Huntress of the Star Empire Episode 1: Hot Pursuit Athena Grayson,2016-03-02 Micah Ariesis is a wanted man. Pursued across the star system by the Huntress, helpless as his brethren are brought down one by one, he's got no options left but to gamble his future on a sketchy revolutionary plot aimed at the empire's heart, but the mystery surrounding the Huntress's legendary skill puts danger to a much closer heart—his own. Ever since she was found in the aftermath of alien attacks, Treska Sivekka has been trained to one purpose—to hunt down threats to the security of the Union that gave her an identity. But when the Union's biggest threat inspires desire, and not fear, it's going to take all her training to protect her principles against his persuasive onslaught. The Huntress's neuro-collar and repulsor cuffs may keep Micah bound to her mercy, but they can't stop him from challenging her convictions, and the lies she's been told about his people. But when the secrets surrounding her own missing memories begin to reveal themselves, he may be the only one she can trust.

The Indianapolis Automobile Industry Sigur E. Whitaker, 2018-02-09 In 1893, Indianapolis carriage maker Charles Black created a rudimentary car—perhaps the first designed and built in America. Within 15 years, Indianapolis was a major automobile industry center rivaling Detroit, and known for quality manufacturing and innovation—the aluminum engine, disc brakes, aerodynamics, superchargers, and the rear view mirror were first developed there. When the Indianapolis Motor Speedway opened in 1909, hometown manufacturers dominated the track—Marmon, Stutz and Duesenberg. The author covers their histories, along with less well known contributors to the industry, including National, American, Premier, Marion, Cole, Empire, LaFayette, Knight-Lyons and Hassler.

Empire Lite Michael Ignatieff, 2006-11-07 With the collapse of political order around the world, a new international order is emerging, one that is crafted to suit American imperial objectives. In Empire Lite, Michael Ignatieff explores both sides of what he sees as a new global empire—the imperial and the humanitarian. Humanitarian agencies face the dilemma of how to keep their programs from being suborned to imperial interests. Yet they realize it was American air power that made an uneasy peace and humanitarian reconstruction possible, first in Bosnia, then in Kosovo and finally in Afghanistan. Drawing on his own experiences of war zones, and with an extraordinary account of life in Afghanistan, Ignatieff identifies the illusions that make a genuine act of solidarity so difficult and asks what can be done to help people in war-torn societies enjoy the essential right to rule themselves.

Starfinder Adventure Path Eleanor Ferron,2018-10-16 Deputized by the interstellar police force called the Stewards for freeing a colony from Azlanti occupation, the heroes journey to the Azlanti Star Empire to rescue their captive friend from a well-guarded prison moon. After visiting an outlaw space station nearby, the heroes stage a daring breakout and clash against the penal colony's commandant. But the experimental starship drive is still at large, and the heroes must track it down to prevent the Azlanti from making it operational! *Escape from the Prison Moon* is a Starfinder Roleplaying Game adventure for four 3rd-level characters. The adventure continues the *Against the Aeon Throne* Adventure Path, a 3-part, monthly campaign in which players visit and explore some of the worlds of the sinister Azlanti Star Empire. It also includes an overview of the expansionist Azlanti Star Empire, an article exploring various aliens races under the Azlanti Star Empire's jurisdiction, and a selection of new monsters from alien worlds. Each monthly full-color softcover Starfinder Adventure Path volume contains a new installment of a series of interconnected science-fantasy quests that together create a fully developed plot of sweeping scale and epic challenges. Each 64-page volume of the Starfinder Adventure Path also contains in-depth articles that detail and expand the Starfinder campaign setting and provide new rules, a host of exciting new monsters and alien races, a new planet to explore and starship to pilot, and more!

