Powers of Attorney in Australia and New Zealand Berna Collier,Shannon Lindsay,1992 From a review in the Australian Law Journal:This book is a delightful surprise, for within its bare title the authors have covered the law concerning powers of attorney on both sides of the Tasman. The text is written in a clear and lucid fashion. It is well laid out, and provides in convenient form the texts of the relevant legislation applying throughout Australia and in New Zealand. It provides an accurate summary of the law as applying at the end of 1992. The index is unusually comprehensive, and the coverage of this area of law is thoroughly professional. It should prove to be a most useful text for practitioners in areas of company law, probate, and family law who will appreciate the specimen forms and clauses offered. It is so wide in its potential utility that (given its sensible price) it should be on every solicitor's bookshelf.

**Equity and Trusts in Australia** Michael Bryan,Vicki Vann,Susan Barkehall Thomas,2022-11-30 Equity and Trusts in Australia offers an accessible introduction to the principles of Australian equity and trusts law for students, linking key doctrines to their wider relationship with the law. The text covers foundational topics of equity and trusts law, including the nature of equity, fiduciary relationships and trust structures. This edition has been revised to include recent landmark decisions and a new chapter on termination and variation of trusts. Each chapter concludes with a guide to the online resources, which encourage students to extend their knowledge of the content through further reading, practice problems and discussion topics. Written by a team of experienced authors, Equity and Trusts in Australia is an ideal text for students undertaking this area of study for the first time. A Sourcebook on Equity and Trusts in Australia is also

available and provides cases and primary legal materials to accompany Equity and Trusts in Australia.

**Equity and Trusts in Australia** Michael Bryan, Vicki Vann, 2012-07-17 Equity and Trusts in Australia is a practical and engaging introduction to equitable and trusts law in Australia. Drawing on the authors' collective 45 years of teaching experience, this text is carefully designed to cater to the needs of undergraduate law and Juris Doctor students approaching equity and trust law for the first time. The book provides a succinct, clear and accessible explanation of key theories and terminology in equitable and trust law and demonstrates how these are applied in practice with simple, topical examples. Comprehensively cross-referenced, it draws links between equitable and trusts doctrines and their wider relationships to the law. The companion website, at [www.cambridge.edu.au/academic/equity](http://www.cambridge.edu.au/academic/equity) is an invaluable resource for students and lecturers, featuring further reading, discussion points and practice exercises and solutions.

**Caveats Against Dealings in Australia and New Zealand**

Shannon Lindsay, 1995 This work has been written by a practitioner for the benefit of practitioners. The two introductory chapters deal with broad general principles and conceptual issues such as what is a caveat? and what is a caveatable interest? but the bulk of the book is taken up by an encyclopaedic analysis of all of the reported Australian and New Zealand cases touching upon caveats. Essentially this book is intended to function as a road map for practitioners to the reported cases, guiding them to cases involving similar facts, and breaking the issues up in a way that matches the practical problems with which they must deal. Chapters which follow on from the general introductory chapters: list all the recognised categories of situations where there is a caveatable interest deal with defects in the drafting of

caveats describe the procedures available to a registered proprietor or other interested person for freeing the title from the caveat analyse the criteria for a successful action for compensation for wrongful lodgement of a caveat explain the role of caveats in determining equitable priorities There is also a brief chapter dealing with the assessment of stamp duty on caveats.

The Forum of Federations Handbook of Fiscal Federalism

Jean-François Tremblay, 2023-07-31 This open access handbook compares fiscal federalism arrangements in eleven federal/ decentralized countries. Each chapter examines an individual country, laying out its constitutional design as relates to fiscal powers and the division of those powers between levels of government. Specifically, the analyses consider powers of taxation, spending, regulation, and more. Focusing on Australia, Brazil, Canada, Ethiopia, Germany, India, Italy, South Africa, Spain, Switzerland, and the United States, the contributors provide a fascinating account of how federal countries are confronting the traditional challenges of conflicts over division of fiscal powers while also coping with the ongoing challenges of globalization and citizen empowerment that arise from the information revolution. As a companion to the Forum of Federations Handbook of Federal Countries 2020, this volume considers how relationships and roles in different orders of government are being reshaped, and shows how local solutions inspired by global principles help strengthen government accountability and improve citizens' quality of life. This is an open

access book.

Permanent Sovereignty over Natural Resources Marc Bungenberg, Stephan Hobe, 2015-04-15  
Fifty years after the adoption of the Declaration on Permanent Sovereignty over Natural Resources by the General Assembly of the United Nations in December 1962, this volume assesses the evolution of the principle of permanent sovereignty over natural resources into a principle of customary international law as well as related developments. International environmental and human rights law leave unresolved questions regarding the limitations of this principle, e.g. extraterritorial and international influences such as the applicable criminal and tort law, as well as the extraterritorial and international promotion of good governance, including transparency obligations.
