**The Fashion Image** Thomas Werner,2019-04-04 Great fashion photography, at its best, reflects and shapes the era in which it is made. Whether you are a student, aspiring photographer, or working professional, building a fashion portfolio that aspires to this standard can be daunting. The Fashion Image will help you develop your style through practical advice for image makers. Beginning with a history of fashion photography, Thomas Werner offers advice on assembling your creative team, casting models, developing shoot concepts, and producing photographs and fashion film for editorial and advertising. Professional practice, including self-promotion, social media, set etiquette, and fashion in a global context are also discussed. This is 'how to' at the highest level, with interviews from working fashion photographers, magazine editors, producers, fashion designers, and more, with around 200 color photographs that illustrate the fashion image at its best. With an extensive list of international resources, including Instagram accounts and several assignments, this book is an essential guide for fashion photographers and film makers.

Sapeurs Tariq Zaidi,2020-05 British photographer Tariq Zaidi presents a fashion subculture of Kinshasa & Brazzaville: La Sape, Societe des Ambianceurs et des Personnes Elegantes. Its followers are known as 'Sapeurs' ('Sapeuses' for women). Most have ordinary day jobs as taxi-drivers, tailors and gardeners, but as soon as they clock off they transform themselves into debonair dandies. Sashaying through the streets they are treated like rock stars - turning heads, bringing 'joie de vivre' to their communities and defying their circumstances.

Fearless Genius Doug Menuez,2014-06-03 An award-winning documentary photographer delivers a stunning visual history of the Silicon Valley technology boom, in which he was witness to key moments in the careers of Steve Jobs and more than seventy other leading innovators as they created today's digital world. An eye-opening chronicle of the Silicon Valley technology boom, capturing key moments in the careers of Steve Jobs and more than seventy other leading innovators as they created today's digital world In the spring of 1985, a technological revolution was under way in Silicon Valley, and documentary photographer Doug Menuez was there in search of a story—something big. At the same time, Steve Jobs was being forced out of his beloved Apple and starting over with a new company, NeXT Computer. His goal was to build a supercomputer with the power to transform education. Menuez had found his story: he proposed to photograph Jobs and his extraordinary team as they built this new computer, from conception to product launch. In an amazing act of trust, Jobs granted Menuez unlimited access to the company, and, for the next three years, Menuez was able to get on film the spirit and substance of innovation through the day-to-day actions of the world's top technology guru. From there, the project expanded to include the most trailblazing companies in Silicon Valley, all of which granted Menuez the same complete access that Jobs had. Menuez photographed behind the scenes with John Warnock at Adobe, John Sculley at Apple, Bill Gates at Microsoft, John Doerr at Kleiner Perkins, Bill Joy at Sun Microsystems, Gordon Moore and Andy Grove at Intel, Marc Andreessen at Netscape, and more than seventy other leading companies and innovators. It would be fifteen years before Menuez stopped taking pictures, just as the dotcom bubble burst. An extraordinary era was coming to its close. With his singular behind-the-scenes access to these notoriously insular companies, Menuez was present for moments of heartbreaking failure and unexpected success, moments that made history, and moments that revealed the everyday lives of the individuals who made it happen. This period of rapid, radical change would affect almost every aspect of our culture and our lives in ways both large and small and would also create more jobs and wealth than any other time in human history. And Doug Menuez was there, a witness to a revolution. In more than a hundred photographs and accompanying commentary, Fearless Genius captures the human face of innovation and shows what it takes to transform powerful ideas into reality.

**Kings & Queens in Their Castles** ,2017 Kings & Queens in Their Castles has been called the most ambitious photo series ever conducted of the LGBTQ experience in the U.S. Over a span of 15 years, Atwood photographed more than 350 subjects at home nationwide (with over 160 in the book), including nearly 100 celebrities (with about 60 in the book). With individuals from 30 states, Atwood offers a window into the lives and homes of some of America's most intriguing and eccentric personalities. Among those depicted are Meredith Baxter, Alan Cumming, Don Lemon, John Waters, George Takei, Alison Bechdel, Barney Frank, Don Bachardy, Billy Porter, Ari Shapiro, Arthur Tress, Michael Urie, Greg Louganis, Tommy Tune, Jonathan Adler and Terrence McNally. Modern day tableaux vivants, the images portray whimsical, intimate moments of daily life that shift between the pictorial and the theatrical. Rich in beauty and clarity, these personal landscapes are both a witness and a celebration

**Blackbook List New York** Blackbook,2005-11 The BlackBook List series was created as an offshoot ofBlackBookmagazine's Little BlackBook Lists, an insert in early issues of the bimonthly magazine started in 1998. With its sleek design, these classy guides fit easily into pockets so that nightlife connoisseurs can take them anywhere. Focusing exclusively on the city's most progressive and exciting nightlife options, this compact guide features hundreds of succinct listings and dozens of maps to the Big Apple's greatest restaurants, hotels, bars, and clubs.

**Zebrato** Michael Levin,2008 Michael Levin's photographs have gained international attention. The American fine art magazine Focus declared that Michael Levin's captivating images are soulful and evocative; he is truly one of the rising stars in the world of photography. He has won numerous prestigious awards including 'Photographer of the Year' at the 2006/07 International Photography Awards in New York and 'Fine Art Photographer of the Year' at the 2007 Prix de la Photographie in Paris. Using long exposures, Levin pulls his world taut, so that what remains in the landscape feels essential and revealed. There is a deceptive simplicity in his images as if these places need only to

be found to be realised. Places that are simple and totemic. It is Levin's pure sensibility which arranges this view, which finds these small moments and gives them weight and value and timelessness. He is particularly adept at capturing the smooth skin of light, the way it rolls over a place in the course of minutes rendering his subjects with their own private beauty. Levin illuminates these common places with new intent, making images which are both transfixing and transformative.--BOOK JACKET.
