Mallard Don Hale,2019-09-02 Just over eighty years ago on the East Coast main line, the streamlined A4 Pacific locomotive Mallard reached a top speed of 126mph – a world record for steam locomotives that still stands. Since then, millions have seen this famous locomotive, resplendent in her blue livery, on display at the National Railway Museum in York. Here, Don Hale tells the full story of how the record was broken: from the nineteenth-century London–Scotland speed race and, surprisingly, traces Mallard's futuristic design back to the Bugatti car and the influence of Germany's nascent Third Reich, which propelled the train into an instrument of national prestige. He also celebrates Mallard's designer, Sir Nigel Gresley, one of Britain's most gifted engineers. Mallard is a wonderful tribute to one of British technology's finest hours.

Foreign Correspondence John Maxwell Hamilton,Regina G. Lawrence,2013-09-13 Despite the importance of foreign news, its history, transformation and indeed its future have not been much studied. The scholarly community often calls attention to journalism's shortcomings covering the world, yet the topic has not been systematically examined across countries or over time. The need to redress this neglect and the desire to assess the impact of new media technologies on the future of journalism – including foreign correspondence – provide the motivation for this stimulating, exciting and thought-provoking book. While the old economic models supporting news have crumbled in the wake of new media technologies, these changes have the potential to bring new and improved ways to inform people of foreign news. In an increasingly globalized era, journalism is being transformed by the effortlessly quick sharing of information across national boundaries. As such, we need to reconsider foreign correspondence and explore where such reporting is headed. This book discusses the current state and future prospects for foreign correspondence across the full range of media platforms, and assesses developments in the reporting of overseas news for audiences, governments and foreign policy in both contemporary and historical settings around the globe. As Emmy Award and Pulitzer Prize-winning correspondent Serge Schmemmann reminds us in this book, quality journalism and unbiased reporting are as valid and necessary today as they ever were [...] one of the primary tasks of journalists and scholars as they follow the changes taking place must be to ensure that the 'new international information order' now imposed by the Internet remains true to the ideals and traditions that define our journalism. This book was originally published as a special issue of Journalism

Studies.
