A Mind Unraveled Kurt Eichenwald, 2018-10-16 The compelling story of an acclaimed journalist and New York Times bestselling author's ongoing struggle with epilepsy—how, through personal resilience and the support of loved ones, he overcame medical incompetence and institutional discrimination to achieve once unthinkable success. “REMARKABLE . . . inspirational in the true sense of the word.”—The New York Times Book Review This is the story of one man's battle to pursue his dreams despite an often incapacitating brain disorder. From his early experiences of fear and denial to his exasperating search for treatment, Kurt Eichenwald provides a deeply candid account of his years facing this misunderstood and often stigmatized condition. He details his encounters with the doctors whose negligence could have killed him, but for the heroic actions of a brilliant neurologist and the family and friends who fought for him. Eichenwald's narrative is a suspenseful medical thriller about a condition that makes everyday life a mine field, a fierce indictment of a callous medical establishment, and an against-the-odds recovery saga.”—Publishers Weekly (starred review) “Riveting . . . Eichenwald has created a universal tale of resilience wrapped in a primal scream against the far-too-savage world.”—Booklist (starred review) “An extraordinary book.”—Harriet Lerner, Ph.D., New York Times bestselling author of *The Dance of Anger*

Bulls Markets Sean Dinces, 2022-09-10 An unvarnished look at the economic and political choices that reshaped contemporary Chicago—arguably for the worse. □ The 1990s were a glorious time for the Chicago Bulls, an age of historic championships and all-time basketball greats like Scottie Pippen and Michael Jordan. It seemed only fitting that city, county, and state officials would assist the team owners in constructing a sparkling new venue to house this incredible team that was identified worldwide with Chicago. That arena, the United Center, is the focus of *Bulls Markets*, an unvarnished look at the economic and political choices that forever reshaped one of America's largest cities—arguably for the worse. Sean Dinces shows how the construction of the United Center reveals the fundamental problems with neoliberal urban development. The pitch for building the arena was fueled by promises of private funding and equitable revitalization in a long-blighted neighborhood. However, the effort was funded in large part by municipal tax breaks that few

ordinary Chicagoans knew about, and that wound up exacerbating the rising problems of gentrification and wealth stratification. In this portrait of the construction of the United Center and the urban life that developed around it, Dinces starkly depicts a pattern of inequity that has become emblematic of contemporary American cities: governments and sports franchises collude to provide amenities for the wealthy at the expense of poorer citizens, diminishing their experiences as fans and—far worse—creating an urban environment that is regulated and surveilled for the comfort and protection of that same moneyed elite.

A trip down memory lane that ends with delicious treats on your table.” —Carla Hall, TV chef and author of Carla Hall’s Soul Food

Danny Lyon Julian Cox, Elisabeth Sussman, Alexander Nemerov, Danica Willard Sachs, Ed Halter, Alan Rinzler, 2016-01-01 The first comprehensive overview of an influential American photographer and filmmaker whose work is known for its intimacy and social engagement Coming of age in the 1960s, the photographer Danny Lyon (b. 1942) distinguished himself with work that emphasized intimate social engagement. In 1962 Lyon traveled to the segregated South to photograph the civil rights movement. Subsequent projects on biker culture, the demolition and redevelopment of lower Manhattan, and the Texas prison system, and more recently on the Occupy movement and the vanishing culture in China’s booming Shanxi Province, share Lyon’s signature immersive approach and his commitment to social and political issues that concern those on the margins of society. Lyon’s photography is paralleled by his work as a filmmaker and a writer. Danny Lyon: Message to the Future is the first in-depth examination of this leading figure in American photography and film, and the first publication to present his influential bodies of work in all media in their full context. Lead essayists Julian Cox and Elisabeth Sussman provide an account of Lyon’s five-decade career. Alexander Nemerov

writes about Lyon's work in Knoxville, Tennessee; Ed Halter assesses the artist's films; Danica Willard Sachs evaluates his photomontages; and Julian Cox interviews Alan Rinzler about his role in publishing Lyon's earliest works. With extensive back matter and illustrations, this publication will be the most comprehensive account of this influential artist's work.

