General Benjamin Smith Alan D. Watson,2014-01-10 This

biography is about one of North Carolina's early governors, an advocate for public education in the post-Colonial period. Benjamin Smith (1757-1826) came from a distinguished South Carolina family and acquired enormous wealth in the Cape Fear region as a member of the planter class. Like his elite white peers, Smith was active in public life, in county government and as a legislator in state politics. He promoted public schools, the University of North Carolina, domestic manufacturing, banking, penal reform, and internal improvements. Earning the nickname General because of his militia activities, he rose to governorship but ended up dying in poverty.

The Fourth Angel Suzanne Chazin,2015-04-20 "Suzanne Chazin will do for firefighting what Patricia Cornwell did for forensic science . . . A white-hot debut from a tremendous new talent" (Lee Child, #1 New York Times–bestselling author). When an inferno in Manhattan claims fifty lives, Georgia Skeehan, a rookie marshal with the New

York City Fire Department, is thrust into command of the investigation. Georgia suspects the fire may have been started by something New York has never seen before: HTA, a kitchen-sink concoction with the thermal power of rocket fuel. HTA fires—though rare over the last decade—are so ferocious that they can melt a building’s steel and concrete framework in minutes. Georgia soon unearths another startling possibility: The blaze may be connected to three other unsolved New York fires—and to several eerie, scripture-laden letters from a madman who calls himself the “Fourth Angel.” As she races to unravel the clues before more lives are lost, she is troubled by the erratic behavior of her partner and by the betrayal of another marshal—a man she trusted with her heart and her life. As Georgia battles for respect in the nearly all-male bastion of the FDNY, the Fourth Angel tightens his grip on his real quarry—and plots an even more catastrophic and fiery finale. “Chazin dazzles with her knowledge of pyrotechnics and comes up with plot twists aplenty.” —People “A red-hot debut.” —USA Today

Springer,Herbert J. Walberg,2017-09-25 Sponsored by the National Center on School Choice, a research consortium headed by Vanderbilt University, this volume examines the growth and outcomes of the charter school movement. Starting in 1992-93 when the nation's first charter school was opened in Minneapolis, the movement has now spread to 40 states and the District of Columbia and by 2005-06 enrolled 1,040,536 students in 3,613 charter schools. The purpose of this volume is to help monitor this fast-growing movement by compiling, organizing and making available some of the most rigorous and policy-relevant research on K-12 charter schools. Key features of this important new book include: Expertise – The National Center on School Choice includes internationally known scholars from the following institutions: Harvard University, Brown University, Stanford University, Brookings Institution, National Bureau of Economic Research and Northwest Evaluation Association. Cross-Disciplinary – The volume brings together material from related disciplines and methodologies that are associated with the individual and systemic effects of charter schools. Coherent Structure – Each section begins with a lengthy introduction that summarizes the themes and major findings of that section. A summarizing chapter by Mark Schneider, the Commissioner of the National Center on Educational Statistics, concludes the book. This volume is appropriate for researchers, instructors and graduate students in education policy programs and in political science and economics, as well as in-service administrators, policy makers, and providers.

How the South Joined the Gambling Nation Michael Nelson,John

Lyman Mason,2007-09-01 A national map of legalized gambling from

1963 would show one state, Nevada, with casino gambling and no states with lotteries. Today's map shows eleven commercial casino states, most of them along the Mississippi River, forty-two states with state-owned lotteries, and racetrack betting, slot-machine parlors, charitable bingo, and Native American gambling halls flourishing throughout the nation. For the past twenty years, the South has wrestled with gambling issues. In *How the South Joined the Gambling Nation*, Michael Nelson and John Lyman Mason examine how modern southern state governments have decided whether to adopt or prohibit casinos and lotteries. Nelson and Mason point out that although the South participated fully in past gambling eras, it is the last region to join the modern movement embracing legalized gambling. Despite the prevalence of wistful, romantic images of gambling on southern riverboats, the politically and religiously conservative ideology of the modern South makes it difficult for states to toss their chips into the pot. The authors tell the story of the arrival or rejection of legalized gambling in seven southern states -- Mississippi, Louisiana, Tennessee, South Carolina, Georgia, Arkansas, and Alabama. The authors suggest that some states chose to legalize gambling based on the examples of other nearby states, as when Mississippi casinos spurred casino legalization in Louisiana and the Georgia lottery inspired lottery campaigns in neighboring South Carolina, Alabama, and Tennessee. Also important was the influence of Democratic policy entrepreneurs, such as Zell Miller in Georgia, Don Siegelman in Alabama, and Edwin Edwards in Louisiana, who wanted to sell the idea of gambling in order to sell themselves to voters. At the same time, each state had its own idiosyncrasies, such as certain provisions of their state constitutions weighing heavily as a factor. Nelson and Mason show that the story of gambling's spread in

the South exemplifies the process of state policy innovation. In exploring how southern states have weighed the moral and economic risk of legalizing gambling, especially the political controversies that surround these discussions, Nelson and Mason employ a suspenseful, fast-paced narrative that echoes the oftentimes hurried decisions made by state legislators. Although each of these seven states fought a unique battle over gambling, taken together, these case studies help tell the larger story of how the South -- sometimes reluctantly, sometimes enthusiastically -- decided to join the gambling nation.

It was established by the North Carolina General Assembly in 1788 as the seat of government for Robeson County on land donated by Gen. John Willis. The Lumber River, namesake of the city, flows through Lumberton and is part of the North Carolina Natural and Scenic River System. There are many cultural activities offered by the Robeson County History Museum, Historic Robeson at the Proctor Law Office, and the Carolina Civic Center in the historic 1928 theater. Through historic

photographs, Lumberton showcases the rich history of this North Carolina town that generations of citizens have created.

The Evangelical Origins of the Living Constitution John W. Compton, 2014-03-10 John Compton shows how evangelicals, not New Deal reformers, paved the way for the most important constitutional developments of the twentieth century. Their early-1800s crusade to destroy property that made immorality possible challenged founding-era legal protections of slavery, lotteries, and liquor sales and opened the door to progressivism.
