Tibetan Meditation Music Nawang Khechog,2007-04-01 Tapping into the richness of Tibet's meditation tradition, Nawang Khechog has created his most relaxing album--wholly focused on helping listeners experience inner stillness. On Tibetan Meditation Music, Nawang combines the traditional spiritual chants and songs that have been heard in Tibet for centuries with his own masterful flute compositions. The result is a soothing blend that has been embraced by many Tibetan and Korean monks, nuns, and people around the world from all walks of life--to enhance a meditative practice, or just to find a refreshing moment of pure serenity. In a unique approach on this recording, Nawang de-emphasizes rhythm and uses subtle accents of vocals, bells, percussions, and Western classical instruments to enhance the calming and spacious sound of his meditative flute and Tibetan spiritual chants. As his most tranquil offering yet, Tibetan Meditation Music has a timeless quality that evokes the feeling of sitting on a Himalayan mountain, gazing in to the infinite space with natural freedom and eternal peace. This is the perfect musical accompaniment for meditation, yoga, t'ai chi, healing--and complete relaxation.

Sync or Swarm, Revised Edition David Borgo,2022-02-10 The revised edition of Sync or Swarm promotes an ecological view of musicking, moving us from a subject-centered to a system-centered view of improvisation. It explores cycles of organismic self-regulation, cycles of sensorimotor coupling between organism and environment, and cycles of intersubjective interaction mediated via socio-technological networks. Chapters funnel outward, from the solo improviser (Evan Parker), to nonlinear group dynamics (Sam Rivers trio), to networks that comprise improvisational communities, to pedagogical dynamics that affect how individuals learn, completing the hermeneutic circle. Winner of the Society for Ethnomusicology's Alan Merriam prize in its first edition, the revised edition features new sections that highlight electro-acoustic and transcultural improvisation, and concomitant issues of human-machine interaction and postcolonial studies.

The Four Seasons: Summer Antonio Vivaldi, A violin solo with piano accompaniment by Antonio Vivaldi.

Music and Trance Gilbert Rouget,1985-12-15 Ritual trance has always been closely associated with music—but why, and how? Gilbert Rouget offers and extended analysis of music and trance, concluding that no universal law can explain the relations between music and trance; they vary greatly and depend on the system of meaning of their cultural context. Rouget rigorously examines a worldwide corpus of data from ethnographic literature, but he also draws on the Bible, his own fieldwork in West Africa, and the writings of Plato, Ghazzali, and Rousseau. To organize this immense store of information, he develops a typology of trance based on symbolism and external manifestations. He outlines the fundamental distinctions between trance and ecstasy, shamanism and spirit possession, and communal and emotional trance. Music is analyzed in terms of performers, practices, instruments, and associations with dance. Each kind of trance draws strength from music in different ways at different points in a ritual, Rouget concludes. In possession trance, music induces the adept to identify himself with his deity and allows him to express this identification through dance. Forcefully rejecting pseudo-science and reductionism, Rouget demystifies the so-called theory of the neurophysiological effects of drumming on trance. He concludes that music's physiological and emotional effects are inseparable from patterns of collective representations and behavior, and that music and trance are linked in as many ways as there are cultural structures.

Daring to Rest Karen Brody,2017-11-01 What if you could reboot your health, tap into your creative self, reclaim your wild nature, lead from your heart—and still feel well rested? As modern women, we're taught that we can do it all, have it all, and be it all. While this freedom is beautiful, it's also exhausting. Being a worn-out woman is now so common that we think feeling tired all the time is normal. According to Karen Brody, feeling this

exhausted is not normal—and it's holding us back. In *Daring to Rest*, Brody comes to the rescue with a 40-day program to help you reclaim rest and access your most powerful, authentic self through yoga nidra, a meditative practice that guides you into one of the deepest states of relaxation imaginable. It's time to lie down and begin the journey to waking up. Though it comes from the yogic tradition, yoga nidra doesn't look like a typical yoga class—the entire practice is done lying down. As you listen to a guided meditation, you're gently taken into complete inner stillness, effortlessly releasing into a healing state that works on both cellular and subtle body levels. With *Daring to Rest*, Brody presents a comprehensive yoga nidra program that unfolds in three phases: rest for physical exhaustion, release for mental and emotional exhaustion, and rise for tuning in to the life purpose exhaustion that can come when we're not in our full power. Each phase includes a downloadable yoga nidra guided meditation and supportive practices. By directly accessing your subconscious mind, yoga nidra helps shift the long-held patterns that prevent you from stepping fully into your purpose and power, writes Brody. Now is the time to break the cycle of fatigue and return to your truest self—the woman you are when you're not constantly exhausted. This is a book about yoga nidra, a meditation practice that helps with relaxation, sleep, rest, and healing.