Project America Marshall Elijah Hatch, 2012-05 *PROJECT AMERICA: Memoirs of Faith and Hope to Win the Future*, is one of the most impactful and relevant literary works of our time. The author, Dr. Marshall E. Hatch, sheds light on the timeless maxim that each generation must chart its own course. In looking back to Dr. King's global vision, he conscientiously looks forward to summon the probing question Where do we go from here? *Project America* offers a nostalgic yet visionary memoir that weaves together scenes from the author's personal journey with historical analysis and commentaries to address contemporary public policy issues. In his expansive, thoughtful, and powerful treatise, Dr. Hatch presents us with the challenge to move forward, beyond the sins of America's shameful history of slavery to a symphony for winning the future. In this literary treasure-trove, Hatch's four symphonic movements unfold as the pathway to fulfilling the American promise, including a massive investment in education, adapting to the changing complexion of world power, embracing environmental stewardship, and renewing our faith to reengage the social covenant with the American people. Through *Project America*, we reflect upon Chicago's and the nation's past. While learning from Hatch's insights, we are encouraged to draw from the wellsprings of our faiths and to act purposefully together to achieve a brand new world. *Project America* is truly within our grasp; therefore, let us heed Dr. Hatch's clarion call to make a brighter future start happening now.

Rule of Thumb Todd Rendleman, 2012-04-26 With a critical eye that mirrors his subject's, Todd Rendleman explores the values, temperament, character, and style that have made Roger Ebert the most trusted and influential film critic in America. Introducing the one critic whom so many moviegoers recognize, argue with, and love, *Rule of Thumb* illuminates Ebert's critical strengths and blind spots. His sensibilities are further appreciated through comparisons to incisive, provocative colleagues like Pauline Kael and John Simon. While exploring their critical clashes, the author offers fresh assessments of a host of movies, from modern classics like *Last Tango in Paris* and *Blue Velvet*, to films that deserve another glance, like *Music Box*, *In Dreams*, and *Bliss*. Few are in a position to write a firsthand memoir of one of the world's great film critics, but Rendleman accomplishes just this, smartly intertwining his own coming-of-age cinematic sensibility with a witty critical analysis of his subject. All told, his achievement is noteworthy: he

offers a unique view of a celebrated personality, while revealing himself as a writer of insight and dash.

The New Chicago John Patrick Koval,2006 For generations, visitors, journalists, and social scientists alike have asserted that Chicago is the quintessentially American city. Indeed, the introduction to *The New Chicago* reminds us that to know America, you must know Chicago. The contributors boldly announce the demise of the city of broad shoulders and the transformation of its physical, social, cultural, and economic institutions into a new Chicago. In this wide-ranging book, twenty scholars, journalists, and activists, relying on data from the 2000 census and many years of direct experience with the city, identify five converging forces in American urbanization which are reshaping this storied metropolis. The twenty-six essays included here analyze Chicago by way of globalization and its impact on the contemporary city; economic restructuring; the evolution of machine-style politics into managerial politics; physical transformations of the central city and its suburbs; and race relations in a multicultural era. In elaborating on the effects of these broad forces, contributors detail the role of eight significant racial, ethnic, and immigrant communities in shaping the character of the new Chicago and present ten case studies of innovative governmental, grassroots, and civic action. Multifaceted and authoritative, *The New Chicago* offers an important and unique portrait of an emergent and new Windy City.

Chicago's Fabulous Fountains Greg Borzo, 2017-05-10 Most people do not realize it, but Chicago is home to many diverse, artistic, fascinating, and architecturally and historically important fountains. In this attractive volume, Greg Borzo reveals more than one hundred outdoor public fountains of Chicago with noteworthy, amusing, or surprising stories about these gems. Complementing Borzo's engagingly written text are around one hundred beautiful fine-art color photos of the fountains, taken by photographer Julia Thiel for this book, and a smaller number of historical photos. Greg Borzo begins by providing an overview of Chicago's fountains and discussing the oldest ones, explaining who built them and why, how they survived as long as they have, and what they tell us about early Chicago. At the heart of the book are four thematic chapters on drinking fountains, iconic fountains, plaza fountains, and park and parkway fountains. Among the iconic fountains described are Buckingham (in Grant Park), Crown (in Millennium Park), Centennial (with its water cannon shooting over the Chicago River), and two fountains designed by famed sculptor Lorado Taft (Time and Great Lakes). Plazas all around Chicago—in the neighborhoods as well as downtown—have fountains that anchor communities or enhance the skyscrapers they adorn. Also presented are the fountains in Chicago's parks, some designed by renowned artists and many often overlooked or taken for granted. A chapter on the self-proclaimed City of Fountains, Kansas City, Missouri, shows how Chicago's city planners could raise public awareness and funding for the care and preservation of these important landmarks. Also covered are a brief period of fountain building and rehabbing (1997–2002) that vastly enriched the city; fountains that no longer exist; and proposed Chicago fountains that were never built, as well as the future of fountain design. A beautiful photography book and a guide to the city's many fountains, *Chicago's Fabulous Fountains* also provides fascinating histories and behind-the-scenes stories of these underappreciated artistic and architectural treasures of the Windy City.
