*Ours to Lose* Amy Starecheski, 2016-11-07 "The fascinating and little-known tale of the Lower East Side squatters of the Eighties . . . a radical, European-inspired housing movement" (The Village Voice). Though New York's Lower East Side today is home to high-end condos and hip restaurants, it was for decades an infamous site of blight, open-air drug dealing, and class conflict—an emblematic example of the tattered state of 1970s and '80s Manhattan. Those decades of strife, however, also gave the Lower East Side something unusual: a radical movement that blended urban homesteading and European-style squatting in a way never before seen in the United States. *Ours to Lose* tells the oral history of that movement through a close look at a diverse group of Lower East Side squatters who occupied abandoned city-owned buildings in the 1980s, fought to keep them for decades, and eventually began a long, complicated process to turn their illegal occupancy into legal cooperative ownership. Amy Starecheski here not only tells a little-known New York story, she also shows how property shapes our sense of ourselves as social beings and explores the ethics of homeownership and debt in post-recession America. "There are many books about the Lower East Side and its recent transformation, yet none has included engagement or oral history with primary organizers in the way Starecheski has. *Ours to Lose* is a unique and substantive contribution to our understanding of a most distinct practice in the shaping of urban space." —Metropolitiques "What is significant is that the author demonstrates how some New Yorkers addressed the housing crisis in an unconventional manner. Recommended." —Choice

You'll be guided through the process of creating a custom Game Center Manager class that can be rapidly deployed into any of your new or existing projects. Furthermore, learn how to avoid pitfalls commonly encountered by new Game Center developers.

**Squatter** Leah Leonardsen, 2002-12-11 Desert Lullaby, lying here under the starlit desert sky tonight, I find peace of mind as I stare at the heavens so bright; then a foxes sharp bark, an owls shrill screech, a coyotes cry, begin the nightly serenade of a desert lullaby; I close my eyes and sigh, this is a favorite time of mine, this is nothing new to me, I've often slept beneath a tree, I'm no stranger to this desert life, or to a desert night; I think in all my life I'll never find anything as peaceful as a desert lullaby. From the desert to

the sea, *Heartstrings* is a collection of poems that the author has written over several years.

*Kill City* Ash Thayer, 2015-03-31 After being kicked out of her apartment in Brooklyn in 1992, and unable to afford rent anywhere near her school, young art student Ash Thayer found herself with few options. Luckily she was welcomed as a guest into See Skwat. New York City in the '90s saw the streets of the Lower East Side overrun with derelict buildings, junkies huddled in dark corners, and dealers packing guns. People in desperate need of housing, worn down from waiting for years in line on the low-income housing lists, had been moving in and fixing up city-abandoned buildings since the mid-80s in the LES. Squatters took over entire buildings, but these structures were barely habitable. They were overrun with vermin, lacking plumbing, electricity, and even walls, floors, and a roof. Punks and outcasts joined the squatter movement and tackled an epic rebuilding project to create homes for themselves. The squatters were forced to be secretive and exclusive as a result of their poor legal standing in the buildings. Few outsiders were welcome and fewer photographers or journalists. Thayer's camera accompanied her everywhere as she lived at the squats and worked alongside other residents. Ash observed them training each other in these necessary crafts and finding much of their materials in the overflowing bounty that is New York City's refuse and trash. The trust earned from her subjects was unique and her access intimate. *Kill City* is a true untold story of New York's legendary LES squatters.

*Beginning iOS Apps with Facebook and Twitter APIs* Chris Dannen, Christopher White, 2011-10-08 *Beginning iOS Apps with Facebook and Twitter APIs* shows you how to add the power of social networking to your mobile apps on iPhone, iPad, and iPod touch. With this book as your guide, you can write apps that connect to Facebook and Twitter quickly, securely, and discreetly. Instead of starting from scratch, you will build on the vast resources, data storage capacity, and familiar features of these platforms which have become part of everyday life for hundreds of millions of users worldwide. *Beginning iOS Apps with Facebook and Twitter APIs* introduces you to the development tools, techniques, and design practices you will need to work with the APIs. It helps you decide whether to use Facebook, Twitter, or both, and explains the important issues of design, branding, and permissible use guidelines. You will learn how to guarantee privacy and use OAuth for authentication and single sign-on. Create news apps, shopping apps, contact apps, GPS apps, guides, and more, that let users transparently: Sign on once, then freely work with and manage their Facebook and Twitter accounts Publish game high scores, post likes, links, and status updates Send messages, share pictures, and forward Tweets Tweet a link to an event, show themselves as attending, and see who else is there Show Tweets that are relevant to a topic within a news app Show Tweets about a restaurant Organize a group or community From time to time, new forms of communication come along that make it easier for people to communicate and manage their social lives. Like phone calls and SMS before them, Facebook and Twitter have, in a short time, become essential parts of the social fabric of life for an ever-growing number of people throughout the world. The knowledge you'll gain from *Beginning iOS Apps with Facebook and Twitter APIs* will help you create exciting and popular iOS apps that your users will rely on every day to help make their lives more meaningful and connected.

