The British Motor Industry, 1945-94 Timothy Whisler, 1999-05-06 A fascinating and well-researched look at the British motor industry which will appeal to both academic readers and practitioners alike. Why are there now no major car manufacturers in Britain? Whisler considers this and the surrounding issues, making valuable comparisons with overseas manufacturers operating both in the UK and abroad, which provide us with additional interest and insight. Based upon careful use of company archives, this book covers in particular the issues of product development, quality, design, and range, ensuring that The British Motor Industry is destined to make a distinctive contribution to our understanding of the performance of UK manufacturers.

**1970 Plymouth Superbird** Geoff Stunkard, 2018-04-16 Petty signs with Ford! Those four words tore through the racing world like a hot knife through butter while loyalists threw their hands up in disbelief. King Richard's defection was in part because Plymouth hadn't built a Dodge Daytona counterpart for the NASCAR circuit, in addition to the fact that Petty Enterprises wanted to be the sole racing parts distributor for Plymouth at the time. Plymouth weathered the backlash publicly while privately scurrying to create a car to lure Richard back to Plymouth. That car? The 1970 Plymouth Superbird. Production models languished on salesroom floors due in part to NASCAR having increased the homologation requirement from 500 units to 2,000. These cars were highly specialized, seen as being in excess in proportion to the hottest street cars of the period. Fast-forward to today, Superbirds are highly collectible and are the star attractions at car shows and auctions, pulling top dollar and generating real excitement. What a difference a few decades makes! Each volume in the In Detail Series provides an introduction and historical overview, an explanation of the design and

concepts involved in creating the car, a look at marketing and promotion, an in-depth study of all hardware and available options, and an examination of where the car is on the market today. Also included are paint and option codes, VIN and build tag decoders, as well as production numbers.
