Long Island High School Sports Christopher R. Vaccaro,2009 For nearly 120 years, Long Island has fielded high school sports teams. In that span, numerous local athletes rose to the highest level, dynasties were built, legends were made, and the nation's largest island was filled with captivating athletic stories and sports lore that will live forever. Long Island High School Sports strings together a pictorial history of Long Island's oldest, most famous, and well-respected teams, coaches, and athletes.

The Rise of American High School Sports and the Search for Control Robert Pruter,2013-08-29 Nearly half of all American high school students participate in sports teams. With a total of 7.6 million participants as of 2008, this makes the high school sports program in America the largest organized sports program in the world. Pruter's work traces the history of high school sports from the student-led athletic clubs of the 1800s through to the establishment of educator control of high school sports under a national federation by the 1930s. Pruter's research serves not only to highlight this rich history but also to provide new perspectives on how high school sports became the arena by which Americans fought for some of the most contentious issues in society, such as race, immigration and Americanization, gender roles, religious conflict, the role of the military in democracy, and the commercial exploitation of our youth.

New York Sports Stephen Norwood,2018-06-01 New York has long been both America's leading cultural center and its sports capital, with far more championship teams, intracity World Series, and major prizefights than any other city. Pro football's "Greatest Game Ever Played" took place in New York, along with what was arguably history's most significant boxing match, the 1938 title bout between Joe Louis and Max Schmeling. As the nation's most crowded city, basketball proved to be an ideal sport, and for many years it was the site of the country's most prestigious college basketball tournament. New York boasts storied stadiums, arenas, and gymnasiums and is the home of one of the world's two leading marathons as well as the Belmont Stakes, the third event in horse racing's Triple Crown. New York sportswriters also wield national influence and have done much to connect sports to larger social and cultural issues, and the vitality and distinctiveness of New York's street games, its ethnic institutions, and its sports-centered restaurants and drinking establishments all contribute to the city's uniqueness. New York Sports collects the work of fourteen leading sport historians, providing new insight into the social and cultural history of America's major metropolis and of the United States. These writers address the topics of changing conceptions of manhood and violence, leisure and social class, urban night life and entertainment, women and athletics, ethnicity and assimilation, and more.

Thanksgiving 1959 Jay Price,2009 Thanksgiving 1959 is published to coincide with the 50th anniversary of NY city's first official schoolboy championship football game. Thanksgiving 1959 is the story of the players and coaches in that game and the surrounding community.

Women's Sports Allen Guttman,1991 The subject is rife with social and cultural implications which Guttman explores as he traces the development of women's sports from antiquity to the present, including the evolution and the revolution in the 20th century and contemporary controversies.

THE EDUCATION AND DECONSTRUCTION OF MR. BLOOMBERG Sally A. Friedman,2010-07-12 This is an exposé detailing New York City Mayor Michael Bloomberg's education and construction policies between 2002 and 2009 inclusive. It covers all major education issues: schools chancellor, school budget, grading of the schools, reducing class sizes, small, charter and culturally themed schools, standardized testing, school safety, overcrowding and mayoral control; and all major real estate development issues: rezoning, ULURP, self-certification, various fatal construction accidents and disasters, affordable housing, lack of construction, law enforcement, and the large projects that characterized the administration. This book features a list of abbreviations and a comprehensive index in the back. A page of the Introduction, p. 11, is crucial for understanding references made throughout the book. Therefore, it is reproduced below: "Making himself available to parents. The mayor performed the important tasks of negotiating with the unions, securing funding from the higher powers and making public relations appearances when there was good news to report. I have observed that there were three recurring themes in Mr. Bloomberg's modus operandi in both Education and Real Estate Development: Theme 1: He was overly optimistic. As his various education initiatives and construction projects progressed, he routinely threw around and changed numbers on standardized test scores, graduation rates, school openings, school crime rates, construction costs, creation of jobs and affordable housing units, among others, and sometimes even distorted facts outright. Theme 2: Time after time, Mr. Bloomberg asked for input from the community, or purported to, on new school openings and on construction of schools and other projects, but usually ended up hiring his cronies and ignored the community's wishes. Theme 3: He took advantage of legal loopholes or skirted around the law to forge ahead with his agenda. His agenda was to acquire power. Why else did he take control of the schools and overturn term limits? It was not for the money. In November 2009, Mr. Bloomberg won his third-term election bid by a narrow margin, mostly because he was still viewed as a stronger candidate than the opposing one. His power and popularity were waning, however, rocked by various investigations in recent years, including a slush-fund scandal, and corruption and sloppiness in construction that led to fatal accidents that resulted in the termination of decades-long unethical practices. Further, he was accused of being involved in various conflicts of interest and of being hypocritical on environmental and health issues. Two farmyard clichés and one generic cliché also aptly describe many occurrences during the Bloomberg administration between 2002 and 2009: Cliché 1: "Just another case of the fox guarding the henhouse" Cliché 2: "Closing the barn door after the

