5,500 Quilt Block Designs Maggie Malone,2005 A must-have for every quilter: the ultimate pattern resource, with an astounding 5,500 blocks. With 5,500 blocks to copy, adapt, and combine in countless ways, no quilter will ever have to run out of patterns anymore. Some designs are classics and taken from museum collections, handed from friend to friend, or kept in a family for many years. Each pattern is drawn on a grid showing the number of squares to the block which makes it easy to mix-and-match, because they all draft to the same size. The dazzling choices include a Premium Star, Double Pyramid, Strips and Squares, Farmer's Puzzle, Sunburst, Beggar's Blocks, and countless more. They're arranged by type--including 4-, 5-, and 9-patch patterns; circles and curves; octagons; diamonds; and 8-point stars--and all indexed alphabetically by name. There's even information on each block's source. As a special bonus Maggie Malone has included a section of Alphabet Patch Patterns to use for personalizing every block. No quilter can do without this book.

Life of a Star Asherdee Diamond,2017-05-29 Growing up in the inner city of Chicago is not easy for Star Renee Jones, but neither is dodging the traps her family keep setting for her. Drugs tear the Jones family apart and leaves Star in need of her mother, Diamonds love, but Diamond is also in search of love and finds it in the worst places. As Star grows older and experiences a grievous amount of heartbreak and disappointment, she eventually faces a bitter reality- her survival and success depend solely on the strength of her hustle. Star is determined not to follow in the vicious,destructive cycle she constantly encounters, yet her own actions will prove if she can end the madness or continue in the cause of her own moral genocide.

Flawed Pavan C. Lall,2019-08-25 In early 2018, the implosion of Nirav Modi's Firestar Diamonds International, on its way to becoming India's first truly global luxury company, threw the country's diamond industry and its banking system into utter disarray. Allegations against Modi, of defrauding banks to the tune of US\$1.8 billion, brought a whole business community under scrutiny and escalated rapidly into an international scandal. Based on personal encounters, incisive interviews and meticulous research, this riveting narrative exposes the incredible twists and turns of the Nirav Modi story - of a third-generation diamantaire who moved from Belgium to India to apprentice with his uncle, Mehul Choksi, an established diamond merchant with extensive connections; of an astute businessman whose firm grip over an intercontinental supply chain saw his branded jewellery stores dotting not just every Indian metropolis but also marquee locations such as London, New York and Hong Kong; and of a reclusive, inscrutable man with a penchant for the high life that possibly led him to fly too close to the sun. As the Nirav Modi saga - complete with his arrest on international soil, rejected bail pleas, extradition theatrics and the frenzied pursuit of diamond-trading minutiae by investigative agencies across three nations - continues to make headlines, Flawed recounts in close, compelling detail the rise of a global player and his equally dramatic fall. Arresting and revelatory, it raises indispensable questions about how one man's drive to succeed at all costs can jeopardize an entire ecosystem.

Lorna Doone Richard Doddridge Blackmore,1906 Lorna Doone is the story of how John Ridd, an unsophisticated farmer, falls in love with the beautiful and aristocratic Lorna Doone, kidnapped as a child by the outlaw Doones on Exmoor. The novel is multi-faceted: it is a romance, a historical novel set at the time of the Monmouth Rebellion in the seventeenth century, and a new development in the pastoral tradition.

Tiger-lilies Sidney Lanier,1867 Tiger-Lilies is actually a somewhat autobiographical book. In it, Lanier analyzes the relationship between a Northerner and a Southerner throughout the Civil War. As a Southerner who had fought for the Confederate army, Lanier had experienced the war firsthand, both on the battlefield and as a prisoner of war. These experiences are recognizable in the battle scenes especially, which are considered some of the most realistic representations of Civil War combat in literature. Ultimately, Tiger-Lilies can be interpreted as an anti-war novel and one of Lanier's less successful endeavors in the course of his career.--The History Engine

The 48 Laws of Power Robert Greene,2000-09-01 Amoral, cunning, ruthless, and instructive, this multi-million-copy New York Times bestseller is the definitive manual for anyone interested in gaining, observing, or defending against ultimate control - from the author of The Laws of Human Nature. In the book that People magazine proclaimed "beguiling" and "fascinating," Robert Greene and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence ("Law 1: Never Outshine the Master"), others teach the value of confidence ("Law 28: Enter Action with Boldness"), and many recommend absolute self-preservation ("Law 15: Crush Your Enemy Totally"). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package, The 48 Laws of Power is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.

