Microbial Quality of Water Supply in Distribution Systems Edwin E. Geldreich,1996-01-18 Hidden problems, buried deep in the pipe networks of water distribution systems, are very serious potential threats to water quality. Microbial Quality of Water Supply in Distribution Systems outlines the processes and issues related to the degradation of water quality upon passage through networks of pipes, storage reservoirs, and standpipes on its way to the consumer. The risks associated with biofilm accumulation, bacteria, and other contaminants are discussed in great detail. In addition to its excellent microbiological coverage of organisms in drinking water and biofilms in distribution systems, Microbial Quality of Water Supply in Distribution Systems provides clear treatments of the technical and public communication issues most commonly affecting the quality of water and water supply systems. The inclusion of numerous case histories in this new book makes it a complete reference source for anyone concerned with water quality and water distribution systems.

Letters from the Prairies Chansoo Kim M.D.,2019-07-08 Letters from the Prairies is loaded with many hotly debated issues, such as the carpal tunnel syndrome (CTS). Is CTS all work-related or a simply overused syndrome? Is genetic counseling really working? What new drugs are available for muscular dystrophy and ALS? Is talcum powder really carcinogenic or merely part of junk science? Letters from the Prairies also addresses issues regarding Dr. Kim's native country of South Korea. Is the Korean War the most forgotten war? Could the 2018 Winter Olympics be compared to China's ping-pong diplomacy? Finally, this book discusses Dr. Kim's mentor, Howard A. Rusk, MD, who is often described as the Father of Rehabilitation Medicine and his personal and professional relationship with Dr. Rusk.

Just My Two Cents Chansoo Kim,2012-07-09 Two scores and seven years ago, I set foot on American soil in order to pursue my Postgraduate medical training at New York University Medical CenterBellevue Hospital, New York City, New York. Now, looking back upon the vast time-span of the five decades gone by, I can hardly believe that our national landscape has undergone a sea change. According to an old Oriental adage, Even Mother Nature changes in a decades time, thus the inevitable changes have turned at least five times over beyond recognition. America as we know it today is a drastically different country from what we observed back in the 60s: many a thing that was acceptable back then is no longer even permissible, or downright illegal. Indeed, it goes without saying that the last half a century has been both tumultuous and cataclysmal in U.S. history. I have lived in Springfield, IL for 38 years since 1974 in a professional move from Honolulu, Hawaii and I became a U.S. citizen in 1976 when we celebrated the Bicentennial. I am still very grateful to my adopted country for what she has done for me and my family. My two children were born, raised and educated in this blessed nation. Nothing gives me more pleasure and happiness than to see them vigorously strive for their own professional careers. As we live in a diverse, pluralistic society, aptly called melting pot or tossed salad, I, myself, am always determined to be an active Player in the Great American Game of Life rather than being an idle or passive spectator. For nearly quarter a century, whatever social issues or subjects might come along to grab my attention, I haven't hesitated to express my personal or professional opinion or viewpoint by writing to the Editor of newspapers, local and national, magazines, periodicals as well as professional journals. My letters and communications number altogether a little over 120. Now, I xxii call them collectively, JUST MY TWO CENTS. Most of them were published in the respective media, and my readers responses, whether favorable or critical, are also included. If indicated, some references are provided for further elucidation. I am well aware that my voice is feeble or hardly audible like a voice in the wilderness. Yet, I believe that I leave behind my footprints on the Prairie that I have traversed thus far. This book would not have come into existence without the loving and faithful support of my beloved wife, Young, who is always the source of my strength. My special thanks go to Aimie Trussell and Ms. Sara Barger who shared unselfishly their precious time with me in the preparation of the manuscript. I will always be grateful to them for their generous help. February 20, 2012 Chansoo Kim, M.D.

Springfield's Celebrated Horseshoe Sandwich Carolyn Harmon & Tony Leone,2019 In a town famous for its politics, one local favorite moves unchallenged across party lines. Open-faced, piled high with fries and slathered in cheese sauce, the Horseshoe Sandwich has represented Springfield cuisine since 1928, when it first came out of the Leland Hotel kitchen. Tour the restaurants that have kept the tradition alive for almost a century, including bygone eateries like The Mill and contemporary stalwarts like Darcy's Pint. Sample secret recipes while following the horseshoe trail through Central Illinois and across the country. From the Clydesdale Challenge to the biggest and strangest incarnations of the shoe, Carolyn Harmon and Tony Leone provide a comprehensive history of this delicious dish.--

The Evidence Enigma Tiffany Bergin,2016-03-03 Why do policymakers sometimes adopt policies that are not supported by evidence? How can scholars and practitioners encourage

policymakers to listen to research? This book explores these questions, presenting a fascinating case study of a policy that did not work, yet spread rapidly to almost every state in the United States: the policy of correctional boot camps. Examining the claims on which the implementation of the policy were based, including the assertions that such boot camps would reduce reoffending, save public money and ease overcrowding - none of which proved to be universally accurate - The Evidence Enigma also investigates the political, economic, cultural, and other factors which encouraged the spread of this policy. Both qualitative and quantitative methods are used to test hypotheses, as the author draws rich comparisons with other policies, including Drug Abuse Resistance Education (DARE), abstinence-only sex education programs, and the electronic monitoring or tagging of offenders in England and Wales. Presenting important lessons for guarding against the proliferation of policies that don't work in future, this ground-breaking and accessible book will be of interest to those working in the fields of criminology, sociology and social and public policy.

Intruding on Academe Jack R. Van Der Slik,2001 In this fascinating, theoretically informed case study of policy-making, Jack R. Van Der Slik demonstrates partisan politics in action in Illinois. Specifically, he shows how major changes in governing state universities were enacted over the objections of members of the higher education community, who preferred to maintain the status quo. In 1991, Republican Governor Jim Edgar, enthusiastically aided by Lieutenant Governor Bob Kustra, began a political effort to decentralize the system of systems, which had governed state universities since the 1960s. Despite partisan defeat of their plan in 1993, Edgar and Kustra managed to neutralize support for the status quo in the educational community. After their 1995 landslide reelection, which brought about Republican majorities in both houses of the legislature, Edgar and Kustra were so successful in achieving their goals that they actually had to restrain the legislature's enthusiasm for decentralization: the legislature wanted to extend decentralization to community colleges. To account for these policy shifts, Van Der Slik interviewed twenty-five significant players from the executive branch of Illinois government, from the legislature, and from the educational community. Grounding his study theoretically, he compared his findings to previous studies in American policy-making: Jack Kingom's 1984 notion of the crucial role of the policy entrepreneur; arguments in 1993 by Frank R. Baumgartner and Bryan D. Jones that public policies are inherently unstable and that discoverable phenomena can account for policy eruption; and research in 1995 by Charles O. Jones covering presidential transitions from Kennedy to Reagan. In thisanalysis of political give and take, Van Der Slik notes that elected officials proposed a solution to the problems of bureaucratic bloat and unresponsiveness that leaders of the higher education community would not support. Political leaders based their actions on bold intuition rather than on a rational consideration of the consequences. Given the possibility of change, Van Der Slik observes, politicians instinctively knew what policies to effect. To a remarkable degree, the political actions in Illinois fit the theoretical formulations of previous scholarship in national policy-making. As key participants recount their own actions and their observations, then, Van Der Slik places what happened in Illinois into a larger context.
