Museum in New Jersey, Lori writes about individual animals and her animal adventures at the zoo. Her unusual lifestyle has enabled her to work with numerous different species, from lions, lynx, lemurs, tigers, kangaroo and many other species. She earned her Bachelor of Science Degree in Biology from Nazareth College of Rochester, N.Y. , managed a pet shop and returned to work in the family business, Space Farms Zoo and Museum. A renowned multi-specie pediatric specialist, she is the Zoo Momma.

Free Government e-Resources for Youth Dorothy Ormes, 2016-08-15 Specifically focusing on the resources on federal government available online, this book supports the education of young citizens and supplies directions for conducting programs for youth on the government. Government documents offer a wealth of useful information that is often ignored or misinterpreted—even by librarians. And while improved search engines have improved access to online documents in recent years, patrons—especially young people—typically need help navigating and understanding the sites. Free Government e-Resources for Youth helps librarians promote online government information to youth and to assist youth in using it to

become informed and educated about our federal government and how it works. Author Dorothy Ormes—a Federal Depository Library Program librarian at the university level—has created a guide to government resources that public and school librarians can use to support the education of young citizens. The book covers various areas of K–12 curriculum, highlighting activities and lesson plans based on national and state standards, and gives helpful directions for creating displays and conducting programs for youth on the government. The book also provides a brief explanation of the Federal Depository Library Program (FDLP) and describes how a public library can work with FDLP librarians or take advantage of an unprecedented opportunity to join the FDLP as active participants and benefit the community.

*Space Zoo Patrol* Anthony Gordon Bennett, 2016-04-25  
The Space Zoo Patrol is an elite team of animals that live and work in a massive space station above the Earth, called the Space Zoo 1. The Space Zoo Patrol is a wildly fun group that solves problems, invents cool technical gizmos, and occasionally saves the Earth by using science. NASA meets MacGyver meets the National Zoo! The Space Zoo members represent all the continents, and are helpful and caring, but occasionally a little wacky. All of the characters, by a crazy coincidence, are named after astronauts, scientists, or Nobel Prize winners from their respective countries. When the neighborhood kids run into a problem, and no one else can help, they turn to the Space Zoo Patrol. The Space Zoo team explores all aspects of science (astronomy, biology, chemistry, geology, math, and physics) in order to save the day. The Space Zoo Patrol knows that science is fun and exciting, and can't wait for you to join them in their adventures in space.

**Space Zoo** Nathan G Sellers, 2021-04-04 The race is

on! Countries from all over the world scramble to be the first to get a zoo in outer space up and running, one that will showcase the most remarkable animals from the newly discovered planets. Ahead is the United States, thanks to the work of famed architect and engineer, De'Quan Bo'Tang. The opening of the park is days away. Scheduled is a three-day tour. Invited are some of the most rich and powerful people in the country, from politicians to famous actors. The eyes of the world will be watching. World renowned explorer, Joe Connell, is head zoo-keeper. His job is to handle the many species housed in the park and oversee the various exhibits. These opening ceremonies are extra special for Joe. His family, who he has not seen in two years, have been invited to attend. During this two-year absence, Joe's relationship with his wife Gayle has been strained, he misses his son Henry, and whatever thin thread that was keeping him in the good-graces of Gayle's daughter from a previous marriage, Katie, has snapped. He is excited to be able to use their visit to repair the damage and bring them all back together again, as a family. After the zoo is sabotaged, the animals get free from their enclosures and chaos ensues, leaving the staff of Space Zoo with the seemingly impossible task of restoring order. Meanwhile, for head zoo-keeper Joe Connell, he must journey through the park to rescue his scattered family from some of the most dangerous creatures in the galaxy.

in rooms that are actually zipper-sealed balloons! In this space adventure, author and father Dustin S. Marsalis transports the audience to a world in which anything is possible, while giving children a chance to practice the sounds of the alphabet. Join the Gatornauts on their first adventure!