The Romance of Golden Star George Chetwynd Griffith,2020-09-28 'Ah, what a thing it would be for us if his Inca Highness were really only asleep, as he looks to be! Just think what he could tell us—how easily he could re-create that lost wonderland of his for us, what riddles he could answer, what lies he could contradict. And then think of all the lost treasures that he could show us the way to. Upon my word, if Mephistopheles were to walk into this room just now, I think I should be tempted to make a bargain with him. Do you know, Djama, I believe I would give half the remainder of my own life, whatever that may be, to learn the secrets that were once locked up in that withered, desiccated brain of his.' The speaker

was one of two men who were standing in a large room, half-study, half-museum, in a big, old-fashioned house in Maida Vale. Wherever the science of archæology was studied, Professor Martin Lamson was known as the highest living authority on the subject of the antiquities of South America. He had just returned from a year's relic-hunting in Peru and Bolivia, and was enjoying the luxury of unpacking his treasures with the almost boyish delight which, under such circumstances, comes only to the true enthusiast. His companion was a somewhat slenderly-built man, of medium height, whose clear, olive skin, straight, black hair, and deep blue-black eyes betrayed a not very remote Eastern origin. Dr Laurens Djama was a physiologist, whose rapidly-acquired fame—he was barely thirty-two—would have been considered sounder by his professional brethren if it had not been, as they thought, impaired by excursions into by-ways of science which were believed to lead him perilously near to the borders of occultism. Five years before he had pulled the professor through a very bad attack of the calentura in Panama, where they met by the merest traveller's chance, and since then they had been fast friends. They were standing over a long packing-case, some seven feet in length and two and a-half in breadth, in which lay, at full length, wrapped in grave-clothes that had once been gaily coloured, but which were now faded and grey with the grave-dust, the figure of a man with hands crossed over the breast, dead to all appearances, and yet so gruesomely lifelike that it seemed hard to believe that the broad, muscular chest over which the crossed hands lay was not actually heaving and falling with the breath of life. The face had been uncovered. It was that of a man still in the early prime of life. The dull brown hair was long and thick, the features somewhat aquiline, and stamped even in death with an almost royal dignity. The skin was of a pale bronze, though darkened by the hues of death. Yet every detail of the face was so perfect and so life-like that, as the professor had said, it seemed to be rather the face of a man in a deep sleep than that of an Inca prince who must have been dead and buried for over three hundred years. The closed eyes, though somewhat sunken in their sockets, were the eyes of sleep rather than of death, and the lids seemed to lie so lightly over them that it looked as though one awakening touch would raise them.

Picatrix ,2020-04-22 A manual for constructing talismans, mixing magical compounds, summoning planetary spirits, and determining astrological conditions, Picatrix is a cornerstone of Western esotericism. It offers important insights not only into occult practices and beliefs but also into the transmission of magical ideas from antiquity to the present. Dan Attrell and David Porreca’s English translation opens the world of this vital medieval treatise to modern-day scholars and lay readers. The original text, Ghāyat al-Ḥakīm, was compiled in Arabic from over two hundred sources in the latter half of the tenth century. It was translated into Castilian Spanish in the mid-thirteenth century, and shortly thereafter into Latin. Based on David Pingree’s edition of the Latin text, this translation captures the spirit of Picatrix’s role in the European tradition. In the world of Picatrix, we see a seamless integration of practical magic, earnest piety, and traditional philosophy. The detailed introduction considers the text’s reception through multiple iterations and includes an enlightening statistical breakdown of the rituals described in the book. Framed by extensive research on the ancient and medieval context that gave rise to the Latin version of the text, this translation of Picatrix will be an indispensable volume for students and scholars of the history of science, magic, and religion and will fascinate anyone interested in the occult.
