Huntress of the Star Empire Athena Grayson,2018-12-03 She's the empire's secret weapon, but her secrets could bring down the regime. All he has to do is get out of her handcuffs and into her mind to unlock them. When surprise alien attacks left Treska Sivekka's body battered and her mind a blank slate, the regime that rose from the ashes gave her an identity and purpose she could believe in. Vice Hunters like Treska seek out the threats to the Union's security. Psypaths like Micah Ariesis are her primary targets and the Union's biggest threats. But now that she's got him in her handcuffs and every scumbag in the star system is after them both, her target may be the only one she can trust. The Union promised security to terrified citizens in exchange for order and obedience, but psypaths like Micah and his allies, the near-human Hathori people, became scapegoats for inexplicable devastation...and then rebels against the repressive regime. The secrets locked in Treska's missing memories can bring down the Union--if he can get out of her handcuffs and into her mind. ~\*THIS BOOK IS A BOXED SET OF ALL FOUR TITLES IN THE SERIES\*~

*Vignettes of the Star Empire* Alistair Young,2012-11-10 In another universe, in a galaxy strangely similar to our own, there's a bubble of space a couple of thousand light-years across - somewhat distorted by bumping into the edges of the galactic disk to acme and nadir - filled with millions of stars, bound together by an ever-expanding spiderweb of manufactured wormholes, and bright with the EM babble of civilized life. These are the Associated Worlds, sprawling myriad species, polities, philosophies, corporations, clades, and cultures. From the hypercivilized Powers at their heart to the brawling colonies of the Periphery and Beyond, trillions of lives are lived, each with its own story to be told. This is a collection of over 44,000 words of nanofiction and metafiction - excerpts from works taken from inside the fictional realm - from the Associated Worlds SF universe; little morsels of a world and culture unlike our own.

*Galtech and the Shadow Warriors* Magnum Indiana,2017-08-31 The GalTech and Shadow Warrior series combines science fiction, business, humor, military special team tactics, symbionts, space fleet warfare, and an occasional splash of romance. Constant action and humor are the foundations this series is built on. Book One, Growth of a Star Empire, introduces main characters. Some of them manage to survive to the end of this multi book series. Some do not. The discovery of cheap, faster-than-light-travel saw millions flee Terra to find homes among the stars. Some planets combined into empires. Some empires became more. The Teaman Empire has a few things that keep its Alliance partners from gobbling it up. Their banking system, the massive Teaman University, the military and industrial research sold to Alliance partners were barely enough to deter takeover. Then came a discovery that became the Shadow Warriors. We join the story after the assassination of the newly crowned Emperor's parents. Himself a recipient of the microbial community that makes him a Shadow, he creates a company that will use Shadow tactics in business to unify a troubled alliance. In the science fiction wild west setting that is the Galaxy at the time, protecting a small Empire and growing the company that could unify an Alliance is anything but peaceful.

She knows no other life than capturing the treacherous psypaths whose mental abilities pose a security threat to the government she loves and serves. When she captures Micah Ariesis and claims the bounty on his head, her mission will be complete. But every scumbag in the star system wants a piece of Micah, and she's got to keep the last psypath out of their grubby claws-and out of her own mind-long enough to get him back to the Capitol. Even if his abilities might hold the key to unlocking her own missing past.

**The Empire of the Self** Christopher Star,2012-12-01 Christopher Star uncovers significant points of contact between Seneca and Petronius, two important Roman writers long thought to be antagonists. In The Empire of the Self, Christopher Star studies the question of how political reality affects the concepts of body, soul, and self. Star argues that during the early Roman Empire the establishment of autocracy and the development of a universal ideal of individual autonomy were mutually enhancing phenomena. The Stoic ideal of individual empire or complete self-command is a major theme of Seneca's philosophical works. The problematic consequences of this ideal are explored in Seneca's dramatic and satirical works, as well as in the novel of his contemporary Petronius. Star examines the rhetorical links between these diverse texts. He also demonstrates a significant point of contact between two writers generally thought to be antagonists--the idea that imperial speech structures reveal the self.

**THE RISE AND FALL of the** Richard Jan Paracka,2021-04 In June 1976 NASA technicians guided the Viking 1 spacecraft into a stable orbit around the planet Mars. While conducting a photographic study of the surface, a strange anomaly was discovered - a stone artifact that resembled a human Face. Later studies of Martian soil and atmosphere discovered a high proportion of Xenon 129, an isotope not found in nature. It's only found where nuclear weapons have been exploded - on Earth and on Mars. Did a nuclear holocaust destroy Mars' ecoSphere and the civilization that lived there at the time? Who might have caused this level of destruction and why would they do it? THE RISE AND FALL of the CYDONIAN STAR EMPIRE poses a possible albeit fictitious answer. This is a never before explored view into the lives and times of Martians - from their point of view. Every other literary or film exploration of civilization on Mars has been told from Earth's point of view. The Cydonian Star Empire was Martian and this story is told as they might have seen it, lived it, and died defending it.

**Star Trek: Mirror Universe: Glass Empires** David Mack,Greg Cox,Mike Sussman,Dayton Ward,Kevin Dillmore,2007-02-20 There are moments glimpsed only in shadow, where darkness rules and evil incarnate thrives. You hope against hope that in your lifetime, evil is relegated to the shadows. But what if it wasn't? What if you lived in a universe where your life was measured only by what you could do for the Empire? What would you do to

As quickly and brutally as Hoshi seized power, imperial rule is taken from her. Her only chance to rule again is to ally herself with a lifelong foe, and an alien. Star Trek® One man can change the future, but does he dare? Spock, intrigued by the vision of another universe's Federation, does what no Vulcan, no emperor, has ever done: seize power in one blinding stroke of mass murder. And at the same instant he gains imperial power, Spock sows the seeds for the Empire's downfall. Is this a form of Vulcan madness, or is it the coolly logical plan of a man who knows the price his universe must pay for its freedom? Star Trek: The Next Generation®—Humanity is a pitiful collection of enslaved, indentured, and abused peoples. No one dares to question the order, except at peril of their lives. One man survives by blinding himself to the misery around him. However, Jean-Luc Picard resists, just once. And in that one instant he unlocks a horror beyond the tyranny of the Alliance. Can a man so beaten down by a lifetime of oppression stop the destruction?
