**Fair and Foul** D. Stanley Eitzen,1999 This book moves beyond the myths and media hype to take a closer look at America's love of sport and how it so often comes in conflict with our most basic values. With reverence yet a sharp eye for the influence of big business, corruption, price gouging, political maneuvering, and media grandstanding, Eitzen portrays famous and lesser known events from professional and college sports, including well known coaches and players, to give us a deeper understanding of what sports means to us and how it affects our everyday world.

**Horse Trading in the Age of Cars** Steven M. Gelber,2008-10 Gelber's highly readable and lively prose makes clear how this unique economic ritual survived into the industrial twentieth century, in the process adding a colorful and interesting chapter to the history of the automobile.

*Unit Operations* Ian Bogost,2008-01-25 In Unit Operations, Ian Bogost argues that similar principles underlie both literary theory and computation, proposing a literary-technical theory that can be used to analyze particular videogames. Moreover, this approach can be applied beyond videogames: Bogost suggests that any medium—from videogames to poetry, literature, cinema, or art—can be read as a configurative system of discrete, interlocking units of meaning, and he illustrates this method of analysis with examples from all these fields. The marriage of literary theory and information technology, he argues, will help humanists take technology more seriously and help technologists better understand software and videogames as cultural artifacts. This approach is especially useful for the comparative analysis of digital and nondigital artifacts and allows scholars from other fields who are interested in studying videogames to avoid the esoteric isolation of game studies. The richness of Bogost's comparative approach can be seen in his discussions of works by such philosophers and theorists as Plato, Badiou, Žižek, and McLuhan, and in his analysis of numerous videogames including Pong, Half-Life, and Star Wars Galaxies. Bogost draws on object technology and complex adaptive systems theory for his method of unit analysis, underscoring the configurative aspects of a wide variety of human processes. His extended analysis of freedom in large virtual spaces examines Grand Theft Auto 3, The Legend of Zelda, Flaubert's Madame Bovary, and Joyce's Ulysses. In Unit Operations, Bogost not only offers a new methodology for videogame criticism but argues for the possibility of real collaboration between the humanities and information technology.

*Experiential Marketing* Kerry Smith,Dan Hanover,2016-03-29 The most researched, documented, and comprehensive manifesto on experiential marketing. As customers take control over what, when, why, and how they buy products and services, brands face the complete breakdown and utter failure of passive marketing strategies designed more than a half-century ago. To connect with a new generation of customers, companies must embrace and deploy a new marketing mix, powered by a more effective discipline: experiences. Experiential marketing, the use of live, face-to-face engagements to connect with audiences, create relationships and drive brand affinity, has become the fastest-growing form of marketing in the world as the very companies that built their brands on the old Madison Avenue approach—including Coca-Cola, Nike, Microsoft, American Express and others—open the next chapter of marketing. . . as experiential brands. Using hundreds of case studies, exclusive research, and interviews with more than 150 global brands spanning a decade, global experiential marketing experts Kerry Smith and Dan Hanover present the most in-depth book ever written on how companies are using experiences as the anchor of reinvented marketing mixes. You'll learn: The history and fundamental principles of experiential marketing How top brands have reset marketing mixes as experience-driven portfolios The anatomy of a brand experience The psychology of engagement and experience design The 10 habits of highly experiential brands How to measure the impact of experiential marketing How to combine digital and social media in an experiential strategy The experiential marketing vocabulary How to begin converting to experiential marketing Marketers still torn between outdated marketing models and the need to reinvent how they market in today's customer-controlled economy will find the clarity they need to refine their marketing strategies, get a roadmap for putting their brands on a winning path, and walk away inspired to transition into experiential brands.

**Twelve Years a Slave** Solomon Northup,2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Nortup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US,on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

**Punk 57** Penelope Douglas,2023-12-05 Secrets, deception, and passion consume two pen pals in the TikTok sensation from New York Times bestselling author Penelope Douglas, now with exclusive bonus material! They were perfect together. Until they met. In fifth grade, Misha's teacher set him and his classmates up with pen pals from a different school. For the next seven years, Ryen was his everything. She kept Misha on track and accepted him as he is. They only had three rules: No social media, no phone numbers, no pictures. There was no reason to ruin the good thing they had going...until Misha runs across a photo of a girl online named Ryen. He knows he has to meet her. But he didn't expect to hate what he finds. Ryen has gone three months without a letter from Misha. Did he die? Get arrested? Knowing Misha like she does, neither would be a stretch. She needs to know someone is listening to her. But really, Ryen knows this is her own fault. She should've gotten his phone number, or picture, or something. As a mysterious vandal leaves messages in Ryen's school, she's possessed by the handsome new student who knows just how to hurt and heal her. But she can't stop thinking of Misha. He could be gone forever. Or right under her nose, and she wouldn't even know it...

