Narratives Crossing Borders Herbert Jonsson, Lovisa Berg, Chatarina Edfeldt, 2021-06-15 Which is the identity of a traveler who is constantly on the move between cultures and languages? What happens with stories when they are transmitted from one place to another, when they are retold, remade, translated and re-translated? What happens with the scholars themselves, when they try to grapple with the kaleidoscopic diversity of human expression in a constantly changing world? These and related questions are explored in the chapters of this collection. Its overall topic, narratives that pass over national, language and ethnical borders includes studies about transcultural novels, poetry, drama, and the narratives of journalism. There is a broad geographic diversity, not only in the collection as a whole, but also in each of the single contributions. This in turn demands a multitude of theoretical and methodological approaches, which cover a spectrum of concepts from such different sources as post-colonial studies, linguistics, religion, aesthetics, art, and media studies, often going beyond the well-known Western frameworks. The works of authors like Miriam Toews, Yoko Tawada, Javier Moreno, Leila Abouela, Marguerite Duras, Kyoko Mori, Francesca Duranti, Donato Ndongo-Bidyogo, Ribi Hideo, and François Cheng are studied from a variety of perspectives. Other chapters deal with code-switching in West African novels, border crossing in the Japanese noh drama, translational anthologies of Italian literature, urban legends on the US-Mexico border, migration in German children's books, and war trauma in poetry. Most of the chapters are case studies of specific works and authors, and may thus be of interest, not only for specialists, but also for the general reader.

Disaster Resilience from a Sociological Perspective Barbara Lucini, 2014-05-03 Natural disasters

traumatize individuals, disrupt families, and destabilize communities. Surviving these harrowing events calls for courage, tenacity, and resilience. Professional planning requires specific types of knowledge of how people meet and cope with extreme challenges. *Disaster Resilience from a Sociological Perspective* examines three major earthquakes occurring in Italy over a fourteen - year period for a well-documented analysis of populations' responses to and recovery from disaster, the social variables involved, and the participation of public agencies. This timely volume reviews sociological definitions and models of disaster, identifying core features of vulnerability and multiple levels of individual and social resilience. The analysis contrasts the structural and supportive roles of Italy's civil protection and civil defense services in emergency planning and management as examples of what the author terms professional resilience. And testimony from earthquake survivors and volunteers gives voice to the social processes characteristic of disaster. Among the areas covered: Social context for concepts of disaster, vulnerability, risk, and resilience Types of resilience: a multidimensional analysis, focused on a physical, ecological, and ecosystem perspective Findings from three earthquakes: loss, hope, and community. Two systems of organizational response to emergencies Toward a relational approach to disaster resilience planning Plus helpful tables, methodological notes, and appendices For researchers in disaster preparedness, psychology, and sociology, *Disaster Resilience from a Sociological Perspective* raises--and addresses--salient questions about people and communities in crisis, and how studying them can improve preparedness in an uncertain future.

Gimme Some Sugar Sawyer Bennett, 2019-06-11 Larkin Mancinkus prides herself on making the town of Whynot, North Carolina just a little sweeter. As owner of Sweet Cakes Bakery, Larkin gets all the town gossip – the sugar, the spice, and the everything not so nice. So when she finds herself on

the tip of everyone's tongue thanks to an encounter with a mysterious and handsome stranger, she learns the true meaning of 'if you can't stand the heat, get out of the kitchen.' Deacon Locke has spent his life traveling the world with no particular destination in mind. But when he rolls into Whynot on his Harley, he just knows there is something different about this town. What he doesn't know is that out of all the places he's traveled and all the people he's met, the gorgeous bakery owner might just entice him to put down some solid roots. Come on down to see what's cookin' between Larkin and Deacon!

Overcoming School Refusal Joanne Garfi, 2018-01-31 School refusal affects up to 5% of children and is a complex and stressful issue for the child, their family and school. The more time a child is away from school, the more difficult it is for the child to resume normal school life. If school refusal

becomes an ongoing issue it can negatively impact the child's social and educational development. Psychologist Joanne Garfi spends most of her working life assisting parents, teachers, school counsellors, caseworkers, and community policing officers on how best to deal with school refusal. Now her experiences and expertise are available in this easy-to-read practical book. Overcoming School Refusal helps readers understand this complex issue by explaining exactly what school refusal is and provides them with a range of strategies they can use to assist children in returning to school. Areas covered include: • types of school refusers • why children refuse to go to school • symptoms • short term and long term consequences • accurate assessment • treatment options • what parents can do • what schools can do • dealing with anxious high achievers • how to help children on the autism spectrum with school refusal

Cantata 12 Weinen Klagen Sorg Johann Sebastian (COP) Bach, Paul Horn, 1984-11 inch....this work is likely to become a standard work very quickly and is to be recommended to all schools where recorder studies are undertaken inch. (Oliver James, Contact Magazine) A novel and comprehensive approach to transferring from the C to F instrument. 430 music examples include folk and national songs (some in two parts), country dance tunes and excerpts from the standard treble repertoire of • Bach, Barsanti, Corelli, Handel, Telemann, etc. An outstanding feature of the book has proved to be Brian Bonsor's brilliantly simple but highly effective practice circles and recognition squares designed to give, in only a few minutes, concentrated practice on the more usual leaps to and from each new note and instant recognition of random notes. Quickly emulating the outstanding success of the descant tutors, these books are very popular even with those who normally use tutors other than the Enjoy the Recorder series.

Cool Comfort Marsha Ackermann, 2013-08-06 The year 2002 marked the 100th anniversary of the

first installation of air-conditioning. During the past century, it has become a staple of American life; 83% of US homes are now air-conditioned. In this engaging social history, Marsha Ackermann explores how the idea of “cooling” became firmly embedded in the social perceptions and expectations of Americans, transforming our definition of comfort and the way we live, work, and play.

Fighting With Allies Robin Renwick,2016-10-06 It was Winston Churchill who, in his speech at Fulton, Missouri, advocated a 'special relationship between the British Commonwealth ... and the United States ... the continuance of intimate relationships between our military advisers, leading to the common study of potential dangers'. Through the eyes of Churchill, Roosevelt and their successors, Robin Renwick traces the development of the Anglo-American relationship since the desperate summer of 1940, and the part it played in shaping the post-war world. Detecting once again a whiff of the 1930s in the air, he concludes that, as one of the ties that binds Europe and North America, the relationship remains an important one, and not only to Britain and the United States. There are many on both sides of the Atlantic who will think that the world would have been poorer without it. Its future will depend on learning the lessons of military overstretch in Iraq and Afghanistan and resolving the mismatch between Britain's desire to play a role in world affairs and the resources allocated to doing so.
