Ali’S Story Ali McAuley,2017-04-28 When author Ali McAuley returned home after a twenty-one-day hiking trip in Nepal, she came to an important and life-changing realization. Her marriage to her husband, Macka, was over. During her trip, she got in touch with feelings and passions she had either forgotten about or had never experienced. She was free to discover who she was. In Alis Story, McAuley shares what happened after she moved out of her home, including the suicide of her estranged husband, Macka. She tells how this pivotal event affected not only her but her three teen-aged boys. The emotional baggage of Mackas death prompted McAuley to reassess her life, and she made some important decisions and next steps. In this memoir, she narrates her personal journey, her spiritual awakening, and how she finally came to terms with her relationships with others, especially Macka, and his death. McAuley offers a look at how the turbulence and power of the rough sea guided her home and how she attained peace within her heart.

Think in 3D Clyde Dsouza,2012 Think in 3DStereoscopic 3D is crossing over from Hollywood into mainstream Television, Advertising, and even Education. This book is designed to inspire a new kind of 3D thinking in Directors, Cinematographers and Film School Graduates, to encourage further exploration and integration of Stereoscopic 3D into the process of visual storytelling.Stereoscopic 3D should not only be about rigs and parallax any more than traditional filmmaking is about focal lengths and aspect ratios. Certainly there are techniques and considerations that have to be taken into account when making good Stereo 3D, but ultimately it is only how Stereoscopic 3D influences the audience's experience of a film that is important.This book is not a nuts and bolts, mirror rigs and depth budget handbook; instead it is a dialogue, a story and conversation designed to provoke new kinds of Stereo 3D thinking, as we delve into this fascinating new medium of visual communication.The book will lead you through an exploration of the most important questions about S3D's present, then inspire you to venture into the Why and What If? Hopefully that will lead to insights and inspire Directors, DPs and upcoming Stereographers, to unleash the true potential that S3D has as an integral, enriching part of the filmmaking process.
