Sport: Law and Practice Adam Lewis KC,Jonathan Taylor KC,2021-03-15 Sport: Law and Practice, Fourth Edition is the leading legal title covering sports law and practice in the UK, and at the Court of Arbitration for Sport. It serves both as a comprehensive statement of applicable law and precedent, and as a very practical guide to circumnavigating a complex sector. The new edition retains and updates all of the key chapters from previous editions, including the extended sections on challenges to the actions of sports governing bodies, and on anti-doping regulation and enforcement (with an introduction to the new 2021 World Anti-Doping Code). There are important updates to the chapters on Regulating Financial Fair Play, Misconduct, Safeguarding in Sport, the Court of Arbitration for Sport, and Media Rights and Sport. The Fourth Edition also adds brand new chapters dealing with: -Effective sports regulation (including the first ever comprehensive discussions of the 'general principles of law' applied by CAS panels in determining challenges to sports regulations, as well as of the principles of interpretation of sports regulations). -Best practice in sports governance (describing developments such as the strengthening of the competence and independence of boards and the emergence of independent integrity units). -Data protection law and sport (including discussion of the provisions of the Data Protection Act 2018 that facilitate the sharing of personal data by sports bodies for integrity-related purposes). -Exploiting commercially valuable sports data (explaining how sports rights-holders can fashion commercial agreements to meet the demand for sports data from the betting industry and others). -ESports (the first comprehensive treatment of the legal and practical principles underlying the regulation and commercial exploitation of the increasingly important ESports sector). Readers will also benefit from practice tips, precedent clauses, detailed explanations of key practical issues, and step-by-step analysis. This is an essential title for all sports law practitioners (solicitors and barristers, common law and civil lawyers), sports governing bodies, event organisers, clubs, participants, sports agencies and commercial partners, arbitrators, universities, and students.

Sports, Exercise, and Fitness Mary Beth Allen,2005-03-30 For reference librarians and researchers seeking information on sports and fitness, this guide is an important first stop. For collection development specialists, it is an invaluable selection guide. Allen describes and evaluates over 1,000 information sources on the complete spectrum of sports: from basketball, football, and hockey to figure skating, table tennis, and weight training. Focusing on English-language works published between 1990 and the present, the guide thoroughly covers traditional reference sources, such as encyclopedias and bibliographies, along with instructional sources in print formats, online databases, and Web sites. To enable users in search of information on specific sports or fitness activities, chapters are organized thematically, according to broad-type aquatic sports, nautical sports, precision and accuracy, racket sports, ice and snow sports, ball sports, cycling, and so on, with subcategories for such individual sports as soccer, golf, and yoga. Within these categories, works are further organized by type: reference, instructional, and Web sites.

The Professionalization of Action Sports Guillaume Dumont,Holly Thorpe,2022-07-28 Action sports have undergone dramatic growth, commercialization, and institutionalization over recent decades. This book uncovers the social, political, economic and organizational dynamics of their professionalization. After sketching some of the main transformations at stake in the field, the contributors provide novel insights into the changing structures in the action sports industry and the effects on athletes, coaches, agents and the cultures more broadly. Such trends came to the fore in the inclusion of surfing, skateboarding, sport climbing and BMX

freestyle into the Tokyo Olympic Games. The book explores the working lives of action sports athletes, more specifically when it comes to their social media practices and the commercial pressure emerging from sponsors, and it also provides key insights into the institutionalization and professionalization of action sports amid ongoing processes of globalization, commodification and incorporation. Overall, the book reveals how different action sports (i.e., snowboarding, surfing, kiteboarding, parkour, climbing, skateboarding), and across countries, are at various stages in the professionalization process, with local, national and international responses and reactions to such trends differing considerably. The chapters in this book were originally published as a special issue of Sport in Society.

Macmillan Directory of UK Business Information Sources James Tudor, 1992-09-15 The objective of this publication is to provide a 'one stop' guide to business information, insofar as that is possible within the confines of a useable book. It aims to give guidance on both the published and organisational sources relevant to the needs of the non-professional business researcher and provides a listing of 'worthwhile' references and contacts. As previously, the Directory is organised so that both published sources and information centres are grouped together under their applicable Standard Industrial Classification (SIC) number and heading. This new edition also incorporates NACE classification and correlation tables. The second category again includes those UK and pan-national organisations which focus on specific, discrete industry sectors, which limits the number of organisational sources in the directory to those that are 'most worthwhile'.
