated despite occasional reprints and new editions. This major new field guide addresses this deficiency. A total of 219 species are covered in detail, with a focus on identification and geographical variation; species texts also cover distribution, habitat and behaviour. Superb colour illustrations by talented artist Ilian Velikov depict every species and all major variations, and colour photographs are also included for most species. This groundbreaking new guide will become the definitive field reference for these two groups of animals. It includes: - Over 370 colour artworks and 200 colour photographs - 155 accurate and up-to-date distribution maps - Easy-to-use keys and tables to help with swift species identification