**Favela** Janice Perlman,2010-06-10 Janice Perlman wrote the first in-depth account of life in the favelas, a book hailed as one of the most important works in global urban studies in the last 30 years. Now, in Favela, Perlman carries that story forward to the present. Re-interviewing many longtime favela residents whom she had first met in 1969--as well as their children and grandchildren--Perlman offers the only long-term perspective available on the favelados as they struggle for a better life. Perlman discovers that while educational levels have risen, democracy has replaced dictatorship, and material conditions have improved, many residents feel more marginalized than ever. The greatest change is the explosion of drug and arms trade and the high incidence of fatal violence that has resulted. Yet the greatest challenge of all is job creation--decent work for decent pay. If unemployment and under-paid employment are not addressed, she argues, all other efforts will fail to resolve the fundamental issues. Foreign Affairs praises Perlman for writing with compassion, artistry, and intelligence, using stirring personal stories to illustrate larger points substantiated with statistical analysis.

Pro Full-Text Search in SQL Server 2008 Hilary Cotter,Michael Coles,2009-01-29 Businesses today want actionable insights into their data—they want their data to reveal itself to them in a natural and user-friendly form. What could be more natural than human language? Natural-language search is at the center of a storm of ever-increasing web-driven demand for human-computer communication and information access. SQL Server 2008 provides the tools to take advantage of the features of its built-in enterprise-level natural-language search engine in the form of integrated full-text search (iFTS). iFTS uses text-aware relational queries to provide your users with fast access to content. Whether you want to set up an enterprise-wide Internet or intranet search engine or create less ambitious natural-language search applications, this book will teach you how to get the most out of SQL Server 2008 iFTS: Introducing powerful iFTS features in SQL Server, such as the FREETEXT and CONTAINS predicates, custom thesauruses, and stop lists Showing you how to optimize full-text query performance through features like full-text indexes and iFilters Providing examples that help you understand and apply the power of iFTS in your daily projects

Dr. Strange Beard Penny Reid,2018 Everyone in Green Valley, Tennessee knows that the six bearded Winston brothers have been imbued with an unfair share of charm and charisma... and are prone to mischief. Dr. Strange Beard, the fifth book in the Winston Brothers series, from USA TODAY bestselling author Penny Reid publishes in July 2018!

Launch! Advertising and Promotion in Real Time Michael Solomon,2009 Launch! Advertising and Promotion is written for advertising and promotion courses taught to students in the business school and journalism & mass communication students. This textbook is the first of its kind to teach advertising concepts by reverse engineering a real advertising campaign from beginning to end. In April 2007, SS+K, an innovative New York City communications agency, launched the first ever branding campaign for msnbc.com with the tag A Fuller Spectrum of News. Launch! follows that campaign from initial agency pitch through roll-out of print and media assets to post-campaign analysis. Throughout, it exposes readers to the theory and concepts of advertising and promotion, and the personalities and decisions that drove this campaign. The book takes a rare look behind the curtain - even letting you see some of the paths not chosen by the agency and client. Students get a realistic sense of how theory plays out in practice, and get a flavor for the exciting field of advertising and promotion. And, they consistently learn the perspectives of both the advertising agency (where many journalism and communications students will work) and the client (where many marketing majors will work). This is a unique book, with a unique perspective, by a unique author team, and you won't find this kind of insight in any other text on the market. We think you're going to love it! This textbook has been used in classes at: Ball State University, Emerson College, Florida Institute of Technology, Grand Valley State University, Johnson County Community College, Manchester Business School, McLennan Community College, Michigan State University, North Hennepin Community College, Pierce College, Rochester Institute of Technology, Saint Louis University, Salem State College, South Dakota State University, Texas State University, Texas Tech University, University of New Hampshire, University of North Carolina, University of Notre Dame, University of South Florida, Virginia Tech, Western Kentucky University.
