10:04 Ben Lerner,2015-09-15 Ben Lerner is a brilliant novelist, and one unafraid to make of the novel something truly new. *10:04* is a work of endless wit, pleasure, relevance, and vitality. -- Rachel Kushner, author of *The Flamethrowers* Leaving the Atocha Station was hailed as one of the truest (and funniest) novels...of his generation (Lorin Stein, *New York Review of Books*), a work so luminously original in style and form as to seem like a premonition, a comet from the future (Geoff Dyer, *The Observer*). Now Lerner's second novel departs from Atocha's exquisite ironies in order to explore new territories of thought and feeling. In the last year, the narrator of *10:04* has enjoyed unexpected literary success, has been diagnosed with a potentially fatal heart condition, and has been asked by his best friend to help her conceive a child, despite his dating a rising star in the visual arts. In a New York of increasingly frequent super storms and political unrest, he must reckon with his biological mortality, the possibility of a literary afterlife, and the prospect of (unconventional) fatherhood in a city that might soon be under water. In prose that Jonathan Franzen has called hilarious...cracklingly intelligent...and original in every sentence, Lerner captures what it's like to be alive now, when the difficulty of imagining a future has changed our relation to both our present and our past. Exploring sex, friendship, medicine, memory, art, and politics, *10:04* is both a riveting work of fiction and a brilliant examination of the role fiction plays in our lives.

Molecular Farming of Plants and Animals for Human and Veterinary Medicine L. Erickson,2002-09-30 Until recently, agriculture was seen as a minor customer of the pharmaceutical industry. However, as this book amply demonstrates, agriculture may be poised to become a much more important supplier rather than consumer of pharmaceuticals. This book is the most comprehensive and up-to-date compilation of bio-farming strategies to provide health products that are both safer and lower-cost than those produced conventionally. The style and information presented assumes a university undergraduate level of genetics and biology. Technical information regarding the methods used and the results, as well as perspectives on commercialization and regulation, is provided by scientists prominent in this diverse and burgeoning field. This book is an invaluable resource for undergraduate and graduate students, university faculty, and researchers in government and corporate labs, as well as research managers, planners, and consultants in biotechnology.

The Spectacular Zoe Whittall,2021-09-14 Three generations of women strive for real freedom in this startling, provocative novel exploring sexuality, gender, and maternal ambivalence, from the acclaimed author of The Best Kind of People. “In the best books, characters feel like my friends, but with the mothers of The Spectacular, they came to feel like my family.”—Torrey Peters, author of Detransition, Baby It’s 1997 and Missy is a cellist in an indie rock band on tour across America. At twenty-two years old, she gets on stage every night and plays the song about her absent mother that made the band famous. As the only girl in the band, she’s determined to party just as hard as everyone else, loving and leaving a guy in every town. But then she meets a tomboy drummer who is hard to forget, and a forgotten flap of cocaine strands her at the border. Fortysomething Carola is just surfacing from a sex scandal at the yoga center where she has been living when she sees her daughter, Missy, for the first time in ten years—on the cover of a music magazine. Ruth is eighty-three and planning her return to the Turkish seaside village where she spent her childhood. But when her granddaughter, Missy, winds up crashing at her house, she decides it’s time that the strong and stubborn women in her family find a way to understand one another again. In this sharply observed novel, Zoe Whittall captures three very different women who each struggle to build an authentic life. Definitions of family, romance, gender, and love will radically change as they seek out lives that are nothing less than spectacular.