horses have already fled” Cliché 3: “Do as I say, not as I do” The above themes and clichés are so common in my text, that I refer to their generic names; i.e., I will use the blog style, for example, “File under Theme 1” or “File under Cliché 2” when providing evidence of same. Enjoy.”

The Origins and History of the All-American Girls Professional Baseball League Merrie A. Fidler,2015-05-07 This in-depth treatment of the organization and operation of the All-American Girls Professional Baseball League draws on primary documents from league owner Arthur Meyerhoff and others for a unique perspective inside the AAGPBL. Later chapters cover team administrative structures, managers, chaperones, player backgrounds, and league policies. Finally, discussion focuses on the activities of the AAGPBL Players’ Association from 1980 onward. Kroessler's comprehensive and entertaining time line stretches from the pastoral entertainments of the Dutch to the corporate captivity of professional sports ... A Mic for All Seasons Kenny Albert,2023-10-10 When Kenny Albert was growing up, family gatherings sounded a lot like a dispatch from the first all-sports radio station. There was his father, Marv, whose voice shaped the sound of modern basketball, and there too were his uncles Al and Steve— a trio of professional play-by-play men with a listenership that spanned the country. It was only a matter of time before Kenny, armed with a toy tape recorder, yearned to follow in their footsteps. Some 3,000 broadcasts later, Kenny Albert has amassed countless stories from the world of sports and media. A Mic for All Seasons is his chronicle of a charmed yet unlikely journey, from a youth spent calling games in his bedroom for a fictitious audience to ten-hour bus rides with a minor-league hockey team, plus the time he worked five different sports in one chaotic, 19-day stretch. The only play-by-play broadcaster who currently calls all four major sports in North America, Albert details the stand-out moments from his three-decade career, including the 1994 Stanley Cup Final, Jose Bautista's bat flip in the 2015 ALCS, and the U.S. women's hockey Olympic gold-medal winning shootout in Pyeongchang in 2018. Part memoir, part behind-the-scenes look at the world of broadcast media, A Mic for All Seasons also features stories about life in the booth, game preparation, travel hijinks, marquee events, meetings with star athletes and coaches, and much more.

When the Forgotten Borough Reignited: The 1964 Little League World Champions Jeff Ingber,2021-06-16 The 1964 Little League World Series was unique and memorable. The final game was won on a no-hitter spun by a pitcher on an All-Star team from the middle of Staten Island, the forgotten borough that appeared to have more in common with the American heartland than the rest of New York City. Not only had a Big Apple team never before even qualified for the World Series, but it was the first time a U.S. team defeated an international one for the championship. The members of the victorious Mid-Island Little League team were treated to a ticker-tape parade in lower Manhattan and a reception by the mayor as well as meetings with celebrities and baseball icons. When the Forgotten Borough Reignited takes the reader back to 1964, a transformational year for America in which baseball still firmly held its position as the treasured national pastime. Months before the opening of the Verrazzano-Narrows Bridge, which quickly led to a tidal wave of change throughout Staten Island, there was a magical summer during which fourteen boys, none older than twelve, experienced a degree of fame few adults ever do while uniting the borough and city in frenzied celebration.