Good Night Yoga Mariam Gates, 2015-04-01 Kids love yoga—and it's great for them, so much so that the President's Council has added the practice to the fitness activities in the annual President's Challenge. For parents and caregivers looking for a fun and effective new routine for bedtime, innovative educator Mariam Gates presents *Good Night Yoga*, a playful yet wholly practical book for preparing for sleep. This beautifully illustrated, full-color book tells the story of the natural world as it closes down for the night, while teaching children a simple flow of yoga postures inspired by their favorite characters from nature. Moving from "Sun Breath" to "Cloud Gathering" to "Ladybug & Butterfly" and more, readers learn techniques for self-soothing, relaxing the body and mind, focusing attention, and other skills that will support restful sleep and improve overall confidence and well-being.

Bringing Buddhism to Tibet Lewis Doney, 2020-12-16 *Bringing Buddhism to Tibet* is a landmark study of the *Dba' bzhed*, a text recounting the introduction of Buddhism to Tibet. The narrative of Buddhism's arrival in Tibet is known from a number of versions, but the *Dba' bzhed*—preserved in a single manuscript—is the oldest complete copy. Although the *Dba' bzhed* stands at the head of a long tradition of history writing in the Tibetan language, and has been known for more than two decades, this book provides a full transcription of the Tibetan for the first time, together with a new translation. The book also introduces Tibetan history and the *Dba' bzhed* with several introductory chapters on various aspects of the text by experienced scholars in the field of Tibetan philology. These detailed studies provide analysis of the text's narrative context, its position within traditional and current historiography, and the organisation and structure of the text itself and its antecedents. *Bringing Buddhism to Tibet* is essential reading for anyone interested in Tibetan history and kingship, the nature of Tibetan historical narrative or the traditions of text transmission and codicology. The book will also be of general interest to students of Buddhism and the spread of Buddhism across Asia.

The High-Performance Mind Anna Wise, 1997-01-27 Her purpose here is to discuss and illustrate the four types of brain waves—beta, alpha, theta, and delta—with emphasis on what they do, how they work together, and whether we can use their power.—Booklist.

Breathe and Be Kate Coombs, 2017-11-01 I breathe slowly in, I breathe slowly out. My breath is a river of peace. I am here in the world. Each moment I can breathe and be. Hear thunder crash, feel your toes touch sand, and watch leaves drift softly away on a quiet stream. The simple poems in *Breathe and Be* help children learn mindfulness as they connect to the beauty of the natural world. Mindfulness teaches us how to stay calm,

soothe our emotions, and appreciate the world around us. Whether we're watching tiny colored fish darting in the water or exploring the leaves, branches, and roots of a towering tree, the thoughtful words and the lovely art of Breathe and Be remind us how much joy we can find by simply living with awareness and inner peace. Ages 4-8

The Power and the Pain Andrew Holecek, 2010-03-16 We all encounter obstacles on a daily basis—from small inconveniences and nuisances to the really big hardships wreaking havoc with our lives. Sometimes just the small things are enough to set us reeling. Andrew Holecek offers us a progressive path beginning with common, easily understood hardships and moving on to more subtle and challenging ones that commonly arise on our spiritual journeys.

The Awesome Human Project Nataly Kogan, 2022-02-08 The Awesome Human Project is an accessible, super-practical book that teaches the emotional fitness skills so many of us need to struggle less, have more energy, and experience more meaning and joy in life and at work--

Happier Now Nataly Kogan, 2018-05-01 Experience more joy and meaning each day—and have greater resilience when times get tough What if you could be happier, right now, without radically changing your life? As nationally recognized happiness expert Nataly Kogan teaches, happiness is not a nice feeling or a frivolous extra. It's a critical, non-negotiable ingredient for living a fulfilling, meaningful, and healthy life—and it's a skill that we can all learn and improve through practice. In *Happier Now*, Nataly shares an illuminating, inspiring, and science-based guide to help you build your happier skills and live with more joy, starting now. Nataly's own journey from Russian refugee to successful investor, tech executive, and founder and CEO of Happier taught her an important lesson: no matter how much you accomplish, how much you live the right way, or even how much gratitude you practice, life won't always be smooth. We experience genuine and lasting happiness when we stop trying to turn the negative into the positive, Nataly writes, and when we embrace the full range of our human emotions with compassion and strength. Throughout this engaging guide, Nataly describes how she went from being cynical and resistant to the ideas behind self-improvement and spirituality, to studying everything she could on the science of happiness, to completely shifting her mind-set. You'll learn five core practices for building your happier skills—acceptance, gratitude, intentional kindness, knowing your bigger why, and self-care—along with the scientific research that supports each one. Highlights include: Daily Anchors—Cultivate a custom set of simple daily practices, fine-tuned for your emotional health needs • Bring more joy and meaning into your life as it is—without needing to make difficult or time-consuming changes • How happiness leads to many of the things you want in life, rather than results from them • Learn an effective five-minute happier workout for whenever you need a boost • Strengthen your emotional immune system so you can be okay when times are tough—and bounce back to happy sooner • Specific instructions for tools and techniques that work—based on what's actually happening in your brain • Effective exercises, journaling prompts, and key insights for developing each core happier skill As Nataly says: It's time to stop saying 'I'll be happy when . . .' and start saying 'I'm happier now because . . .'
