New York Crosswords Cathy Allis, The Editors of New York Magazine, 2019-06-04 From New York magazine, a spiral-bound collection of fifty recently published crosswords—plus a bonus one created by beloved American composer Stephen Sondheim, the magazine's original puzzle constructor, for its first issue in 1968. Every year, millions of people attempt to complete a crossword puzzle, whether in print or online. Recent studies have even shown that the actual number is growing, owing to a rising public desire for less screen time and more activities that keep brains active. A number of research trials have found that regular crossword activity is among the most effective ways to preserve memory and cognitive function, and a recent trial from the NIH

found that these benefits can last as long as ten years. For fifty years, New York magazine has published some of the most entertaining, addictive crossword puzzles in America. This spiral-bound book collects fifty New York puzzles by master puzzle creator Cathy Allis; adds a classic from the New York archives, created by Stephen Sondheim in 1968; and puts them together with a covered spiral binding for easy, stay-flat solving and portability.

Games Magazine Presents Paint by Numbers Games Magazine, 1994-07-15 Paint by Numbers is the most exciting new kind of puzzle to come along in many years. These picture logic puzzles already have a following of millions of devoted fans in Japan, where they were invented five years ago. And now Games, the magazine that introduced Paint by Numbers to the United States last year, proudly brings you an English-language version of the Japanese book that started the craze. The concept is brilliantly simple. You start with an empty grid; numbers above and to the side tell you how many squares in each row and column should be filled in. The trick is that the numbers don't tell you which squares to fill in -- that's for you to determine through logical reasoning and by working back and forth between the rows and columns. When you complete the puzzle correctly, you'll find you've made a picture! Complete instructions and some time-saving tips are included at the front of this book, along with 123 puzzles ranging from easy to very challenging. This book will give

every puzzle fan many satisfying hours of entertainment.
