FUME EVENT "Aviation's Biggest Lie" Porter Lafayette,2017-11 This is a documentary and exposé of my own personal journey as well as that of fellow co-workers who have dealt with the deception, lies, collusion and retaliation after encountering a 'fume event', which is the aviation industry's terminology for an engine wet seal 'bleed' affecting the aircraft breathing air which can fill the cabin with neurotoxic, visible or invisible, fumes of 'organophosphate' containing chemicals. This is Aviations Biggest Lie and it has been told for over 60 years. It is time for the flying public to know the truth. You come home from a flight and you have, quote 'jet lag', or you are traveling and never got sick before but suddenly you become violently 'air sick' onboard for no apparent reason. 'Jet lag' and 'air sick' are often the airlines 'explanation' and 'excuse' when they have actually poisoned you with leaking toxic cabin air. Once you read this book, you will never ever look at air travel the same way again. Knowledge is Power.

The New Old David Cravit,2010-12-15 Focusing on the Baby Boomer generation, this argument explores how this group is permanently destroying previous attitudes toward aging, retirement, senior citizens, and even the concept of death. An analysis of welfare rates and health-care costs demonstrates that the Boomers are influencing everything from education and employment to housing, health, beauty, and sex. With solid statistical support, this groundbreaking study takes a closer look at new kinds of social relationships as well as new products that can reduce or even eliminate the effects of aging. The topics covered offer a sneak preview of an imminently new societyone in which receiving a gold watch at the age of 65 will simply mean the first half of life is over.

Hair-A-Baloo Patricia Wynn Brown,2005-05 HAIR-sterical! Hair-A-Baloo will make you laugh and cry, much the way you do on your worst hair day. Who needs Dr. Phil when we have Patricia Wynn Brown--the hair doctor. Her wit and wisdom make us realize that hair really does make the world go round. --Tim Bete (Director of the Erma Bombeck Humor Conference and author of In the Beginning...There Were No Diapers.) Hair-A-Baloo proves it: It's all about the hair. Hair can make us laugh...cry...and a single strand can send us to prison for life! Who hasn't experienced a touch of hair envy or left the hair salon with a poodle perm? We spend so much time with the mops on top of our heads that it's become a subject for movies, musicals, and gossip columns. We copy celebrity hairstyles, spend hundreds on hair products, and constantly concoct homemade hair treatments in our kitchen. Hair has even played a major role throughout history. Who could forget Samson and Delilah or the 1920s, when every woman in America wanted to bob her hair? This forty-billion-dollar industry is given the royal treatment with Brown's wicked sense of humor. Take a break from the blow dryer and curl up with Hair-A-Baloo.

Making Waves Frederick Lau,Christine R. Yano,2018-02-28 Musical sounds are some of the most mobile human elements, crossing national, cultural, and regional boundaries at an ever-increasing pace in the twentieth and twenty-first centuries. Whole musical products travel easily, though not necessarily intact, via musicians, CDs (and earlier, cassettes), satellite broadcasting, digital downloads, and streaming. The introductory chapter by the volume editors develops two framing metaphors: “traveling musics” and “making waves.” The wave-making metaphor illuminates the ways that traveling musics traverse flows of globalization and migration, initiating change, and generating energy of their own. Each of the nine contributors further examines music—its songs, makers, instruments, aurality, aesthetics, and images—as it crosses oceans, continents, and islands. In the process of landing in new homes, music interacts with older established cultural environments, sometimes in unexpected ways and with surprising results. They see these traveling musics in Hawai‘i, Asia, and the Pacific as “making waves”—that is, not only riding flows of globalism, but instigating ripples of change. What is the nature of those ripples? What constitutes some of the infrastructure for the wave itself? What are some of the effects of music landing on, transported to, or appropriated from distant shores? How does the Hawai‘i-Asia-Pacific context itself shape and get shaped by these musical waves? The two poetic and evocative metaphors allow the individual contributors great leeway in charting their own course while simultaneously referring back to the influence of their mentor and colleague Ricardo D. Trimillos, whom they identify as “the wave maker.” The volume attempts to position music as at once ritual and entertainment, esoteric and exoteric, tradition and creativity, within the cultural geographies of Hawai‘i, Asia, and the Pacific. In doing so, they situate music at the very core of global human endeavors.
