**Mastering Second Grade Math: Concepts and Skills "Aligned to Common Core"** Silver, Anastasia, Aligned to Common Core! This Mastering Math book is a complete, condensed course of instruction or review for Second Grade Mathematics. Each Mastering Math book is organized according to these five general curriculum threads: Number Sense & Numeration, Measurement, Geometry & Spatial Sense, Patterning & Algebra, and Data Management & Probability. Each topic area contains individual skills and concepts that match the learning expectations of the curriculum. Mastering Math can be used to support the standard classroom curriculum as every learning

expectation in the year's curriculum is included. Mastering Math is also an excellent framework for reviewing the full curriculum at home for students who need extra practice. 99 Pages

**Space Mathematics** Bernice Kastner, 2013-10-17 Created by NASA for high school students interested in space science, this collection of worked problems covers a broad range of subjects, including mathematical aspects of NASA missions, computation and measurement, algebra, geometry, probability and statistics, exponential and logarithmic functions, trigonometry, matrix algebra, conic sections, and calculus. In addition to enhancing mathematical knowledge and skills, these problems promote an appreciation of aerospace technology and offer valuable insights into the practical uses of secondary school mathematics by professional scientists and engineers. Geared toward high school students and teachers, this volume also serves as a fine review for undergraduate science and engineering majors. Numerous figures illuminate the text, and an appendix explores the advanced topic of gravitational forces and the conic section trajectories.

*Investigations in Number, Data, and Space* Addison-Wesley Educational Publishers, Incorporated,2003-01 Investigations in Number, Data, and Space engages students in individual, small group and whole class activities to develop understanding of mathematical concepts. Students practice skills through games, daily routines, activities, and practice pages. The curriculum at each grade level is organized into units that offer from three to eight weeks of mathematical work in number, data analysis, and geometry. These units link together to form a complete K-5 curriculum that teachers can adjust to fit their classroom needs. Each complete program includes a Curriculum Units Package, Teacher's Resource Package, and Student Materials Kit.
