**Development of a Vehicle Speed Warning System** Ngo Chon Chet,2014-11-28 Master's Thesis from the year 2005 in the subject Engineering - Automotive Engineering, grade: Pass, , language: English, abstract: The use of commercial road vehicles has grown with the recent rapid economic growth in the world, but reckless speeding of these heavy vehicles often results in fatal accidents. The Vehicle Speed Warning System is designed and developed to monitor the vehicle speed and raise an alarm if the vehicle has exceeded the preset speed limit. It consists of in-vehicle subsystem, which is fitted into the vehicle, and peripheral interface subsystem connected to the host computer. The system is designed using MC68HC11E9 micro controller. It allows proper calibration of the in-vehicle subsystem and offline data downloading. The microcontroller based Vehicle Speed Warning System has been designed and its application software has been developed. The principal objective in designing this warning system is to present and demonstrate the basic concepts of in-vehicle speed detection and wireless data setting and retrieving system, which will serve as a base for future development of vehicle speed monitoring and tracking system.

**Understanding Human Evolution: And the Nine Human Endeavors - Reveals the Purpose and Meaning of Life** Richard Colter,2019-09-06 For the first time, the age-old questions of how and why humans evolved are explored from the perspectives of evolution, psychology, economics, and the Enneagram. The answers that emerge from this multidisciplinary approach provide new insights into the human condition, including the Nine Factors of Extinction, which were the behaviors responsible for multiple early human extinctions. And the Nine Human Virtues, which are the incumbent principles of modern human behavior. The answers to how and why humans evolved can be found in the depiction of each Enneatype. These depictions account for the Nine Human Endeavors (see front cover), which reveal how every human being is specifically adapted to eradicate one of the Nine Factors of Extinction, along with the specializations, functional adaptations, and general characteristics for each type. This information is indispensable for diagnosing the personality type of any human being. Perhaps most important is the discussion of the evolutionary purpose of every human being, and how that knowledge can be used for personal growth, in ways that are resolute, decisive, and transformative. When this knowledge is used constructively, the actuated potential of the individual is realized, along with the deeply personal meaning of life.