Duke Slater Neal Rozendaal,2012-07-12 Fred “Duke” Slater was the greatest African American football player of the first half of the 20th century. Born into poverty, he developed into a two-time All-American tackle at the University of Iowa from 1918 to 1921. When the College Football Hall of Fame opened decades later, Duke was the only African American elected in the inaugural class. He then became the first black lineman in National Football League history in 1922, embarking on a remarkable ten-year career in the NFL. Incredibly, Slater was the only African American in the entire NFL for most of the late 1920s, yet he was widely recognized as one of the League’s best linemen. But his pioneering influence extended beyond the gridiron. After retirement, he broke ground in the legal field as just the second black judge in Chicago history. On the field or on the bench, the inspirational life of Judge Duke Slater is a true American success story.

Bloomer Girls Debra A Shattuck,2017-01-18 Disapproving scolds. Sexist condescension. Odd theories about the effect of exercise on reproductive organs. Though baseball began as a gender-neutral sport, girls and women of the nineteenth century faced many obstacles on their way to the diamond. Yet all-female nines took the field everywhere. Debra A. Shattuck pulls from newspaper accounts and hard-to-find club archives to reconstruct a forgotten era in baseball history. Her fascinating social history tracks women players who organized baseball clubs for their own enjoyment and found roster spots on men's teams. Entrepreneurs, meanwhile, packaged women's teams as entertainment, organizing leagues and barnstorming tours. If the women faced financial exploitation and indignities like playing against men in women's clothing, they and countless ballplayers like them nonetheless staked a claim to the nascent national pastime. Shattuck explores how the determination to take their turn at bat thrust female players into narratives of the women's rights movement and transformed perceptions of women's physical and mental capacity.

Who Shot Sports Gail Buckland,2016-07-05 From the creator/editor of Who Shot Rock & Roll (“I loved this book” –Dwight Garner, The New York Times. “Whatever Gail Buckland writes, I want to read”), a book that brings together the work of 165 extraordinary photographers, most of their images heralded, most of their names unknown; photographs that capture the essence of athletes’ mastery of mind/body/soul against the odds, doing the impossible, seeming to defy the laws of gravity, the laws of physics, and showing what human will, discipline, drive, and desire look like when suspended in time. The first book to show the range, cultural importance,

and aesthetics of sports photography, much of it legendary, all of it powerful. Here, in more than 280 spectacular images—more than 130 in full color—are great action photographs; portraits of athletes, famous and unknown; athletes off the field and behind the scenes; athletes practicing, working out, the daily relentless effort of training and achieving physical perfection. Buckland writes that sports photographers have always been central to the technical advancement of photography, that they have designed longer lenses, faster shutters, motor drives, underwater casings, and remote controls, allowing us to see what we could never see—and hold on to—with the naked eye. Here are photographs by such masters as Henri Cartier-Bresson, Robert Capa, Danny Lyon, Walker Evans, Annie Leibovitz, and 160 more, names not necessarily known to the public but whose photographic work is considered iconic . . . Here are photographs of Willie Mays . . . Carl Lewis . . . Ian Botham . . . Kobe Bryant . . . Magic Johnson . . . Muhammad Ali . . . Serena Williams . . . Bobby Orr . . . Stirling Moss . . . Jesse Owens . . . Mark Spitz . . . Roger Federer . . . Jackie Robinson. Here is the work of the great sports photographers Neil Leifer, Walter Iooss Jr., Bob Martin, Al Bello, Robert Riger, and Heinz Kleutmeier of Sports Illustrated, who was the first to put a camera at the bottom of an Olympic swimming pool and photograph swimmers from below . . . Here are pictures by Charles Hoff, the New York Daily News photographer of the 1930s, 1940s, and 1950s, whose images of the 1936 Berlin Olympics still inspire shock and awe . . . and those of Ernst Haas, whose innovative color pictures of bullfighting of the 1950s remain poetic evocations of a bloody sport . . . To make the selections for Who Shot Sports, Buckland, a former curator of the Royal Photographic Society of Great Britain and Benjamin Menschel Distinguished Visiting Professor at Cooper Union, has drawn upon the work of more than fifty archives, from the Museum of Fine Arts, Houston, to Sports Illustrated, Condé Nast, Getty Images, the National Baseball Hall of Fame, L'Équipe, The New York Times, and the archives of the International Olympic Committee in Lausanne. Here are classic and unknown sports images that capture the uncapturable, that allow us to experience “kinetic beauty,” and that give us the essence and meaning—the transcendent power—of sports.
