*The Art of Innovation* Tom Kelley,2007-12-18 IDEO, the widely admired, award-winning design and development firm that brought the world the Apple mouse, Polaroid's I-Zone instant camera, the Palm V, and hundreds of other cutting-edge products and services, reveals its secrets for fostering a culture and process of continuous innovation. There isn't a business in America that doesn't want to be more creative in its thinking, products, and processes. At many companies, being first with a concept and first to market are critical just to survive. In *The Art of Innovation*, Tom Kelley, general manager of the Silicon Valley based design firm IDEO, takes readers behind the scenes of this wildly imaginative and energized company to reveal the strategies and secrets it uses to turn out hit after hit. IDEO doesn't buy into the myth of the lone genius working away in isolation, waiting for great ideas to strike. Kelley believes everyone can be creative, and the goal at his firm is to tap into that wellspring of creativity in order to make innovation a way of life. How does it do that? IDEO fosters an atmosphere conducive to freely expressing ideas, breaking the rules, and freeing people to design their own work environments. IDEO's focus on teamwork generates countless breakthroughs, fueled by the constant give-and-take among people ready to share ideas and reap the benefits of the group process. IDEO has created an intense, quick-turnaround, brainstorm-and-build process dubbed the Deep Dive. In entertaining anecdotes, Kelley illustrates some of his firm's own successes (and joyful failures), as well as pioneering efforts at other leading companies. The book reveals how teams research and immerse themselves in every possible aspect of a new product or service, examining it from the perspective of clients, consumers, and other critical audiences. Kelley takes the reader through the IDEO problem-solving method:

- Carefully observing the behavior or anthropology of the people who will be using a product or service
- Brainstorming with high-energy sessions focused on tangible results
- Quickly prototyping ideas and designs at every step of the way
- Cross-pollinating to find solutions from other fields
- Taking risks, and failing your way to success
- Building a Greenhouse for innovation

IDEO has won more awards in the last ten years than any other firm of its kind, and a full half-hour Nightline presentation of its creative process received one of the show's highest ratings. *The Art of Innovation* will provide business leaders with the insights and tools they need to make their companies the leading-edge, top-rated stars of their industries.

*Gods and Kings* Dana Thomas, 2015-02-10 More than two decades ago, John Galliano and Alexander McQueen arrived on the fashions scene when the business was in an artistic and economic rut. Both wanted to revolutionize fashion in a way no one had in decades. They shook the establishment out of its bourgeois, minimalist stupor with daring, sexy designs. They turned out landmark collections in mesmerizing, theatrical shows that retailers and critics still gush about and designers continue to reference. Their approach to fashion was wildly different—Galliano began as an illustrator, McQueen as a Savile Row tailor. Galliano led the way with his sensual bias-cut gowns and his voluptuous hourglass tailoring, which he presented in romantic storybook-like settings. McQueen, though nearly ten years younger than Galliano, was a brilliant technician and a visionary artist who brought a new reality to fashion, as well as an otherworldly beauty. For his first official collection at the tender age of twenty-three, McQueen did what few in fashion ever achieve: he invented a new silhouette, the Bumster. They had similar backgrounds: sensitive, shy gay men raised in tough London neighborhoods, their love of fashion nurtured by their doting mothers. Both struggled to get their businesses off the ground, despite early critical success. But by 1997, each had landed a job as creative director for couture houses owned by French tycoon Bernard Arnault, chairman of LVMH. Galliano's and McQueen's work for Dior and Givenchy and beyond not only influenced fashion; their distinct styles were also reflected across the media landscape. With their help, luxury fashion evolved from a clutch of small, family-owned businesses into a \$280 billion-a-year global corporate industry. Executives pushed the designers to meet increasingly rapid deadlines. For both Galliano and McQueen, the pace was unsustainable. In 2010, McQueen took his own life three weeks before his womens' wear show. The same week that Galliano was fired, Forbes named Arnault the fourth richest man in the world. Two months later, Kate Middleton wore a McQueen wedding gown, instantly making the house the world's most famous fashion brand, and the Metropolitan Museum of Art opened a wildly successful McQueen retrospective, cosponsored by the corporate owners of the McQueen brand. The corporations had won and the artists had lost. In her groundbreaking work *Gods and Kings*, acclaimed journalist Dana Thomas tells the true story of McQueen and Galliano. In so doing, she reveals the revolution in high fashion in the last two decades—and the price it demanded of the very ones who saved it.