James Allison Sigur E. Whitaker,2014-01-10 Among the engineers fueling the rapid rise of the automotive industry at the dawn of the 20th century was James Allison, a fountain pen maker who joined with Carl G. Fisher in 1904 to found Prest-O-Lite, an early manufacturer of the power source for automotive headlights. This biography tracks Allison's involvement in the Indianapolis 500, which he cofounded with Fisher and two others, as well as his machine shop's construction of the Liberty engine, the first mass-produced aircraft engine, and also the V1710, the workhorse of World War II military aircraft. Through his unique ingenuity and perseverance, Allison created a legacy that still resonates today at the Indianapolis 500, Rolls-Royce, and Allison Transmission.

Galtech and the Shadow Warriors Magnum Indiana,2017-08-31 The GalTech and Shadow Warrior series combines science fiction, business, humor, military special team tactics, symbionts, space fleet warfare, and an occasional splash of romance. Constant action and humor are the foundations this series is built on. Book One, Growth of a Star Empire, introduces main characters. Some of them manage to survive to the end of this multi book series. Some do not. The discovery of cheap, faster-than-light-travel saw millions flee Terra to find homes among the stars. Some planets combined into empires. Some empires became more. The Teaman Empire has a few things that keep its Alliance partners from gobbling it up. Their banking system, the massive Teaman University, the military and industrial research sold to Alliance partners were barely enough to deter takeover. Then came a discovery that became the Shadow Warriors. We join the story after the assassination of the newly crowned Emperor's parents. Himself a recipient of the microbial community that makes him a Shadow, he creates a company that will use Shadow tactics in business to unify a troubled alliance. In the science fiction wild west setting that is the Galaxy at the time, protecting a small Empire and growing the company that could unify an Alliance is anything but peaceful.

Empire of Light David Czuglewski,2005 Matt Kelly is stunned when his ex-girlfriend Anna Barrett informs him that she has joined Imperium Luminis and is now a member of the Light. A powerful organization, Imperium Luminus is dedicated to sanctifying the world, and it operates by recruiting, instructing, and supervising a growing legion of devoted members. Torn between his suspicion of the group and his love for Anna, Matt researches Imperium Luminis - and finds himself strangely attracted to its aspirations. But after he uncovers some of the group's questionable practices - such as its

locking up of new members in a dark room for several days - Matt is convinced that Imperium Luminus is something other than it claims to be, and he seeks to persuade Anna that she has been deceived. When Anna disappears, Matt resolves to do whatever it takes to find her - even going so far as to pretend to join Imperium Luminis himself. At the same time he must come to terms with his father's past, which includes a secret that the group may try to use against him. But is it possible to pretend to join? As Matt enters more deeply into the world of Imperium Luminis, it is increasingly unclear which of his words are his own, and which are due to his association with the organization. And what is the ultimate purpose of Imperium Luminis's interest in Matt - does the group simply want to save his soul, or is he being maneuvered into the center of a larger and more disturbing conspiracy?--BOOK JACKET.

The Fourth Service John Slader,2010-06-04 Here at last is the true story of the merchant fleet during World War II, the non-fighting service in which 32,000 men died yet whose essential role has never been fully appreciated. The author, himself a member of the service from 1941-47, relates the stories of merchantmen and their crews with unique insight. From the early days of the war to the day of victory on the Rhine, through combined operations in the Mediterranean and at Normandy, the complete operation of the fleet is examined, with vivid accounts of the horrific losses undergone, the heroism of the crews and the sacrifices endured to ensure that Britain received its essential supplies of food, oil, and raw materials. Highly illustrated, this book will be absorbing for the war historian, maritime enthusiast and general reader alike.

Ottawa and Empire Tyler Shipley,2018-04-04 In June 2009, the democratically elected president of Honduras was kidnapped and whisked out of the country while the military and business elite consolidated a coup d'etat. To the surprise of many, Canada implicitly supported the coup and assisted the

coup leaders in consolidating their control over the country. Since the coup, Canada has increased its presence in Honduras, even while the country has been plunged into a human rights catastrophe, highlighted by the assassination of prominent Indigenous activist Berta Cáceres in 2016. Drawing from the Honduran experience, Ottawa and Empire makes it clear that Canada has emerged as an imperial power in the 21st century.
