Barnes, 2012-12-06 Exchange of information in the field of earth sciences is increasingly needed to stay informed about advances. However, the continuous increase in the number of journal articles and books is very noticeable, while the available time to keep up is decreasing. Such a large flow of information commonly necessitates professionals to search selectively for material and special publications in one's sub-discipline that have more specific coverage. In addition to surveying research needs, earth scientists working in a pure or applied research environment collect and produce information that often is of interest to the much larger group of industry-employed geologists and geophysicists, to professionals employed by agencies, and to students. To accommodate this exchange of needed information, Springer-Verlag is launching a monograph series entitled *Frontiers in Sedimentary Geology*. This series will cover a number of subjects related to sediments and sedimentary rocks in a manner that both the researcher and the industrially oriented earth scientist can use constructively. Publications in this monograph series may fit one or more of the following main categories: Topical A topical subject will cover either the different aspects of a selected environment of deposition, or present a world tour of a particular depositional environment to demonstrate its variability and its commonalities. The author(s) or editor(s) accepts the responsibility to guide the reader as to the state of knowledge, rather than providing a set of independent chapters.

Pittsburgh Sports Firsts Alliance of Esteemed Duquesne Scribes, 2021-03-15 Countless groundbreaking moments in the nation's sports history were made on the gridirons, courts, fields, ice rinks and ballparks of Pittsburgh. Duquesne's Chuck Cooper was the first African American player drafted by the NBA. Beloved local radio station KDKA produced the first-ever broadcast of a Major League Baseball game. The Pittsburgh Stars were the first NFL champions in 1902. The first nighttime World Series game was played in the Steel City, and the only game seven World Series walk-off homerun happened there too. The city boasts compelling claims as the birthplace of pro hockey, pro football and college basketball. Some of the most preeminent authors and sports historians of Western Pennsylvania capture the vivid moments that make Pittsburgh a city of historic sports firsts.
