Mechwarrior: Dark Age #10 Victor Milan,2004-06-01

A Clan Jade Falcon force is en route to eradicate the Steel Wolves—but its true mission is the subjugation of The Republic of the Sphere. Constrained by an imposed peace for decades, the Falcons now embark on their most spectacular war in generations—and their lust for blood runs hot... Siblings Malvina and Aleks are Jade Falcon's best and brightest MechWarriors. Each achieved high command at a young age, and their bond is strong, but so is their rivalry. While Aleks believes warriors should protect the weak, Malvina is obsessed with dark visions of power and glory. If the leader of the Clan is destined to rule the Inner Sphere, then Malvina's first step toward seizing that role for herself is to conquer The Republic...or utterly destroy it. On Skye, Tara Campbell faces a major invasion with too few Highlanders to beat it back. Some in the Planetary Council want to negotiate with the invaders—to spare Skye the frightful carnage visited on other worlds. Now, Tara—the Republic's greatest defender—finds herself fighting dissension at home when unity is needed in the face of Skye's greatest crisis ever.

Full Moon Michael Light,Andrew Chaikin,1999 The most thrilling of all journeys--the missions of the Apollo astronauts to the surface of the Moon and back--yielded 32,000 extraordinarily beautiful photographs, the record of a unique human achievement. Until recently, only a handful of these photographs had been released for publication; but now, for the first time, NASA has allowed a selection of the master negatives and transparencies to be scanned electronically, rendering the sharpest images of space that we have ever seen. Michael Light has woven 129 of these stunningly clear images into a single composite voyage, a narrative of breathtaking immediacy and authenticity that begins with the launch and is followed by a walk in space, an orbit of the Moon, a lunar landing and exploration, and a return to Earth with an orbit and splashdown. Graced by five 45-inch-wide gatefolds that display the lunar landscape, from above the surface and at eye level, in unprecedented detail and clarity, Full Moon conveys on each page the excitement, disorientation, and awe that the astronauts themselves felt as they were shot into space and then as they explored an alien landscape and looked back at their home planet from hundreds of thousands of miles away. Published on the thirtieth anniversary of Apollo 11--the first landing on the Moon--this remarkable and mesmerizing volume is, like the voyages it commemorates and re-

creates, an experience both intimate and monumental.

The Medusa Chronicles Stephen Baxter, Alastair Reynolds, 2017-08-08 A sequel to Sir Arthur C. Clarke's Nebula Award-winning novella "A Meeting with Medusa," this novel continues the thrilling adventure of astronaut Howard Falcon, humanity's first explorer of Jupiter from two modern science fiction masters. Howard Falcon almost lost his life in an accident as the first human astronaut to explore the atmosphere of Jupiter—and a combination of human ingenuity and technical expertise brought him back. But he is no longer himself. Instead, he has been changed into an augmented human: part man, part machine, and exceptionally capable. With permission from the Clarke Estate, Stephen Baxter and Alastair Reynolds continue this beloved writer's enduring vision and have created a fresh story for new readers. The Medusa Chronicles charts Falcon's journey through the centuries granted by his new body, but always back to mysteries of Jupiter and the changing interaction between humanity and the universe. A compelling read full of incredible action right from the beginning, this is a modern classic in the spirit of 2001 and The Martian.
