A Privileged Journey David Maidment, 2015-06-30 **A Privileged Journey, Volume 1 1940-1962** is a personal and individual account of the author's youthful enthusiasm for trains and the travels he undertook in Great Britain and on the European continent as a student and management trainee of British Railways. It is illustrated by over 140 black and white photos, mostly taken by the author himself as a boy and student. The chapters cover the emergence of the young boy's interest in steam locomotives in particular, through his 'trainspotting' days to his numerous journeys in the late 1950s and early 1960s, with many accounts of locomotive performance supported by an extensive appendix of train 'logs'. Some of the chapters are much extended narratives from articles serialised in the UK enthusiast magazine, 'Steam World' over the last decade and are also based on ten hours of verbal interviews recorded by the UK National Railway Museum at York as part of their 'Oral History' archives supported by a UK National Lottery Grant.??The second volume, to be published at a later date, covering the period from 1962 to the current time, will describe his continuing interest and records while pursuing his career as stationmaster, area manager, train planner, Regional operating manager and finally Head of Safety before his retirement in 1996 and subsequent career as an international railway safety consultant.

Men of Steam David Wragg, 2011-12-13 Few modes of travel have the enduring appeal of steam railways. Today preserved lines, locomotives and rolling stock attract not just expert enthusiasts but more casual visitors who are keen to savor the distinctive atmosphere of a lost era in transport history. Yet these relics are but one aspect of the long story of steam, for they cannot reveal the human side of working life on the railways the experience of the railwaymen who operated the machinery of the steam age. It is this, the human aspect of railway history that David Wragg has chosen as the subject of this landmark book. He has selected extracts from the personal reminiscences of railway men to create an all-round portrait of the industry in its prime. He records their memories, anecdotes and insights, and he brings the routines of the steam railway vividly back to life.
