Spider Solitaire Winning Strategies Steve N. Brown,2016-03 This book is for the Spider Solitaire player who plays at the four-suit level, wins less than 40% of their games and wants to improve their win ratio. It is assumed that the player plays a pure game, meaning they neither undo moves, nor restart games, nor

Backpacker ,2000-03 Backpacker brings the outdoors straight to the reader's doorstep, inspiring and enabling them to go more places and enjoy nature more often. The authority on active adventure, Backpacker is the world's first GPS-enabled magazine, and the only magazine whose editors personally test the hiking trails, camping gear, and survival tips they publish. Backpacker's Editors' Choice Awards, an industry honor recognizing design, feature and product innovation, has become the gold standard against which all other outdoor-industry awards are measured.

100 Best Solitaire Games Sloane Lee,Gabriel Packard,2019-06-04 A great how-to-play and strategy guide to 100 of the most classic, interesting, challenging and fun solitaire games. These are the 100 best and most enjoyable variations of America's most popular card game—solitaire! Loads of examples, diagrams, illustrations and strategies keep the writing lively, while showing you all sorts of fun ways to enjoy your favorite game. From straight-ahead solitaire to two-player games, readers will find all kinds of fantastic solitaire games—the classic ones, the new ones, those that require a lot of strategy, and the just plain fun ones. And because solitaire is perfect for playing when you're on the road, the chapter on travel solitaire is essential. As a bonus, the authors have included solitaire games for two players.

Programming Visual Illusions for Everyone Marco Bertamini,2017-08-08 If you find visual illusions fascinating Programming Visual Illusions for Everyone is a book for you. It has some background, some history and some theories about visual illusions, and it describes in some detail twelve illusions. Some are about surfaces, some are about apparent size of objects, some are about colour and some involve movement. This is only one aspect of the book. The other is to show you how you can create these effects on any computer. The book includes a brief introduction to a powerful programming language called Python. No previous experience with programming is necessary. There is also an introduction to a package called PsychoPy that makes it easy to draw on a computer screen. It is perfectly ok if you have never heard the names Python or PsychoPy before. Python is a modern and easy-to-read language, and PsychoPy takes care of all the graphical aspects of drawing on a screen and also interacting with a computer. By the way, both Python and PsychoPy are absolutely free. Is this a book about illusions or about programming? It is both!

Joel Whitburn Presents the Billboard Hot 100 Charts Joel Whitburn,1991 This book puts the pulse of the pop years 1980-1989 at your fingertips - week-by-week, chart-by-chart, position-by-position, with each actual Hot 100 chart reproduced exactly as it originally appeared in the pages of Billboard magazine. Hardcover.

100 Interesting Case Studies in Neurointervention: Tips and Tricks Vipul Gupta,Ajit S. Puri,Rajsrinivas Parthasarathy,2019-04-10 Neurointervention is a fast-growing subspecialty, and recent trials have demonstrated its role in ischaemic and haemorrhagic stroke. This has generated tremendous interest among interventional neuroradiology, neurology and neurosurgery communities. Nevertheless, formal teaching programmes that provide the required experience are limited, and many early career practitioners are not exposed to the crucial technical details essential to safely performing the procedure before they start practising independently. The book presents 100 characteristic case studies to illustrate the salient technical and clinical issues in decision-making and problem solving during the procedure. This book conveys the “real-world” issues and solutions that are not addressed in detail in most books. As such it is a practical teaching book with useful “tips and tricks” on how to handle specific challenging situations, and is

particularly useful for fellows in neurointervention training programmes..

Market Forces Richard K. Morgan,2005-03-01 From the award-winning author of *Altered Carbon* and *Broken Angels*—a turbocharged new thriller set in a world where killers are stars, media is mass entertainment, and freedom is a dangerous proposition . . . A coup in Cambodia. Guns to Guatemala. For the men and women of Shorn Associates, opportunity is calling. In the superheated global village of the near future, big money is made by finding the right little war and supporting one side against the other—in exchange for a share of the spoils. To succeed, Shorn uses a new kind of corporate gladiator: sharp-suited, hard-driving gunslingers who operate armored vehicles and follow a Samurai code. And Chris Faulkner is just the man for the job. He fought his way out of London’s zone of destitution. And his kills are making him famous. But unlike his best friend and competitor at Shorn, Faulkner has a side that outsiders cannot see: the side his wife is trying to salvage, that another woman—a porn star turned TV news reporter—is trying to exploit. Steeped in blood, eyed by common criminals looking for a shot at fame, Faulkner is living on borrowed time. Until he’s given one last shot at getting out alive. . . .

Semantics James R. Hurford,Brendan Heasley,1983-04-28 Introduces the major elements of semantics in a simple, step-by-step fashion. Sections of explanation and examples are followed by practice exercises with answers and comment provided.
