**Spell-Checker Follies** Joseph D. Keefer,  
Ph.d.,2017-03-11 There are hundreds of instances  
in which two or more words are pronounced alike  
but are spelled differently-for example, role and  
roll. In addition, there are hundreds of instances  
in which two words are pronounced differently but  
do exhibit some similarity in appearance-for  
example, compel and impel. Even well-educated  
people occasionally commit what can be called a  
word-choice blunder-that is, mixing up sound-alike  
words or similar-looking words. Those blunders can  
undermine your professional credibility and can  
embarrass you in social settings. Knowing the  
right word by heart is important. When you compose  
text on a computer, you cannot depend on a spell-  
check program to catch mistakes related to sound-  
alike or similar-looking words. When you forgo a  
spell-checker or when you hand-write a note, you  
are on your own. And, when you speak, you are on  
your own, too, because you need to know the  
distinctions between similar-sounding words. The  
book **Spell-Checker Follies** provides guidance on  
the correct usage of 435 pairs of words-182 sound-  
alike pairs and 253 similar-looking pairs. **Spell-  
Checker Follies** is designed to be read cover-to-  
cover and studied, much like a textbook. The book  
is divided into 16 units, each four pages long,  
with the most-common word pairs being addressed in  
the early units. An index lists the word pairs  
alphabetically.
