**LA Graffiti Black Book** David Brafman, 2021-04-13 This collection of unique works by 150 Los Angeles graffiti and tattoo artists represents an unprecedented collaboration across the city's diverse artistic landscape. Many graffiti artists carry sketchbooks, called black books, and they ask crew members and others whose work they admire to inscribe their books with lettering or drawings. A few years ago, the Getty Research Institute invited artists, including Angst, Axis, Big Sleeps, Chaz, Cre8, Defer, EyeOne, Fishe, Heaven, Hyde, Look, ManOne, and Prime, to consider the idea of a citywide graffiti black book. During visits to the Getty Center, the artists viewed rare books related to calligraphy and letterforms, including works by Albrecht Dürer and Leonardo da Vinci. The artists instantly recognized the connections to their own practices and were particularly drawn to a *liber amicorum* (book of friends), a form of autograph book popular in the seventeenth century. Passed from hand to hand, it was filled with signatures, poetry, and coats of arms, like a black book from another era. Inspired by this meeting of minds across

centuries, these artists became both creators and curators, crafting their own pages and inviting others to contribute. Eventually 150 Los Angeles artists decorated 143 individual pages. These were bound together into an exquisite artists' book that became known as the Getty Graffiti Black Book. This publication reproduces each page from the original artists' book and recounts the story of an unprecedented collaboration across the diverse artistic landscape of Los Angeles.

*The Nebraska Sand Hills* Charles Barron McIntosh, 1996-01-01  
Charles Barron McIntosh has devoted a lifetime of scholarship to the history of human activity on Nebraska's Sand Hills, the spare, beautiful land that occupies much of western Nebraska. From carefully deciphering Native American occupancy through rigorous analysis of thousands of arrowheads, to patiently combing through decades of courthouse land title transaction records, McIntosh has mastered the sweep of centuries of human interaction with the land. We learn how the land shapes humankind, far more than pride would have us believe, and we see that perhaps our real success lies in learning how to live with the land, rather than attempting to master it. The Nebraska Sand Hills reflects McIntosh's lifetime of learning, reading, questioning, analyzing—in short, everything it means to be a scholar; seldom are these efforts so well demonstrated. His affection for this unique landscape is present on every page.
