Callahan's Con Spider Robinson,2004-06-14 The discreet little bar that Jake Stonebender established a few blocks below Duval Street was named simply The Place. There, Fast Eddie Costigan learned to curse back at parrots as he played the house piano; the Reverend Tom Hauptman learned to tend bar bare-chested (without blushing), Long-Drink McGonnigle discovered the margarita and several señoritas, and all the other regulars settled into comfortable subtropical niches of their own. Nobody even noticed them save the universe. Over time, the twice-transplanted patrons of Callahan's Place attracted a collection of local zanies so quintessentially Key West pixilated that they made the New York originals seem, well, almost normal. The elfin little Key deer, for instance--with a stevedore's mouth; or the merman with eczema; or Robert Heinlein's teleporting cat. For ten slow, merry years, life was good. The sun shone, the coffee dripped, the breeze blew just strongly enough to dissipate the smell of the puns, and little supergenius Erin grew to the verge of adolescence. Then disaster struck. Through the gate one sunny day came a malevolent, moronic, mastodon of a Mafioso named Tony Donuts Jr., or Little Nuts (don't ask). He'd decided to resurrect the classic protection racket in Key West--and guess which tavern he picked to hit first? Then, thanks to very poor accessorizing (she chose the wrong belt--and no, we're not going to explain that one), Jake's wife, Zoey, suddenly found herself in a place with no light, no heat, and no air. And no way home. The urgent question was where--precisely where--but that turned out to be a problem so complex that even the entire gang, equipped with teleportation, time travel, and telepathic syntony (you can look it up) might not be able to crack it in time. And while all this was going on, Death himself walked into The Place. But this time he would not leave alone. . . .

Office of Water Regulations and Standards,1986 Section 304(a) (1) of the Clean Water Act 33 U.S.C. 1314(a) (1) requires the Environmental Protection Agency (EPA) to publish and periodically update ambient water quality criteria. These criteria are to accurately reflect the latest scientific knowledge (a) on the kind and extent of all identifiable effects on health and welfare including, but not limited to, plankton, fish shellfish, wildlife, plant life, shorelines, beaches, aesthetics, and recreation which may be expected from the presence of pollutants in any body of water including ground water; (b) on the concentration and dispersal of pollutants, or their byproducts, through biological, physical, and chemical processes; and (c) on the effects of pollutants on biological community diversity, productivity, and stability, including information on the factors affecting rates of eutrophication and organic and inorganic sedimentation for varying types of receiving waters. In a continuing effort to provide those who use EPA's water quality and human health criteria with up-to-date criteria values and associated information, the document was assembled. The document includes summaries of all the contaminants for which EPA has developed criteria recommendations.

The 2030 Spike Colin Mason,2013-06-17 The clock is relentlessly ticking! Our world teeters on a knife-edge between a peaceful and prosperous future for all, and a dark winter of death and destruction that threatens to smother the light of civilization. Within 30 years, in the 2030 decade, six powerful 'drivers' will converge with unprecedented force in a statistical spike that could tear humanity apart and plunge the world into a new Dark Age. Depleted fuel supplies, massive population growth, poverty, global climate change, famine, growing water shortages and international lawlessness are on a crash course with potentially catastrophic consequences. In the face of both doomsaying and denial over the state of our world, Colin Mason cuts through the rhetoric and reams of conflicting data to muster the evidence to illustrate a broad picture of the world as it is, and our possible futures. Ultimately his message is clear; we must act decisively, collectively and immediately to alter the trajectory of humanity away from catastrophe. Offering over 100 priorities for immediate action, *The 2030 Spike* serves as a guidebook for humanity through the treacherous minefields and wastelands ahead to a bright, peaceful and prosperous future in which all humans have the opportunity to thrive and build a better civilization. This book is powerful and essential reading for all people concerned with the future of humanity and planet earth.

Why Forests? Why Now? Frances Seymour, Jonah Busch, 2016-12-27 Tropical forests are an undervalued asset in meeting the greatest global challenges of our time—averting climate change and promoting development. Despite their importance, tropical forests and their ecosystems are being destroyed at a high and even increasing rate in most forest-rich countries. The good news is that the science, economics, and politics are aligned to support a major international effort over the next five years to reverse tropical deforestation. *Why Forests? Why Now?* synthesizes the latest evidence on the importance of tropical forests in a way that is accessible to anyone interested in climate change and development and to readers already familiar with the problem of deforestation. It makes the case to decisionmakers in rich countries that rewarding developing countries for protecting their forests is urgent, affordable, and achievable.

This Gaming Life Jim Rossignol, 2008-05-29 In May 2000 I was fired from my job as a reporter on a finance newsletter because of an obsession with a video game. It was the best thing that ever happened to me." So begins this story of personal redemption through the unlikely medium of electronic games. Quake, World of Warcraft, Eve Online, and other online games not only offered author Jim Rossignol an excellent escape from the tedium of office life. They also provided him with a diverse global community and a job—as a games journalist. Part personal history, part travel narrative, part philosophical reflection on the meaning of play, *This Gaming Life* describes Rossignol's encounters in three cities: London, Seoul, and Reykjavik. From his days as a Quake genius in London's increasingly corporate gaming culture; to Korea, where gaming is a high-stakes televised national sport; to Iceland, the home of his ultimate obsession, the idiosyncratic and beguiling Eve Online, Rossignol introduces us to a vivid and largely undocumented world of gaming lives. Torn between unabashed optimism about the future of games and lingering doubts about whether they are just a waste of time, *This Gaming Life* also raises important questions about this new and vital cultural form. Should we celebrate the "serious" educational, social, and cultural value of games, as academics and journalists are beginning to do? Or do these high-minded justifications simply perpetuate the stereotype of games as a lesser form of fun? In this beautifully written, richly detailed, and inspiring book, Rossignol brings these abstract questions to life, immersing us in a vibrant landscape of gaming experiences. "We need more writers like Jim Rossignol, writers who are intimately familiar with gaming, conversant in the latest research surrounding games, and able to write cogently and interestingly about the experience of playing as well as the deeper significance of games." —Chris Baker, *Wired* "This Gaming Life is a fascinating and eye-opening look into the real human impact of gaming culture. Traveling the globe and drawing anecdotes from many walks of life, Rossignol takes us beyond the media hype and into the lives of real people whose lives have been changed by gaming. The results may surprise you." —Raph Koster, game designer and author of *A Theory of Fun for Game Design* "Is obsessive video gaming a character flaw? In *This Gaming Life*, Jim Rossignol answers with an emphatic 'no,' and offers a passionate and engaging defense of what is too often considered a 'bad habit' or 'guilty pleasure.'" —Joshua Davis, author of *The Underdog* "This is a wonderfully literate look at gaming cultures, which you don't have to be a gamer to enjoy. The Korea section blew my mind." —John Seabrook, *New Yorker* staff writer and author of *Flash of Genius* and *Other True Stories of Invention* digitalculturebooks is an imprint of the University of Michigan Press and the Scholarly Publishing Office of the University of Michigan Library dedicated to publishing innovative and accessible work exploring new media and their impact on society, culture, and scholarly communication.