From the Jump Lacie Waldon, 2022-07-19 A chronic yes-woman finally admits to what—and who—she really wants in this unforgettable and heartfelt romantic comedy, by the author of *The Layover*. Liv Bakersfield is used to living her life in “shoulds.” Be fit. Be financially responsible. Be your best self. An overworked graphic designer, she’s stretched so thin that she’s about to miss yet another vacation with her beloved group of college friends. But when Liv finally decides to start saying no, it feels good...good enough to leap

straight into quitting her job and hopping on a plane to join them in South Africa. Amid the exotic landscape and unforgettable sights, Liv expects sun and safari animals and an easy time with her best friends. But such close proximity makes everything more complicated, especially with the emotionally unavailable Lucas Deiss. Their friendship is the only thing in her life that's still solid, and she vows to do anything she can to keep the group together. But once they get back to LA, Liv discovers that her leap of faith has become a freefall, sending her crashing into Deiss's arms. With the trust of the people she loves most on the line, Liv must decide between doing what she should ... and risking everything for what she shouldn't want.

**Global Innovation and Economic Value** Vijay Kumar, R. P. Sundarraj, 2018-01-28 This book attempts to capture innovation outcomes. The intent is on a holistic assessment of value creation by innovation — the societal value that it delivers to humanity, the economic value that it has the potential to endow to nations, and the monetary value that it provides to innovating firms. With a range of anecdotal examples and empirical analysis, the book endeavours to answer the question: Have investments in innovation paid off? Big data and analytics underpin the development of the book material. The coverage is truly global, accentuating the economic value created by innovation in the technology and pharmaceutical sectors, the two largest bastions of innovation. In addition, it includes numerous examples of successful innovation in global companies while analyzing its economic/financial impact.

*The Burnings* Julian Lees, 2017-10-05 With discovery comes certain death... When Australian Jillian Parker's scorched remains are discovered in her burnt-out car Ruud Pujasumarta and his team are brought in to investigate what appears at first to be a routine homicide. But when Canadian citizen Anita Dalloway's charred body is found a few days later Ruud finds a banner unfurled by the corpse's feet. A verse from the Quran is scribbled across it, calling for unbelievers to be burned. The killer is targeting Christians. And the team's suspicions are confirmed when a third body, that of English backpacker Emily Grealish, turns up with the same M.O. But who is responsible? Is it the senior Australian diplomat from the embassy who was obsessed by the first victim? The Imam who preaches Sharia law? The Indonesian three-star military general taking backhanders and living a life of luxury in Jakarta? Or the local drug dealer with a score to settle? But Ruud is suspicious that the killer may be someone much closer to home, someone Ruud has trusted for many years. What unravels is a terrifying chain of events for Ruud. And what he discovers puts his and those around him lives in danger.

*Digital Technologies in Early Childhood Art* Mona Sakr, 2017-01-12 Through art children make sense of their experiences and the world around them. Drawing, painting, collage and modelling are open-ended and playful processes through which children engage in physical exploration, aesthetic decision-making, identity construction and social understanding. As digital technologies become increasingly prevalent in the lives of young children, there is a pressing need to understand how digital technologies shape important experiences in early childhood, including early childhood art. Mona Sakr shows the need to consider how particular dimensions of the art-making process are changed by the use of digital technologies and what can be done by parents, practitioners and designers to enable children to adopt playful and creative practices in their interactions with digital technologies. Incorporating different theoretical perspectives, including social semiotics and posthumanism, and drawing on various research studies, this book highlights how children engage with different facets of art-making with digital technologies including: remix and mash-up; distributed ownership; imagined audiences and changed sensory and social interactions.

**Ted of the d'Urbervilles** Rob Rosen, 2020-01-18 Ted is an orphan, a young gay man living on the streets following the death of both his parents. Hope seems futile, though hope is exactly what he finds when a surprising email informs him that an unknown wealthy relative has died, that a reading of a will is soon to occur clear across the country. Ted will inherit something, but what that something is remains to be seen. Benny is a young, homeless drug addict, straight except for when cash is involved. Benny has never had a reason to be hopeful about anything until a chance encounter with Ted. Both men are soon traveling together from state to state, making ends meet however they can, rushing to the reading of the will that may or may not change both their lives forever. An unexpected friendship quickly forms, and then just as unexpectedly blossoms into something more as their adventure ultimately leads them to their fates. At turns darkly funny and tragic, deeply erotic and poignant, *Ted of the d'Urbervilles* uniquely shines a light on the phrase Love is Love -- though who they will find it with remains a mystery until the very end.

[Souljastory@itrilla.com](mailto:Souljastory@itrilla.com) Richard Warren Crosson, 2012-08 The year is 2016 in the mist of the great recession hangs like an ominous storm cloud in the backdrop of this story, which is told in hindsight through the blogs of a chick named Isis. In her sometimes salacious narrative, this iTrills.com blogger, has taken her readers back in time when she was a young crazy-sexy-cool ride-or-die type that shamelessly rocked a red flag. She knew more computer codes than a Silicon Valley whiz-kid. Readers of her blog also get a peek into her sizzling hot sexual affair with a devilishly influential guerilla-gansta' named Soulja: leader of the notorious B.R.M. clique, and founder of the even more influential iTrilla.com. Never mind that Isis has a man that worships her like her goddess name. She's become a drifting moth attracted to the flame of Soulja ever since she and her boyfriend met him. While still in the hands of the Feds, Soulja evolved into an informed convict disguised as a blogger. Unfortunately for the powers-that-be he is laced with controversial convictions that has inspired millions. Soon after his release into the free world, he covertly used his own social networking site to chop-it-up with other leaders of illicit underground street orgs. With them he devises a radical blueprint to destroy every prison plantation in America: hoping to create a slavery revolt just like the legend of his hero Nat Turner. Of course, no plan of this magnitude could ever unravel without a significant glitch.
