*25 Houses Under 3000 Square Feet* James Grayson Trulove,2006-01-24 Following the successful *25 Houses Under 2500 Square Feet* and *25 Houses Under 1500 Square Feet*, this book continues to explore the joys of living in compact, well-designed spaces. The twenty-five homes presented here, all recently constructed, offer an extraordinary range of architectural solutions for designing functional yet interesting, dramatic living spaces, ranging from a few hundred to 3,000 square feet. Each of the projects illustrates an innovative use of materials and careful attention to space and light. The informative text highlights the design and technical aspects of each house, and accompanying photography, architectural drawings, and site plans

provide even further insight. 25 Houses Under 3000 Square Feet presents homes from coast to coast that everyone can relate to -- an abundance of exciting designs that are sure to inspire and amaze.

**BIG little house** Donna Kacmar,2015-01-09 What are the challenges architects face when designing dwelling spaces of a limited size? And what can these projects tell us about architecture – and architectural principles – in general? In BIG little house, award-winning architect Donna Kacmar introduces twenty real-life examples of small houses. Each project is under 1,000 square feet (100 square meters) in size and, brought together, the designs reveal an attitude towards materiality, light, enclosure and accommodation which is unique to minimal dwellings. While part of a trend to address growing concerns about minimising consumption and lack of affordable housing, the book demonstrates that small dwellings are not always simply the result of budget constraints but constitute a deliberate design strategy in their own right. Highly illustrated and in full-colour throughout, each example is based on interviews with the original architect and accompanied by detailed floor plans. This ground-breaking, beautifully designed text offers practical guidance to any professional architect or homeowner interested in small scale projects.

**25 Houses Under 1500 Square Feet** James Grayson Trulove,2004-11-09 Following up on the successful book 25 Houses under 2500 Square Feet, this title will continue to explore, through case studies, the joys of living in compact, well designed homes. The 25 houses presented in the book offer an extraordinary range of architectural solutions for designing functional yet exciting, dramatic living spaces within a small envelope. The houses will range in size from a few hundred square feet up to 1500 square feet of heated space. As with 25 Houses, projects will be located throughout the United States with some coming from Europe, South America, Asia and Australia. Readers interested in building a primary residence, a weekend getaway, or a guest house will discover how architects, through the innovative use of common building materials and careful attention to space and light, are able to create dwellings that belie their small size. The projects were selected for their excellence in design, innovative use of materials and methods of construction, each house comprises a case study that includes interior and exterior photography by some of the finest architectural photographers working today; drawings including site plans, details, and floor plans; and concise, informative text that highlights the design and technical aspects of the house. Architects and architectural firms to be featured include: Lake/Flato, Olson Sunberg Kundig Allen, Archi-Tonics, Via Architecture, Dean/Wolf, Belmont Freeman,Hanrahan and Meyers, AC2, Frank Harmon.
