Nuts! Kevin Freiberg, Jackie Freiberg, 1998-02-17 Twenty-five years ago, Herb Kelleher reinvented air travel when he founded Southwest Airlines, where the planes are painted like killer whales, a typical company maxim is Hire people with a sense of humor, and in-flight meals are never served--just sixty million bags of peanuts a year. By sidestepping reengineering, total quality management, and other management philosophies and employing its own brand of business success, Kelleher's airline has turned a profit for twenty-four consecutive years and seen its stock soar 300 percent since 1990. Today, Southwest is the safest airline in the world and ranks number one in the industry for service, on-time performance, and lowest employee turnover rate; and Fortune magazine has twice ranked Southwest one of the ten best companies to work for in America. How do they do it? With unlimited access to the people and inside documents of Southwest Airlines, authors Kevin and Jackie Freiberg share the secrets behind the greatest success story in commercial aviation. Read it and discover how to transfer the Southwest inspiration to your own business and personal life.

The Southwest Airlines Way Jody Hoffer Gittell, 2003-01-09 If you look at Southwest Airlines, and I admire what they do, they've been the most successful airline in the industry. --Gerard Arpey, CEO, American Airlines Through extensive research Jody Hoffer Gittell gets to the bottom of what has sustained Southwest Airlines' positive employee relations and high performance through good and bad times. --Thomas A. Kochan, professor, MIT Sloan School of Management, MIT Global Airline Industry Program In an industry with losses in the billions, Southwest Airlines has an unbroken string of 31 consecutive years of profitability. The Southwest Airlines Way examines how the company uses high-performance relationships to create enormous competitive advantage in motivation, teamwork, and coordination among employees. It then goes further to show how any company can foster these powerful cooperative relationships and explains how to: Lead with credibility and caring Invest in frontline leaders Hire and train for relational competence Use conflicts to build relationships Make unions its partners, not its adversaries Build relationships with its suppliers

Pacific Southwest Airlines Alan Renga, Mark E. Mentges, 2010 With its low fares and friendly service, Pacific Southwest Airlines (PSA) was one of the most successful regional airlines in American history. Its distinctive orange, red, and white planes, complete with a beaming smile were immediately recognizable to those living on the West Coast. The airline was also known for employing beautiful and sociable flight attendants. Kenny Friedkin, the founder of PSA, started in 1949 with one leased DC-3 and expanded his fleet to serve millions of passengers each year. Although PSA is no longer in operation, its successful business model of low-priced, efficient service was copied by other airlines and today is considered the norm. In addition, former PSA employees still gather annually to relive the camaraderie they experienced as being a part of one of the most unique airlines of all time.

Nuts! Kevin Freiberg, Jackie Freiberg, 2001 Revealing the secrets behind the success of Southwest Airlines, one of the world's most successful companies, this book expands on the unusual strategies employed. Southwest reinvented air travel 26 years ago with its low fares and zany, irreverent style. These nuts made flying an event. Today Southwest keeps air fares rock bottom by keeping costs low, satisfies customers by getting people and baggage to their destination on time, practices the Golden Rule at work and in the communities it serves and has the best productivity and safety records in the industry.

Dallas/Fort Worth International Airport Bruce A. Bleakley, 2013 Encompassing 27 square miles, Dallas/Fort Worth International is one of the world's largest and busiest airports, accommodating more than 150,000 passengers each day. The 1974 opening of D/FW was preceded by nearly half a century of an often acrimonious aviation rivalry between Dallas and Fort Worth that featured a colorful cast of business leaders, municipal officials, and airline executives. Through its first 40 years, D/FW grew from a regional hub into a global crossroads for passenger and air cargo service. Bold, imaginative leadership sustained the airport through the failure of its largest tenant airline, the effects of 9/11, an air traffic controllers' strike, and more than one fuel crisis. An extraordinary economic engine for North Texas, D/FW stands poised to become home to the world's largest airline, validating the original planners' dream of a dynamic focal point for domestic and international commercial aviation.

Albuquerque International Sunport Fred De Guio, 2019 In 1928, two Santa Fe Railway employees became so intrigued with aviation that they took it upon themselves to lease a parcel of land and build an airport for Albuquerque. Within one year, Charles Lindbergh chose Albuquerque to be a stop on the nation's first commercial transcontinental air route between Los Angeles and New York. A north-south air route between Denver and El Paso with a stop in Albuquerque was soon established, making the city a crossroads for air service in the Southwest. Using funds from a Works Progress Administration grant, the city then constructed its own airfield, and the Albuquerque Municipal Airport opened in 1939. Since then, this airport--now the Albuquerque International Sunport--has been an air transportation hub for the state of New Mexico and for the Southwest United States, now handling more than five million passengers per year. The development of the Sunport as well as the route structure and aircraft of each and every commercial airline that has served Albuquerque is featured.
