Regarded as a crucial figure in the development of structuralism, his writings are studied across a wide range of disciplines, including anthropology, philosophy and literary studies. The Cambridge Companion to Lévi-Strauss presents a major reassessment of his work and influence. The fifteen specially-commissioned essays in this volume engage with the controversies that have surrounded his ideas, and they probe the concealed influences and clichés that have obscured a true understanding of his work. The contributors are experts drawn from a number of fields, demonstrating the durability and importance of Lévi-Strauss's work in the academy. Written for students and researchers alike, these incisive, jargon-free essays will be essential reading for anybody who wishes to gain a deeper understanding of this important thinker.

Three Years' Wanderings of a Connecticut Yankee, in South America, Africa, Australia, and California C. M. Welles, 1859 Author's travels from 1853-1856.

Birds of Interior BC and the Rockies Richard Cannings, 2009 Birdwatching is one of America's most popular activities, but many field guides are so comprehensive or advanced that they intimidate novice birders. Covering the region north of the U.S. border, south of Prince George, east of Manning Park and west into the Rockies, *Birds of Interior BC and the Rockies* is for beginning and intermediate birders who wish to identify the birds they regularly spot in this area. However, the book will also appeal to more experienced local and visiting birders who want to learn more about the behavior, habitat and seasonal occurrence of local birds. Packed with useful information, this handy, portable guide tells you how to identify local birds, find out where they live and what they eat, how to attract birds to your yard and how to select a pair of binoculars. Identification is made easy with more than 400 sharp, full-color photos illustrating over 200 species of birds, in the

plumage most likely seen in the region and color-coded by species. There's even a checklist to record your sightings.
